

Price per Gallon

IN buying paint, many people make the mistake of simply considering first cost. They think only of the price per gallon. This results in the selection of a cheap, adulterated paint.

The right way to buy paint is to consider not primarily what it costs per gallon—but spreading power, ease of application and durability.

P. P. S. Paint, as regards spreading capacity, is more economical than a so-called "cheap" paint. It will cover at least 25 per cent more surface. This is largely due to the much finer grinding it receives.

On account of pure lead, zinc, and linseed oil used, perfect formula, and fine grinding, P. P. S. Paint is fully 10 per cent easier to apply than coarse, adulterated paint. As cost of applying paint is about twice as expensive as the paint itself, this 10% saving of your painter's time is important. Further, P. P. S. Paint produces a beautiful, glossy finish, that will last twice as long as any finish that can be secured by the use of so-called "cheap" paints.

By Spreading Capacity, Ease of Application, and Durability, P. P. S. Paint is the most Economical.

HAWICK HITS

Hawick, May 26.—Rain prevented the church services last Sunday, also the ball game between New London and Hawick. But the gun club met Saturday afternoon and smashed (?) birds as usual. They seem to shoot as long as their shoulders will stand it, only to commence again as soon as their shoulders will stand it. Recipes for sweeney, shoulder-gall, etc., will be kindly and thankfully received by members of the Hawick Gun Club most any time. Club meets again next Saturday afternoon.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; since cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
