Dr. Johnson has a strong letter on the railroad rate question in another column. By all means should the legislature enact laws that will compel just treatment of all parts of the State.

This new court law which would guarantee dividends to public service corporations without giving the government authority to see that they are conservatively handled is a most vicious one, which will be a plague on the people's interests.

An extra session of the legislature should be called to deal with this crisis, for the restoration of the old rates is virtually an assault upon the dignity and prerogative of the State.

NORWAY LAKE NIBBLE

Norway Lake, July 9.—Last Sunday evening about 10 o'clock the peaceful inhabitants of "Jericho" were awakened from their sweet slumber by a terrible noise, similar to that of an Indian war dance, and for a time they thought that their busy little city was the scene of a Sioux outbreak; but it finally leaked out that the would-be Indians were about 50 or 60 of the neighbor boys who had organized a tin can, cow bell band and had come to play a few of their latest pieces in honor of a wedding which occurred at the "Grand Central" hotel of the city.

Arriving at the place, it was soon learned that the "newlyweds" in company with several others had gone to a place east of the city, commonly known as "Sven haken," so the band boys decided to walk out to the place and see what could be done for the happy couple and their companions, but they were met near the city limits by the "boys" and were escorted back to the scene of the wedding by a grand march played by the tin can, cow bell band.

A few remarks were made by the landlady which were received by another piece from the "band," after which the cigars were passed around, and all enjoyed a smoke on the happy couple who were just to enter on the sea of matrimony, wishing them a long and happy voyage.
