Photographers' Resolve.
Erick Elkjer and M. R. Simons returned home last week from St. Paul, where they attended the annual meeting of the Northwestern Photographers Association. They both agreed that the exhibits were larger and better than at any previous meeting. One of the things considered by the meeting was protection for the home photographer from the transient, who tends to take away trade that by right belongs to the tax-paying citizen.

Eagle Lake Wedding.
Last Saturday afternoon at one o'clock, at the home of the bride's parents, Mr. and Mrs. Axel Nelson, at Eagle Lake, was solemnized the marriage of their daughter Bessie to Victor J. Anderson of Spicer. At the appointed time the couple, attended by the bride's sister, Miss Agnes Nelson, as bridesmaid and Reuben Peterson, a cousin of the groom, as best man, took their places and Rev. Gynild, pastor of the Eagle Lake church, spoke the

As a result of discussing this question, the convention adopted the following resolutions and decided to present them to the councils of the cities where members are located to have them enacted as an ordinance: "Anyone engaged in the photo business and not located in a permanent building in a city shall pay a license fee of \$5.00" Of course this applies only to transients. It does not intend to prevent any citizen from taking pictures. It will be of local interest to know that J. C. Jansrud, formerly of Willmar but now located in Mayville, N. D., took three prizes.

The happy couple arrived Wednesday and went to housekeeping in rooms in the beautiful new residence of

words which united the two hearts for the remainder of life's long journey.

The bride was charmingly attired in a princess gown of white Henrietta cloth, carried white roses, and never appeared to better advantage. The bridesmaid also looked her best in a beautiful white dress and carried white carnations. The groom and best man wore the usual conventional black. The color scheme throughout the rooms was green and white. Only the immediate relatives of the contracting parties were present to witness the ceremony.

The man too poor or too mean for the Salvation Army to help has probably not yet been born. Is there anywhere a man too poor or too mean to help the Army in its approaching Harvest Festival?

If you've done well in your harvest or crops, God has been good to you. Remember it and Him with a generous gift to the Salvation Army Harvest Festival, September 16-21.

What the Range Peddlers Did When Here Last.

They would dump a range from the wagon, use a sledge to show that it could not be broken, ask permission to put up the range in the house to show how fine it would work, and get a "receipt" from the farmer, with the understanding that the stove was put in on trial and that the peddler would call later for the same. In the meantime the "receipt" turned out to be a note that had been sold to some bank at a discount. Others bought ranges and gave their notes to be due in some months, but found out in a short while that it was demand notes they had signed.

Bigger prices were charged by the range peddlers than the home dealers asked for similar class of goods. Many stoves did not give satisfaction and had to be taken out, and the old stove put back again, or else a new stove was purchased from the home dealer. Instances of costly lawsuits followed.

Why not buy from a dealer at home? He will sell you a better stove at a less price than a peddler can do. If you want a stove that may be used for an anvil or to throw on a stone pile without breaking, the home dealer can supply you at a less price. Driving around the country is an expensive way of selling goods. Beware of the silvertongued peddlers, and profit from the experience that other people have made.
