THE CAR ELEGANT!

Mitchell

A sprightly combination of French and American ideas. The French for beauty, dash and "atmosphere"—the American for strength and sturdiness. Anyone can see the possibilities of such a combination. And in the 1913 Mitchell cars you DO see them in a living, breathing, vivid way; a way that stamps simple ELEGANCE in your mind, forever.

Conjure as you will, you cannot imagine the effects produced in these new cars, until you see them. There is no way you can compare them, for never have such ideas, and ideals, been produced, been worked out and presented to you on such a high plane.

These cars are low—close to the ground, yet with big wheels and 10 inch clearance. They have long, clean running boards—a touch of the virile and majestic in car building that's new. They are big in every way—real out-door, serviceable cars, made for big things. Yet not a clumsy line anywhere. Snug comfort in all the seats—a relaxation as alluring as a two-weeks vacation, or a lazy Sunday morning in your favorite arm-chair. Turkish upholstery 10 inches deep; a slant and contour to the seats that banish fatigue, and a finish that adds just the right touch of complexion. Nickel mountings, graceful curves, a real windshield that improves the looks of things, besides all the other high grade appurtenances that make for motoring pleasure comfort and value.

Compare what the Mitchell has—compare the motors—the bore—the stroke—the power—the wheelbases—the size—the ease—the comfort—the trimmings—the finish—the simple elegance—the appearance. Take these points, one by one, compare them with other cars, and you will find the Mitchell has everything every other car has and many features no other can show.

Ask any one of the fifty satisfied Mitchell owners in Kandiyohi county.

FINALLY, COMPARE THE PRICES.

Automobile storage, first-class service—\$5.00 per month, \$2.50 per week, 50 cents overnight, 25 cents per day.

ACCESSORY AND PARTS DEPARTMENT

We have access to every automobile and motorcycle factory in the United States, and will be glad to send or order new parts for every different kind of automobile manufactured. Let us help you.

We sell and carry a complete line of Goodrich tires, best in the long run; United States tires, Standard equipment, each tire guaranteed for 3500 miles, and stand as a medium, ready to help each and every one to get good adjustments from the tire companies.

We get adjustments where individuals fail. We handle Packard auto oil, French auto oil, Polarine, Hard oil and greases. We will sell our oils in barrel one-half barrel, 5 and 10 gallon lots at special prices.

Prest-O-Lite tanks sold outright, also a large number of every size tank for exchange.

GÖR DET NU

"A Stitch In Time Saves Nine"

Have your automobiles thoroughly overhauled and cleaned in our spacious work shop, by our competent force of experts. To let your automobile run without being cleaned and overhauled means expensive new parts.

Our workshop is equipped with all the latest devices, appliances and convenient tools. We will do your work by the hour or contract job.

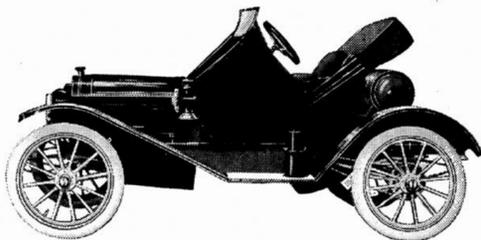

Grinding and setting of valves, adjusting magnetos and carburetors, a specialty by our factory experts.

We will overhaul every kind of car manufactured. Have your Storage Battery charged by our mercury arch rectifier
LET US SAVE YOU MONEY.

METZ AUTO THE BEST ROADSTER CAR IN THE WORLD

Think of it—cheaper than a good team and costs less to maintain.

SIMPLICITY—SATISFACTION—ECONOMY—STRONG—POWERFUL—RELIABLE—SANE

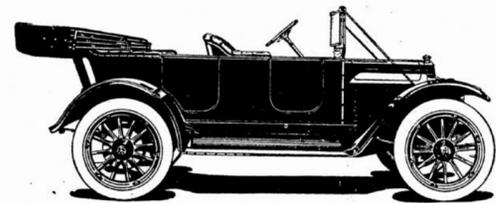

Four cylinder, water cooled, 22½ horse power, center control, Bosch magneto, full elliptic springs, Halley carburetor, tubular front axle—30x3 inch Goodrich tires—weight 1,000 lbs.—makes 5 to 50 miles per hour, 28 to 32 miles on 1 gallon of gasoline.

Manufactured and guaranteed by a large, responsible factory, which have a world-wide reputation. Let us show you this strictly practical business proposition.

1913 Mighty Reo The Fifth The Silent Car Built to Last

"ASK THE MAN WHO DRIVES ONE"

Ask Andrew Peterson, the live local furniture dealer, who has driven his 1912 Reo between 5 and 10 thousand miles. Ask Herbert Crasswell, Willmar; Emil and Sigfrid Nelson, Willmar; Martin Rierson, Lake Andrew; Joseph Skalak, Svea, Rt. 2; A. J. Dahl, Willmar, and many others who drive Reos.

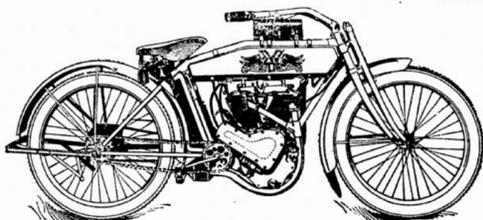

MIGHTY REO THE FIFTH has fifteen roller bearings, eleven Timken and four Hyatt high duty. Inside center control, use of full four doors. 30-35 horsepower, long wheelbase, demountable rims, oversize tires, 34x4, electric side and tail lights, fully equipped with self starter.

Price \$1,195.00 F. O. B. Factory. Remember, Mighty Reo The Fifth is designed and built by the star automobile manufacturer with 26 years experience and reputation.

THE BIG "Y" YALE

THE MOTOR THAT LEADS

\$275.00

\$225.00

BIG Y YALE. Powerful long stroke motor, Bosch water-proof magneto, mechanical oil pump, three-inch tires (automobile size) with hinged rear mud guard. Y-A shock absorber and Yale cushion fork insure comfort and perfect safety over all roads. Foot rest and foot brake feature. The new Yale is the fastest machine on the road, bar none, for the perfect balance and ease of steering allow the rider to use the superior power and speed of the motor which gives a pull of ten horse power for twin and eight horse power for single at the rear wheel on actual test.

The correct design of the Yale frame and fork, with very low center of gravity, make a "Big Y" safe to handle at far greater speed than are possible with other machines. Sterling silver costs more than plated ware, but everyone admits it is worth the difference. The same is true of Yale motorcycle.

AUTOMOBILE LIVERY, at all hours of day and night. Careful, steady drivers, trustworthy, up-to-date cars.

TELEPHONES: Day, No. 466; Night, No. 104 or No. 53.

If you are figuring on buying an automobile, motorcycle, new tires, oils or anything which pertains to an automobile, we will treat you to a square deal and quote you prices which will astonish the closest buyers. We invite one and all to inspect our entire line and garage, and will be glad to give demonstrations.
