IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."
Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.
Sick children need to be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.
Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

What is the origin of the word roorback as meaning a campaign lie?
It had a campaign origin sure enough. In 1844, after James K. Polk was nominated by the Democrats for president, the Albany Journal published what purported to be an extract from one Roorback's journal of a trip through the south, represented to have been made a few years before, in which he told of having seen a gang of negroes being driven to the southern market, all branded J. K. P. as the property of James K. Polk. The object was to stigmatize Polk as a heartless slave owner. The publication was resented by Democrats as a forgery and a libel on their candidate, and so it proved to be, for it turned out that no such person as Roorback ever existed and that the pretended letter published in the Albany paper was written by a disreputable politician of New York who posed as an abolitionist. The incident caused much bad feeling, and the word roorback became a synonym for campaign lies.

Where does the hookworm disease get its name?
The hookworm disease is so named from a small parasite which fastens itself in the intestines and draws upon the system. The name hookworm relates to the peculiar structure of the parasite (which has been named Necator americanus, American murderer), and the disease is attributed to low nutrition and insanitary conditions.

Please tell if there is any virtue in planting seeds "in the moon." Is the statement in the moon method superstition or science?
The planting of seeds is not affected in any way whatever by the moon's phases.

What is the origin of the word ballot? Does it apply to any but a written vote?
Etymologically ballot means a little ball, such as were used, white and black ones, for secret voting, and in time it came to mean any kind of secret voting. The ancient Greeks used marked shells for voting, and from the Greek word ostrakon, a shell, comes the English word ostracize—that is, to shut out by one unfavorable shell. Secrecy is the prime object of any form of ballot, whether by white and black balls or by written or printed slips, and, strictly speaking, the word ballot does not properly apply to an open or viva voce vote.

How long was it between the first discovery of telegraph or demonstration of wireless telegraphy and the first use of it in a case of shipwreck?
About ten years. Marconi made a demonstration of it in 1897. In 1902 messages passed between Cape Breton and Cornwall, England, and in 1909 the passengers and crew of the Republic were saved by wireless.

ORDINANCE NO. 147.

"An Ordinance Granting a Long Distance Telephone Franchise to the Tri-State Telephone and Telegraph Company, a Corporation, its Successors and Assigns, and Prescribing the Terms and Conditions of Such Franchise, and Providing for the Submission of the Same to a Vote of the Electors of the City of Willmar, Minnesota, for Ratification or Rejection."

WHEREAS, Application has been made to this Council for the granting of a franchise to the Tri-State Telephone and Telegraph Company, a corporation, its successors and assigns, granting the right to operate and maintain its long distance telephone lines within the City of Willmar, Minnesota, and for that purpose to use the streets, alleys and public places of said city for the period of ten (10) years; and

WHEREAS, a franchise can only be granted by submitting the same to a vote of the electors of the City as provided by sections 71 and 220 of the City Charter; NOW THEREFORE, BE IT ORDAINED BY THE CITY OF WILLMAR AS FOLLOWS: SECTION I.

There shall be submitted to the voters of the City at the General Election to be held in the City of Willmar on April 7th, 1914, the question of the ratifying or rejecting the granting of a franchise to the Tri-State Telephone and Telegraph Company, a corporation, its successors and assigns, for the operation and maintenance of its long distance telephone lines within the City of Willmar.

Section II.
It shall be the duty of the City Clerk upon the taking effect of this Ordinance, and when preparing notices for the general election to be held in the City of Willmar on April 7th, 1914, to include in such notices of election a statement in the manner and form required by law that such question shall be submitted to the voters at such election, and in addition, thereto, the City Clerk shall prepare the necessary ballots, in the form prescribed by the City Charter, and generally do all things necessary in order that the said question may be in all respects voted upon by such election as required by the City Charter.

