ALDAPE ADVISED HUERTA TO QUIT

Mexican President Dismisses Minister of Interior.

IS CASE OF LIFE OR DEATH

Dictator Reiterates at Cabinet Meeting His Intention to Remain in Office.

Mexico City, Nov. 17.—It has been learned that the American charge had seen President Huerta and from the president himself had learned that he would not resign and would listen only to such proposals as were compatible with his own dignity and that of his country.

Mexico City, Nov. 17.—What doubt remained regarding General Huerta's intentions with respect to compliance to the American demands for his own elimination was removed from the minds of most Mexicans and foreign residents by his peremptory dismissal of Manuel Garza Aldape, minister of the interior, who was looked upon as the head of Huerta's cabinet.

Manuel Garza Aldape led that group of the cabinet, which held the conviction that it would be best to accede to that portion at least, of Washington's demands, which meant the total abandonment of power by the provisional president.

He is said to have been the only one with sufficient courage to discuss the international situation frankly with his chief.

It was he who called at the American embassy recently and induced Nelson O'Shaughnessy, the charge d'affaires, to send to Washington his appeal for the reopening of the negotiations.

Senator Aldape's resignation was demanded at a cabinet meeting at President Huerta's house.

Huerta is said to have reiterated at this meeting the statement that he would not resign, that with him it was a case of life or death and he was disposed to play out the game.

SITUATION IS NOT CRITICAL

Washington Officials Confident Huerta Will Retire.

Washington, Nov. 17.—Negotiations between Charge O'Shaughnessy and John Lind and the Huerta government in Mexico are continuing, according to dispatches received at the state department, but no tangible conclusions have been reported.

William Bayard Hale, who has been conferring with the Constitutionalists at their Nogales headquarters, also telegraphed at length to the department.

That the situation was not regarded as critical was evident from the attitude of official Washington.

The administration here is still confident of the ultimate retirement of Huerta, as well as satisfactory assurances from the Constitutionalists for a suspension of military activities pending the establishment of a provisional government after General Huerta disappears as a factor in the problem.

REBELS EXECUTE PRISONERS

General Villa Shows No Mercy to the Federals.

El Paso, Tex., Nov. 17.—Two former federal prisoners of Juarez who were taken prisoners by General Villa's rebel troops were executed at Juarez. They were Pablo Ebbave, an official in the Juarez police department, and Juan Cordova, chief of the Juarez secret police.

The executions took place at the Juarez cemetery, the condemned men standing on the brink of newly dug graves and falling in when the firing squad shot them. Both men were sentenced to death by General Villa.

Mrs. Ebbave, wife of one of the condemned men, was present when the sentence was pronounced and pleaded with Villa to pardon her husband.

Although only seven officers are positively known to have been executed by Villa's soldiers it is believed that seventy-five in all have met death.

FAMILY BURNED TO DEATH

Macomb, Ill., Nov. 13.—Douglas Laterty, his wife, daughter and three grandchildren were burned to death in a fire which consumed their home at Browning, Schuyler county.

William Bayard Hale Makes Proposal to Rebels.

Nogales, Sonora, Mex., Nov. 13.—Crossing a little street from the United States into Mexico William Bayard Hale, personal representative of President Wilson, met the Constitutional chief, General Venustiano Carranza, and his cabinet, and presented to them a definite proposal from the American government.

All that could be learned regarding the proposal of President Wilson was that it was in writing and that it required certain things, including pledges from the Constitutionalists, in case the United States lifted the embargo on the exportation of arms.

Port Huron, Mich., Nov. 15.—For the first time since Sunday a day has passed without revealing more lives lost in the storm which overwhelmed the Great Lakes the early part of the week.

Only one additional boat disaster developed and that was the wrecking of the steamer Major off Whitefish point in Lake Superior. She was abandoned by her crew. The crew was picked up by a passing steamer. The life loss among sailors is estimated at approximately 256 and the property loss is figured at more than \$5,000,000.

One hundred and ninety-five lives were taken on Lake Huron, if the approximate figures are correct; forty-eight lives were lost in Lake Superior, seven on Lake Michigan and six on Lake Erie.

The identity of the overturned freighter in Lake Huron has not been learned.

MOTHERS' LAW HELD VALID

Minnesota Supreme Court Passes on Recently Enacted Statute.

The state supreme court has upheld the mothers' pension law passed by the last legislature as being constitutional and applicable in all parts of the state.

The case decided arose in Stearns county, where it was alleged that the law was unconstitutional and the county commissioners decided that the probate court overstepped its authority in ordering aid for the support of a woman whose husband was living.

The supreme court holds the probate court had the right to order this aid and that a child dependent upon the public for support is within the terms of the law, though the sole reason of such dependency is the financial inability of the parents to support it and though there is neither delinquency on the part of the child nor unfitness on the part of the parent.

The court also holds that the law is applicable where the town system of caring for the poor prevails.

SIX DEMOCRATS COMPLETE BILL

Senators Have Currency Measure Ready to Report.

PRESIDENT APPROVES PLAN

Proposition Calls for System of Eight Regional Banks Under Control of Federal Reserve Board.

Washington, Nov. 15.—The administration currency reform bill, as it probably will go to the senate with the approval of President Wilson, has been completed by six Democrats of the senate banking and currency committee.

Senator Hitchcock and the five Republican members of the committee continued to write into their draft of the measure amendments of which the White House has disapproved.

As completed the Democratic measure provides for a system of eight regional banks, to be capitalized by enforced subscriptions from the national banks of the country, with unlimited powers of rediscunt and currency issue and the power to hold reserves, the entire system to be under the control of a federal reserve board.

The Democrats cut down the federal reserve board from nine, as fixed by a former vote of the committee, to seven, as originally fixed in the house bill.

Six to Be Appointed. The secretary of the treasury and six members to be appointed by the president would compose the board.

Each member would hold office for six years at a salary of \$10,000 a year.

The Democrats eliminated from the redemption section of the bill the provision that the new currency should be redeemable in "lawful money" as well as gold.

The Republicans rewrote the redemption section to provide that any member bank with eligible paper might obtain, as a matter of right, rediscunts up to an amount equal to its capitalization.

The Republicans said they would be unable to present their final draft of the bill before the end of next week and that they would hardly be ready to report before a week from Monday.

The Democrats, however, are anxious to get the bill before the senate, and it is probable an agreement will be reached to report it shortly.
