The following is the matter that appears on the reverse side of the leaflets distributed on the trip:

KANDIYOHI COUNTY IS "DRY" BUT—it has cost more than ONE HUNDRED hard fought elections to make it so. Here is the record:

Table with 3 columns: CITY OF WILLMAR, ATWATER, NEW LONDON, PENNOCK, SPICER, KANDIYOHI. Each column lists years of incorporation and details of dry status.

The three lower villages were incorporated after the moral effect of the repeated fights in the adjoining larger towns had made itself felt in the community. The only saloons now within the borders of the county are two in a little village on the border line of Chippewa county.

Present state laws compel us to make this fight year after year

—with only the manhood of a handful of citizens within the limits of the villages between us and legalized debauchery; fighting the bribery and political influence of a HEARTLESS BREWERY COMBINE that will stop at nothing to accomplish its ends.

THAT IS WHY WE DEMAND A COUNTY OPTION LAW

When that is the situation in Kandiyohi county, the banner temperance county in the State, think of the other 84 counties of Minnesota where the perennial struggle is on for clean towns with the handicap of unjust and un-American laws? IS IT ANY WONDER THAT THE PEOPLE OF MINNESOTA DEMAND COUNTY OPTION? Is patience with half-hearted or corrupt public men, who have repeatedly failed to carry out the demands of the people,—is such patience—STILL A VIRTUE?

RESULTS OF DRY POLICY IN KANDIYOHI COUNTY

ARE WE TROUBLED WITH BLIND PIGS? NO! Not since we elected a Prohibition sheriff who is on the job all the time, and who makes the boot-legger afraid of his own shadow. DOES TRADE GO TO NEIGHBORING COUNTIES? NO! Our business men are nearly unanimously in favor of No-Licence, having found it the best business policy. DOES NOT THE ENFORCEMENT OF LAW RAISE TAXES? NO! In 1892, the last year of uninterrupted license at Willmar, the cost of criminal prosecutions in Kandiyohi county was \$1,236.76, with \$300 fines collected; Last year, 1909, the cost of prosecutions was \$612, and fines paid \$638. ARE THE PEOPLE PROSPERING? YES! On Jan. 1, 1910, the ten banks in the county carried deposits aggregating \$2,097,867.00. This sum is equivalent to \$675.45 for every quarter section of land in the county whether cultivated or not.

John McShane, Benson, Minn., says: "I was troubled with lumbago, caused by a cold settling in my kidneys. The pains in my back were so severe that I suffered acutely when stooping, my back was weak and at times I felt languid and tired. I also had nervous headaches and was in a run down condition. When I heard about Doan's Kidney Pills, I procured a box and after commencing their use I soon felt better every way. Whenever I have a recurrence of the trouble, Doan's Kidney Pills give me relief."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

We often pride ourselves on the fact that we have a good corn crop, but are we getting the yields we should? Are the farmers in this district doing all they can to get the very highest possible yield of corn? In the first place are they paying proper attention to the selection and saving of their seed corn? Probably not. In one of the southern counties of Minnesota a test was recently made of the seed corn saved by a large number of the farmers, and it was found that only 52 per cent of their seed corn was really fit for that use, so that they could count on only half a stand. At the Farmer's Institute here March 14 and 15 you will be told how you can easily test your seed corn so that you may use only the ears that have the proper germinating power, and will also be told many other things about the corn crop that will be of interest and help to you.
