Wooltex Styles Are Right.

Of course they are—\$50.00 is spent each year in making them right—yet they cost you no more than do common styles.

If you were to see this suit which is illustrated, you might easily think it was made to order by a first-class custom tailor.

—and that an extremely particular person had chosen everything of the best, —and had paid about \$60. for the result.

assures you of all those points—except the individual order and the price—which is only \$25.00

The suit in the illustration is taffetta lined. It may be had in plain and satin striped panama, serge and worsteds, in white and all the new shades.

Because it's Wooltex, you are sure of the eight most important qualities in a garment.

STYLE

—correct and refined.

MATERIALS

—pure wool (tested) or silk.

SPONGING

—and shrinking—thoroughly done

FIT

—as good as skill can make it.

FINISH

—careful, down to the smallest detail

TAILORING

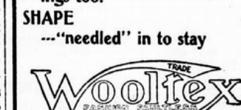

—good, all the way through

LININGS

—extra quality and interlinings too.

SHAPE

—"needed" in to stay

This is the label that identifies the genuine garments, and guarantees two seasons' satisfactory wear.

Wooltex prices are decidedly moderate for such superior quality.

Suits from \$20.00 to \$35.00

Coats from \$6.50 to \$25.00
