Now is the time to get into the harness, so don't delay matters. Write now, or, better still, call at our office. Farmers are beginning to realize that now is the time to buy silos, and next summer when they will be too busy to think of them, and for that reason if you want to talk silo, get busy now. It is not necessary for us now to say anything about the the Playford Cement Silos. They have amply demonstrated the truth of the claim that they are

KING AMONG SILOS

Every claim that has been made for them has made good, not only in this county, but elsewhere.

When you write, please give references.

And you, Mr. Farmer, don't put off ordering your silo until summer. Buy it now, and have it shipped this winter or early in the spring; then when you get busy with your haying and harvest this extra work will be out of the way. If you are going to have a silo anyway, and of course you are, why put it off? DO IT NOW. We shall be glad to hear from you any time.
