# PETERSON & WELLIN

WILLMAR,

MINNESOTA

Grover Krumsick made the deal last week, whereby he became the sole owner of the McGrew Bros. Billiard and Pool Room on corner of Benson avenue and Fifth street.

Mr. and Mrs. Earl Potts of Minneapolis came to Willmar yesterday for a visit at the home of Mr. and Mrs. George Sanderson and John Daugherty and family at Kandiyohi.

**Card of Thanks.**  
We wish to express our sincere thanks to all friends who loyally assisted us in securing votes for our daughter, Esther Johnson, (No. 181) in the piano contest. We appreciate very much all the efforts made in her behalf.

### THROW OUT THE LINE

Give the Kidneys Help and Many People Will Be Happier.

"Throw Out the Life Line."—Weak kidneys need help. They're often overworked—don't get the poison filtered out of the blood.  
Will you help them?  
Doan's Kidney Pills have brought benefit to thousands of kidney sufferers.  
Read this case:  
Mrs. C. F. Wilson, Park Ave., Glenwood, Minn., says: "I have used Doan's Kidney Pills with good results and am glad to endorse them. This remedy relieved me of trouble from my back and kidneys."  
The above is not an isolated case. Mrs. Wilson is only one of many in this vicinity who have gratefully endorsed Doan's. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Wilson had. 50c all stores. ### Card of Thanks.

We wish to express our thanks to our many friends for the kindness shown us during the illness and after the death of our beloved daughter and sister. Also for the many beautiful flowers.

We wish to thank especially the Red Cross society for the efforts they have made to restore her to health and for their many kind visits. Also the M. W. A., for their great kindness shown us.

Play at St. Paul.

Some of Miss Reed's pupils are enjoying their vacation in the Twin Cities and assisted most pleasantly in a musical in St. Paul last Friday evening. Those taking part in the program were Geraldine and Phyllis Haley, Evelyn Dale and Frances Hedlin. The little Miss Haleys are going on to Shakopee for an extended visit.

#### Rooms Wanted June 24-25.

Preparations for entertaining the "Sigdalslaget" at Willmar June 24-25 are under way. It is expected that meals will be served at the assembly grounds by a local church society. There will be from 250 to 500 visitors in the city for the two days. The problem of rooming these is a serious one, and all who have rooms they might wish to let for one or two nights will please notify the Tribune, stating number of beds and price wanted. The delegates expect to pay their way.

#### Will Have County Agent.

The County Board made the necessary appropriation to secure the State and Federal aid for a county agricultural agent. Kandiyohi county was the last to qualify of the twenty-five counties in the state for which the state appropriation was made. Dean A. P. Woods will appoint the agent and it is not expected that such official will begin his work before August.

J. C. Strand returned home from Minneapolis Sunday night, accompanied by his daughter, Mabelle, who has been seriously ill and recently operated upon at the Deaconess hospital.

Mrs. H. A. Tomlinson and daughter are packing their household goods at the Superintendent's cottage at the State hospital. They expect to make their future home in the East.

The city dailies report that Dr. G. F. Freeman, who has been acting superintendent at the State hospital since Dr. Tomlinson was stricken, will be appointed superintendent.

The nuptials of Miss Helen Mooney and Mr. Royal E. Markham of Rush City, take place at high noon tomorrow at the Mooney residence on Second street.

### THE WINGED PERIL

The deadly peril to life and health wrought by the homely and the stable fly has never before been so fully understood as now, and the experience of Cleveland in her notable anti-fly campaign, initiated and conducted by Dr. Jean Dawson, enforces this lesson—that the work must start at or before the opening of spring because flies breed so rapidly; hence there is now no time to lose, and hence the strenuousness with which you should urge immediate action.—W. H. Hale.

### HOW TO FIGHT THE FLY IN THIS TOWN

First.—Educational work should be begun at once in schools, women's clubs and other civic organizations, because if you wait until the flies appear in the spring they will be multiplying by the million while you are doing organization work that ought to have been done during the cold weather. This committee, as in former years, will co-operate with local committees, furnishing literature and answering questions as to methods of individual campaigns, etc.

Second.—In your movements for passing of general cleanup and anti-fly ordinances first secure the interest of the state health department. If you find difficulty in doing this by mere force of suggestion, employ other legitimate means of stirring it to action—petitions from local or state organizations, boards of trade, women's clubs, town improvement societies, etc. If the head of the state health service is not cordially co-operating with you he can be shamed into it.

Third.—Employ similar tactics, if necessary, with the health officers, aldermen and other officials of your city or town.

Fourth.—Get ordinances passed (state if possible, local at any rate) for the screening of foodstuffs, the chemical treatment and removal of manure, etc., but do not think that because you have an ordinance it will enforce itself. Eternal vigilance is the price of freedom from flies and flies. Probably even the most energetic and sympathetic health officer will be unable with the force of inspectors at his command to discover all the violations of the ordinance. You must help him by volunteer inspection and reports. If then he is lukewarm in the prosecution of offenders make his position uncomfortable. If the magistrates refuse to impose fines for proved violations make it uncomfortable for them too. It's all very simple if you are in earnest.

Fifth.—Colorado and Texas have instituted the custom of state wide "cleanup days." Induce the governor of your state by proclamation to set aside a day for such a purpose, and if he cannot be induced to do so—but he probably can if proper representations are made to him—at least get your mayor to proclaim a local "cleanup day."

Sixth.—If you must have "fly swatting" contests to stimulate interest in your local campaign let them be held as early in the spring as possible, while there are comparatively few flies. If you could not find and kill all the spring flies, as of course you cannot, there would be none to trouble you in the summer.

Seventh.—Be careful to brush up any flies that may be lying around with their feet up in the air looking as if they were dead; they may be "playing possum." The only safe way is to burn them. Do not throw them out into the garbage can, as they will become active as soon as the temperature rises.

#### Truth.

Truth is as impossible to be soiled by any outward touch as the sunbeam.—Milton.

#### Baldness.

According to a Parisian physician, premature baldness is the result of some teething trouble.
