YOU HAD BETTER BURN YOUR MONEY

AND SAVE YOUR ENERGY, says DR. CYRIL G. HOPKINS, soil expert at the Illinois Experiment Station, than continue farming on the plan of taking from and not putting back into the soil those things which are absolutely essential to permanent, successful agriculture.

And he proves this statement. But he does more. After showing with irrefutable facts just why the prevailing American method of farming is ruinous, he demonstrates how you can make your farm yield from 30 to 40 more bushels per acre.

It's all in a series of articles entitled

The Farm That Won't Wear Out

Now appearing in THE COUNTRY GENTLEMAN.

This Week's Issue On Sale Today

The Homesteader's Gamble is another big feature of this week's issue. It is by W. J. Harsha, a Colorado homesteader, and it tells the whole homesteading proposition from A to Z. Mr. Harsha has been through the mill and he says that a man who stakes a homestead and hasn't the two G's—gumption and grit—had better quit. He says further that a homesteader will stand a better chance of succeeding if he has \$1000 in cash.

A Word With the Women. Every week the "Country Gentlewoman"—a farmer's wife, a mother, a good housekeeper and an intelligent woman all rolled into one—writes an article that is full of helpful ideas and sensible advice. This week her subject is Farm Children's Clothing. This issue also contains: Using The Kitchen's Left-Overs (a substantial way of reducing the cost of living); New Simple Furniture (showing that economy, beauty and utility may be combined); From Tough to Tender (meaty suggestions in the full sense of the word).

And, Besides All These Features, The Western Farmer and His Help, a solution of the farm labor problem, by Walter V. Woehlke; Spring Planis In the Greenhouse, the keynote of success in growing and selling them, by F. F. Rockwell; Duck Culture, by Ted Edwards; A Land of Berry Farms, by J. Russell Smith; Gas Engine Troubles, valuable information about ignition and carburetion, by F. Webster Brady; Four Sons Who Stayed On the Farm, by D. H. Doane; A Dairy Sextet of the Middle West, by George H. Dacy, and the regular departments dealing with farm legislation, poultry, crops and the market, and a page of pertinent editorial comment.
