WILLMAR, MINNESOTA, WEDNESDAY, MARCH 22, 1911.

TELEPHONE ORDINANCE ON FINAL PASSAGE.

The telephone franchise ordinance comes up for its third reading and final passage next Monday night. Any alderman, who by his vote refuses to allow the people to decide whether they wish to avail themselves of this opportunity to secure an independent telephone system at Willmar or not, places himself in a very peculiar light, to say the least.

The people have declared once in no uncertain manner that they want a new deal in the telephone question in the city, and anyone who uses his official position to attempt to block all action towards securing a popular telephone service is grossly misrepresenting the people that he is supposed to serve.

The people have the right under their home rule charter to pass on all franchises to be given by the city. Here is an offer that if accepted promises to solve the difficult question which has confronted the city since the monopoly refused to submit in any way to the public control of the city. How can any alderman justify himself in denying the people of Willmar the right to say whether or not they wish to grant this franchise?

Praise the Lord! No resubmission petition was filed at Willmar, and hence the saloon license question will not be an issue at the approaching election. This is the first time in the history of the city that the license forces have given up the fight for the spring election. And it took ten reverses to discourage them. They are to be congratulated for their good sense. Willmar would never again submit to a saloon regime, and it is simply confusing people upon other issues to keep up a useless fight. But the people still need to be watchful that the lid stays on good and tight, even if legalized saloons are out of the question.

Judge T. O. Gilbert came home from the cities Sunday evening.
