His Downfall.

Broadway caused the downfall of the Fortune Hunter. He lived the life of the Great White Way until he was fired from pillar to post. He had just one good point left, and he clung to that. He did have some self respect. He could not have been such a bad fellow after all. He was not bad at heart. He was shiftless, careless, thoughtless. He had to be reformed, and he was. It's a great story—the way he was reformed.

PROGRESS OF THE BOY SCOUTS

The Local Troop is Rapidly Qualifying in "Tenderfoot" Class. "Second-Class Scouts" Next

The First Minnesota Troop of Scouts met at the library last Friday evening, more than 40 scouts being present. The scoutmaster gave a brief report concerning his meeting with the Twin City people who are heading the scout movement, and told the boys they had reason to feel proud inasmuch as Willmar has the highest standing outside of the twin cities. Then the boys were told of a contest, at present being carried on by the St. Paul Pioneer Press, thru which any scout has a chance to earn either a part of his entire uniform and outfit. Those who write the best stories regarding trips the patrol or the troop has made, or concerning the patrol, its organization, what it has done and intends to do, will receive the prizes, ranging from a scout coat to a scout belt. More than twenty boys signified their intention to try for prizes, and the stories which are approved by the scoutmaster will be sent in to the paper mentioned which will publish those winning a prize.

Next in order was the question of whether the scouts wished to give a program and lunch sometime within the next few months, and after some discussion they decided to arrange for such an affair for Easter vacation next year. The program will be prepared by the scouts, and they will also look after the refreshment part of the program, and as they intend to do it THE SCOUT WAY, Willmar people generally will have a treat in store for them. Committees to arrange for the program will be appointed shortly after the holidays, and from then on every scout will be busy to make the affair a great success.

The "Good Turn" test was next explained and discussed, and every scout present was ordered to apply it for six days, beginning with the following day. In accordance with the scout laws every scout must do a good turn to some one every day. To remind him of this, he ties a knot in his tie, and leaves it there until he has done his good turn. So if you see a scout with a knot in his tie you will know he has not yet fulfilled the "kindness" part of his law,—but you will also know, that he has not forgotten to remind himself. For various reasons the test was made to extend over a period of only six days. At the end of that time every scout will hand in a written report, showing what special kindnesses he has extended during each of the six days. This report must never be given out. In urging the boys to perform the test faithfully the scoutmaster said that there would no doubt be some boys who would smile at them or perhaps taunt them, but that they should pay no attention to such things; first of all, because they were doing the RIGHT thing and therefore had nothing to be ashamed of, and secondly because they are SCOUTS, and a scout never troubles himself about anybody's comment when he knows he is living up to the scout law.

At the close of the meeting 15 of the scouts present took the scout oath, as follows:

"I give my word of honor that I will do my best:

1. To do my duty to God and country.

2. To help other people at all times.

3. To obey the scout law.

This gave them the official Tenderfoot degree, and they will from now on work to qualify for second class scouts. Before being awarded the second-class scout's badge a Tenderfoot must pass the following test:—

1. Have at least one month's service as a Tenderfoot.

2. Elementary first aid and bandaging.

3. Signalling, elementary knowledge of semaphore, Myer or Morse Alphabet.

4. Track half a mile in twenty-five minutes; or, if in a town, describe satisfactorily the contents of one shop window out of four, observed for one minute each.

5. Go a mile in twelve minutes at "scout's pace."

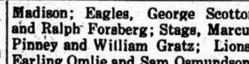

6. Lay and light a fire, using not more than two matches.

7. Cook a quarter of a pound of meat and two potatoes without cooking utensils other than the regulation kit.

8. Have at least one dollar in a savings bank.

9. Know the sixteen principal points of the compass.

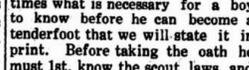

After the meeting each patrol met to elect signal men. The following were elected: Buffalo, Harold Severinson and George

Madison; Eagles, George Scotton and Ralph Forsberg; Stags, Marcus Pinney and William Gratz; Lions, Earlring Omie and Sam Osmundson. The signal flags are expected here any day, after which the signal drills will commence. The penalties for the various patrols have also been ordered, and as soon as they arrive the troop will have a picture taken, to be printed in the Twin City papers.

The next meeting of the troop will be at the Bonde hall next Friday evening at 7 o'clock.

We have been asked so many times what is necessary for a boy to know before he can become a tenderfoot that we will state it in print. Before taking the oath he must first, know the scout laws and signs, and salute; 2nd, know the history of the Stars and Stripes; and 3rd, tie four standard knots. Anyone wishing to join the scouts must hand in his application to the scout master, I. S. Dale, at the Tribune office, giving his name, age, and address, and the names of his parents. If he is accepted he will be assigned to a patrol.

Think of any one suspecting that the Fortune Hunter was a defaulting bank cashier! Well, he was accused of that crime, and a complex problem is presented.
