OBITUARY

MRS. MARY BLACKMER.
The aged Mrs. Mary Blackmer passed to her eternal rest at the home of her daughter, Mrs. J. H. Martin of this city, last Thursday, at the age of 86 years, 8 months and 18 days, after an illness of 16 days, the cause of death being old age.

The deceased, whose maiden name was Mary Hair, was born at Ayrshire, Scotland, Jan. 8, 1826. Her early youth was spent on a farm, moving later to the village of Catherine in Ayrshire. She was married in 1849 to John Buchan, who died in 1874. She later married Louis Blackmer whom she also survived. She came with her first husband to Norwood, Canada, in 1853; and to Melrose, Minn., in 1870. She is survived by three daughters—Mrs. H. McLees, Orleans, Minn.; Mrs. F. M. Connelly, Sauk Center, Minn., and Mrs. J. H. Martin, all of whom were present at the funeral. A sister, Mrs. Richard Orr, of Melrose, also survives her. There are seven grandchildren and three great grandchildren to mourn the death of their good old grandmother.

The funeral occurred last Saturday. Services were conducted at Willmar by Rev. McHenry of Atwater. There was a profusion of flowers. The interment took place in Oakside cemetery in Harrison township.

ELIAS OLSON.

Elias Olson died at the home of his daughter, Mrs. Emberland, in the township of Dove, last Thursday, Sept. 26th. He was born in Norway, December 24, 1849. He had but recently come from Norway to make his home with his children here and had been in poor health for several years.

The funeral occurred Sunday, services being held at the home at two p. m., and at the Green Lake church at three p. m., Rev. T. Jacobs of Spicer officiating.

District Court Next Week.

The grand jury meets next Monday afternoon. The parties who were bound over at Willmar for grand larceny pleaded guilty before Judge Qvale Thursday, were sentenced and paroled for one year. There is no other business to come before the grand jury, unless something should turn up not publicly known as yet.

The petit jury meets Tuesday. There is one criminal case on the calendar, but that will probably be dismissed. There are eleven cases on the civil calendar none of which is expected to become of much interest.

The prospects are good for a very brief term, which will suit the farmers very well, if this fine weather continues.

Corn Acre Yield Contest.

Estimates are now being taken on the acres of corn entered in the Corn Growers' Association acre yield contest.

The yields are running remarkably well, several acres going better than 100 bushels to the acre husked weight. The corn will be kept until dry enough to crib when it will again be weighed and the shrinkage determined.

Any farmer who has good corn should enter it in the acre yield contest so that the average yield may be secured on a large number of farms. All who wish to enter the contest should notify C. L. McNelly, Secretary of the County Corn Growers' Association.

Theft at Penock.

A weary Willie who gives his name as Phillip La Paint broke through a window at Anton Peterson's meat market at Penock early Tuesday morning and helped himself to two old revolvers, 7 rings of bologna sausage and 35 pennies. He was discovered in a box car where he was calmly putting himself outside of the sausage. Sheriff Bonde was called and brot the man in, to Willmar. He pleaded guilty before Judge Muller who gave him 35 days in the county jail. It was apparently a plain case of hunger, and the prisoner will now fare better perhaps at Hotel Bonde than eating sausages in a cold box car.

Save the Seed Corn.

On account of the wet season much corn is immature and practically unfit for seed this year.

This means that there will be a good demand for home grown seed corn again next spring.

By this time most of the seed corn should be well along in the drying stage, however corn had better be picked now than not at all. It will be impossible to select the earliest maturing ears; but the chances are that all corn thoroughly mature was not injured by the frost. Such corn should be picked and stored at once. Only the medium-sized well-filled and mature ears should be saved. This should be stored in a dry ventilated place. It is best not to store seed out of doors where it will be exposed to the weather. Seed corn should be thoroughly dry before freezing weather comes on.

Some farmers have so far neglected to properly pick and store seed corn even after the experience of last year.
