

Price per Gallon

IN buying paint, many people make the mistake of simply considering first cost. They think only of the price per gallon. THIS RESULTS IN THE SELECTION OF A LOW-PRICED, SHORT-LIVED, ADULTERATED PAINT.

The right way to buy paint is to consider—not primarily what it costs per gallon—but spreading power, ease of application and durability.

B. P. S. Paint, as regards spreading capacity, is more economical than a so-called "cheap" paint. It will cover at least 25 per cent more surface. This is largely due to the much finer grinding it receives.

On account of pure lead, zinc, and linseed oil used, perfect formula, and fine grinding, B. P. S. Paint is fully 10 per cent easier to apply than coarse, adulterated paint. As cost of applying paint is about twice as expensive as the paint itself, this 10 per cent saving of your painter's time is important.

Further, B. P. S. Paint reduces a beautiful, glossy finish, that will last twice as long as any finish that can be secured by the use of so-called "cheap" paints.

By Spreading Capacity, Ease of Application, and Durability, B. P. S. Paint is the Most Economical.

Why, even a catalogue is no substitute for a visit to the right sort of a jewelry store!

A catalogue gives you prices and partial descriptions—but there are the beauties of design—the artistic effects—the indescribable charm that belongs to good jewelry rightly displayed?

GREEN LAKE SPICERETTES

SPICER, May 27.—The first confirmation class in the history of the Swedish Lutheran Saron church of Spicer was confirmed last Sunday afternoon by the pastor of the church, Rev. A. F. Seastrand, before a large audience that taxed the utmost capacity of the basement. The young people of the class were Esther Boren, Mabel Jacobson, Albert Peterson, Ernest Nordren and Harold Carlson. The review which was given them before the congregation proved interesting and they all showed great efficiency in their replies to the questions put to them. The service lasted nearly three hours, but the impressiveness of it all will long be remembered by all present. The church was appropriately decorated in white and green. Potted plants were also tastefully arranged about the room. A choir rendered a couple of selections.

Miss Dora Lawson is at present staying with her sister, Mrs. F. O. Swanson. She has charge of the Swedish school at Spicer.

A number of young people from town enjoyed a moonlight drive out to August Muller's farm west of town Monday evening.

church are reminded of the prayer meeting at the home of Jacob Kloster next Sunday evening.

Remember the "coffee" at the church basement Thursday evening.

Gust Carlson was in Willmar between trains Saturday.

Service will be held at the Swedish Saron church of Spicer next Sunday forenoon, commencing at 10:30. Student J. B. Sorenson of G. A. College will conduct the meeting. The Queerest Policeman.

"The strangest policemen in the world are in Cape Town, South Africa," said a man who had traveled in the dark continent. "They are the Kaffir negroes. They wear a uniform similar to that of an English soldier, but instead of a club and a revolver they carry a long spear with a red tassel near the point and a short stick which has a heavy brass ball on the end and is attached to the policeman's belt by a cord some sixty feet long. They throw the ball and stick and the cord winds around the prisoner like a ranchman's lariat and prevents him from walking. They are not allowed to carry firearms, and only make an arrest when ordered by their white officers to do so, but if they are ever sent for a man he had better go without question, for he either goes to jail or the hospital if he resists."—Kansas City Star.
