## HAWICK HITS

Hawick, June 14.—The circus at Paynesville was well patronized. Some said it was very good and others claim that it did not live up to its advertisements.

W. O. Parker and E. J. Hood were out soliciting votes at Lake Henry Saturday. They report crops not so promising at present as they might be, the land being heavy and the abundant rain making the fields too wet.

E. E. Valley and A. W. Erickson were Paynesville callers the latter part of the week.

The Irving and Ringville ball teams crossed bats on our diamond Sunday afternoon. There were five innings played, the rain putting a stop to the game, the score being 6 to 15 in favor of Ringville.

E. P. Welch and family visited at Erick Erickson's place Sunday.

H. A. Townsend and family visited with E. E. Kelley at Spicer Sunday.

The E. J. Hood family entertained friends and relatives Sunday. Wm King visited with his brothers at Burbank Sunday.

Roseville farmers are rejoicing over the outlook for crops. If this rainy weather keeps up and the weather does not get too hot the Roseville people will have an abundant harvest.

It is reported that the wedding bells are ringing at Lintonville. The contracting parties are Miss Mary Krantz, daughter of Val Krantz, and Mr. Mat Brower of the same place. We wish them many years of happiness.

The Hood boys have divided their crew and are raising two buildings at Lintonville, a store building for G. A. Weidner, and H. Grutzmacher.

Jas. Pelkey has hired Gust Wall to help him with his farm work. He says "beating it" is all right when there is nothing else to do.

Girls, take heed and get a good home.

Mrs. John Wright visited with her parents a couple of days last week.

The Hawick gun club did not shoot Sunday afternoon on account of the rain.

Mrs. P. J. Jacobson died last Friday morning, the cause of death being cancer. She had undergone three operations in a vain attempt to cure the disease. She leaves a husband and two small children to mourn her death. The funeral took place at the Nordland cemetery.

The kidney secretions were irregular and caused me much annoyance. At last I heard about Doan's Kidney Pills and procured a box. I was soon feeling like a different person and I am glad to say the old trouble has never returned."

# A New Rail Road!

Did you read the Minneapolis Journal dated May 27, '09? On the front page of that issue is a long article referring to the new road now being constructed from Mandan, N. D., north-west through Oliver and Mercer Counties. It also speaks of the remarkable growth which this new country west of the Missouri river is having, and verifies my former statements in the Willmar Tribune. Here is a small part of the article in the Journal:

"Never before was such a scratching of the prairie, now that the wheat is in, plowing is still going on for late flax and fodder crops and in all the new sections breaking is in full blast, mostly with steam plows. Stories have gone out this spring about steam plows running nights in a break-neck race to turn over as many square miles as possible. They are not myths. Several plows in this section have been kept going practically twenty-four hours in the day, working after dark by aid of head light."

I have a copy of the Minneapolis Journal in my office containing the article and will gladly show it to you any time and give any other information I have.

Buy a piece of land now where this new road is being built and you are just as sure to win as you are to buy land when you get out to see the country.

## YOUR CLOTHES ARE WASHED CLEANER

AT OUR LAUNDRY THAN IS POSSIBLE AT HOME.

It would take you half a day, for example, to pump the water from a well that we use just to do your one washing.

We use eight complete changes of water. Each change contains nearly ten times as much water as a wash tub holds.

That's one reason why your clothes are cleaner, whiter and more sanitary, when we launder them. Our way is worth your while.