Section III.
That the franchise to be ratified or rejected by the voters at the City Election shall be as set forth herein and not otherwise, to-wit: (a) The Tri-State Telephone and Telegraph Company, a corporation, its successors and assigns, is hereby granted the right, privilege and authority for the period of ten (10) years to construct and maintain its long distance telephone lines under, along over and across the streets, alleys and public places of the City of Willmar, Minnesota, for the purpose of furnishing long distance telephone service to the inhabitants of the City of Willmar and to the public, subject to the conditions herein stated.

(b) The grantee hereof, its successors and assigns shall occupy only such streets, alleys and public places as they may deem necessary, and such additional streets, alleys and public places as shall from time to time be designated by resolution of the City Council, and all lines built shall be constructed under the supervision of the City Council, and in the manner prescribed by the City Charter, provided however, that they shall not be opened or disturbed in laying pipes, conduits or in placing the poles or overhead wires more of any street, alley or public place than may be necessary for the advantageous placing or repairing of such pipes, conduits, or poles, nor shall any street, alley, sidewalk or highway so opened or disturbed be encumbered with dirt, rubbish or other material for a longer time than shall be necessary to complete the work, and in crossing any street, or highway the work of laying such conduits or placing any such poles shall be done at such hours and with such expedition as to least hinder or impede travel; provided further, that the pavements, sidewalks, curbing, streets, alleys or highways disturbed in putting in any work by the said grantee under the provisions of this ordinance shall be replaced and repaired by the said grantee with like material and left in as good condition as before disturbed. Should said grantee fail or refuse to replace or repair any pavements, sidewalk, curbing, street, alley or highway as above provided, then the same may be replaced and repaired by the City under the direction of the City Engineer or street committee at the cost and expense of the said grantee. Whenever the city shall grade or regrade any street, alley or highway along or across which the said grantee has laid any pipes or conduits or placed any poles for overhead wires, the said grantee shall, at its own expense, change such poles, pipes or conduits to conform to the street, alley, or highway so graded or regraded on an order therefrom from the City Council.

(c) The City Council shall have the right to determine, from time to time reasonable boundaries within which the wires of said grantee shall be placed underground and upon such determination and an order to place wires underground within any specified territory, said grantee shall forthwith place underground all its wires within such territory.

(d) The privileges and rights herein granted to said grantee are on the condition that the said grantee shall, without cost to the city, provide suitable places upon its poles and within its conduits for wires for fire alarm and police purposes and that it will at its own cost and expense string on such poles and draw in and maintain in place all necessary wires for fire alarm and police purposes required by the city for its use during the life of this ordinance, said wires, however, to be furnished by the said city; provided that the said grantee shall not be required to permit upon its poles or to place within its conduits wires conducting a stronger current than can be safely carried without impairing the efficiency of its service to be carried on over

its wires.
(e) Said grantee and its assigns shall indemnify and save harmless the city of Willmar from, and assume all liabilities for all damages which may arise or accrue against said city from the injury of any person or persons, or to any property from the doing of any work herein authorized to be done or from the operation of said plant or from the neglect of said grantee or its assigns or any of its or said authorized agents or employees.
(f) The rights herein granted are for long distance purposes only. The doing, performing or furnishing of any local telephone service under or by virtue of the rights herein granted, shall work a forfeiture of all the rights and privileges granted hereby, which forfeiture shall be made effective by the repeal of this ordinance by the City Council.

(g) The rights granted by this ordinance are subject to the provisions of the City Charter so far as said provisions are applicable and are also subject to the provisions of all ordinances of the City of Willmar, and to the laws of the State of Minnesota now in effect or hereafter enacted.

Section IV.
That if upon such election, a majority of the votes cast upon such question shall be in favor of the ordinance, the said franchise above set forth, shall thereupon vest in the Tri-State Telephone and Telegraph Company, a corporation, its successors and assigns, for the full period of ten (10) years from and after the date of such election, subject to all the terms and conditions in this ordinance set forth.

Section V.
This ordinance shall take effect from and after its passage and publication.
Approved March 10th, 1914.
E. C. WELLIN, Mayor.
