MAKE A FAVORABLE REPORT.

The board of assessors or viewers on the matter of establishing a permanent level of Foot Lake filed their written report in the District Court last Thursday. It is entirely favorable to the public interests, specifically stating that after hearing all the evidence presented they find that none of the objections to the improvement will be damaged in any particular.

PROPOSED MAN BELIEVES IN CORPORAL PUNISHMENT.

The gentleman to whom Gov. Eberhart is said to have offered the superintendency of the Red Wing Training School, not only believes in corporal punishment but believes it is invigorating. If he were to abolish it here, it would be against his own expressed opinion.

"I talked with Mr. Whittier the other day. The gentleman at Red Wing seems to 'have the goods' in some particulars and he is more than ready to use them, too. The wily superintendent heard that Eberhart had offered the position at Red Wing to C. C. Aspinwall of the State training school of Washington located at Chehalis.

"4-That the maintenance of the waters of said Foot Lake at the height or level proposed by the Board of County Commissioners of Kandiyohi County at the outlet of said Foot Lake and the maintenance thereof at the height and level proposed, will not damage any of the lands abutting upon said lake, or otherwise; and that the lands owned or claimed to be owned by the following named objects: L. I. Berg, John S. Robbins, L. O. Thorpe, Swan Anderson, A. C. Skoog, C. Ackerman, F. E. Ackerman, J. F. Nyquist, P. A. Ecklund and Peter Anderson, or either of them, will not be damaged by the raising of the waters to the proposed height and maintaining same and the erection of a dam and the maintenance of same at the outlet of Foot Lake; nor will said objects, or either of any of them, sustain any damage whatsoever by reason of the construction of the said proposed dam and the maintenance of the waters of said lake at the proposed height and level herein referred to, nor will any other person or persons, parties or concerns receive or be damaged in the raising and maintaining of the waters of Foot Lake at the said proposed height.

"5. The cost of making and maintaining the proposed improvement shall be borne by the County of Kandiyohi, State of Minnesota." This report disposes of the only remaining objection to restoring the level of the waters of Foot Lake and providing an outlet of a permanent height. The several objects to the raising had claimed damages amounting to many thousands of dollars, and with their array of legal talent, had made so much noise that people generally of the city, who realized the importance of Foot Lake to the city of Willmar, were beginning to despair of being able to get this needed improvement. The viewers however, were men of good judgment who could not be carried off their feet. The proposed raise over the present outlet, as passed by the County

Minnesota at Top of List. Minneapolis, Minn. May 30—The University of Minnesota is the largest state educational institution in the United States and in the class of private foundations is second only to Columbia university according to figures compiled today by Registrar E. B. Pierce to be sent to the latter university for publication. There are 6,025 students registered at the state university while at Columbia there are 7411. Of this number 2,850 are students of the summer school only. So far as the regular session of the two universities are concerned, Minnesota would lead Columbia.

There are 5,953 resident students at the state university, and even with this number the Gopher institution leads Chicago, Michigan and Harvard by wide margins.

BAND CONCERT GETS GOOD ATTENDANCE

The Willmar Band concert at the Park Assembly auditorium last Friday night was enjoyed very much by the large number of people of the city who went out to attend it. The band has made good progress under the leadership of Mr. Theo Olson, and the people of Willmar showed by their interest in this concert that they appreciate the work the band is doing.

Holand Goes to Europe.

H. R. Holand, historian of Ephraim, Minn., announced today his intention to accept the invitation to be the guest of the city of Rouen, France, during the millennial festival of Normandy, which opens June 3, and exhibit the Kensington Stone.

Gudmund P. Karward left last Saturday for an extended trip abroad.

Before starting for the trip across the Atlantic he will spend a couple of weeks with relatives in Michigan, and perhaps visit some eastern points. During his stay in Norway he will make his headquarters with a sister at Molde, Stangvick. Gudmund will have an enjoyable trip, and his many friends wish him a good time and a safe return.

"To get rid of cut-worms," says State Entomologist Washburn.

"Mix Paris green with dry bran until the compound is quite green in color, add water to make the mass of the consistency of chicken dough. If not real green, add more Paris green. Sweeten this with cheap molasses, cheap syrup or sugar. At sundown or shortly after put heaping tablespoonfuls of this at intervals through the garden where cutworms are most obnoxious. This stuff should not be put close to a plant, for if a rain should come, and the Paris green is washed down to the roots of the plant, it injures the plant. A foot away from any plant would be safe."

Saturday evening, May 27th, Snow Bound school, District No. 14, with Miss Lucretia Martin as teacher, will give a fine commencement program.

Miss Olga Elkjer carried off the honors of the school and will be presented a diploma by Supt. Fredrickson who will be present and take part in the program. A shadow social will be part of the exercises.

No Flag-Raising May 30.

The Committee for Decoration Day appointed by the Commercial Club wishes us to announce that the contemplated flag-raising will not take place. The flag-pole has not been erected as yet, with little likelihood that it will be in time for that day, and the Willmar Military Band has accepted an engagement to play at the dedication of a soldier's monument at Marshall. Under these circumstances, it was thought best to abandon the public exercises before contemplated.

That Bad Storm.

The storm which recently destroyed several barns in the southern part of the county, has prompted me to call attention to the fact that some of the reliable Fire Insurance Companies, for which I am agent and which are insuring our city property against fire, are also insuring farmer's buildings against Wind-Storms, Tornadoes and Cyclones at a very low rate. Why take any chances and be without a tornado policy when you can get absolutely reliable insurance at such low cost? Lewis Johnson.

Professor A. A. Stromberg of the chair of Scandinavian languages at the university has received notice that a prize of \$25 will be given annually to the student showing the highest standing in the Swedish language.

The prize is offered by the American branch at Rock Island, Ill., of the Royal Society for the Preservation of the Swedish Language Abroad, supported by wealthy men in Sweden. The society furnishes lecturers from Sweden and Swedish textbooks. Thirty-five colleges will be given \$25 prizes, among these Gustavus Adolphus college at St. Peter, Minn.

A \$15 prize will be given for the highest standing in the study of the Swedish language at each of the following high schools and academies: East and South high schools, Minnesota college, Minnehaha academy and the Swedish Bible school, Minneapolis; Cokato high school; Bethel academy, St. Anthony Park; Northwestern college, Ferguson Falls, and the North Star college, Warren, Minn.

A Swedish publisher has given the American branch of the society 10,000 copies of a Swedish reader for distribution—Minneapolis Journal.

Rev. David W. Ferry of Spokane, founder of the Girl Guides of America, will organize patrols in several thousand cities, towns and hamlets of the United States and Canada within the next six months.

"Be Prepared" is the motto of the organization.

"Women set the standard of conduct in this world and they should study to cultivate personalities that will be exemplary in refinement and in nobility of life and character. The Girl Guides of America will, therefore, be not only guides to usefulness, but will endeavor to be guides to the highest ideals and best life of mankind."

Hon. M. J. Dowling gives the following in his statement of methods for making and maintaining good roads.

"Don't let water stand on any portion of the road, to soak and soften it; don't permit a single sod to be used in constructing the road; don't build the road too wide, and don't build it to a peak in the center. Make it round like a hog's back, and then keep it in condition by a frequent use of the King drag; and do not forget that the best time to use the drag is right after a rain.
