

GET-RICH-QUICK SPECULATION GOT HIS MONEY— WAS HE A "PRUDENT MAN?"

No wonder this man is discouraged! He thought he could make a fortune quickly. He believed some oily tongued rascal; he sent his money away. He LOST IT.

Would it not have been better for him had he kept his money SAFE in our bank and let it PILE UP until he had enough to buy something right here at home he could watch himself? He would have helped the community and increased the value of HIS property.

LEGISLATIVE NEWS NOTES.

Efficiency and Economy. Those are good words to conjure with. We all want efficiency in government, and no one wishes to spend money uselessly.

The Seven Sisters. In strong contrast to the big bill are the seven very short, simple bills brought in by the Gordon Committee.

Teigen and Lydiard figuratively fell on each others necks and forgave all past insults, and the two Harrisons followed suit.

Verily, "A little nonsense now and then is relished by the best of men."

Anti Road House Bill. It looks as if the bill to kill off the road houses would stand a pretty good chance to pass.

Larson's Lone Saloon Bill. Larson of Pine county has finally got his bill thru the House that will enable the County Commissioners of Pine county to dissolve the small remnant that still remains of the once flourishing saloon.

The Elwell Road Law Ended. Thursday morning by a vote of 80 to 41, the House passed the Senate bill repealing the Elwell Road Law.

Your Hat For Easter

What are your plans for your Easter hat? Are you going to struggle with it all yourself and be dissatisfied in the end, or are you coming to us and let us fit you out in something that really becomes you?

and conscientious men who ever made a great mistake. You know what hell is said to be paved with.

The Doctors Trust.

Several bills have been introduced to strengthen the doctors' trades union and give them a more complete monopoly of treating the sick than they now have.

And now they have a bill that leaves out the Christian Scientists, the strongest and most lusty of the non-drugging cults, but gets hot after the others.

Can't they trust the people to choose their own health advisers?

A Lawyers Trust. The lawyers, too, seem to be afraid their trades union is in danger, and that a part of its dignity is about to be dragged in the mire of vulgarity.

Why shouldn't a lawyer advertise, if he wants to, or take cases on a contingent fee?

Isn't it a good thing to let people know the merits of your work? Why not prohibit grocers, and butchers, and carpenters from advertising?

St. Patrick's Day. St. Patrick's Day was celebrated in both houses.

Green carnations were in evidence everywhere. Bouquets were on the desks of the Speaker and Lieutenant Governor and everybody wore a green carnation in his button hole.

A L Lennon introduced a joint resolution commemorating the heroic deeds of the Irish and their love of liberty.

The noted singer, Robert Gehan, was called upon and made a decided hit with "The Wearing of the Green."

A fake bill purporting to regulate the farming industry was read in both houses, being fathered by Senator Westlake of Minneapolis.

I am told that this same bill was introduced on the same day in the legislatures of other states, and that it is a part of the campaign of the roads against regulation and in favor of an increase of passenger and freight rates.

In the House everyone apologized for all the harsh things he had said, and asked the forgiveness of his fellow members.

Verily, "A little nonsense now and then is relished by the best of men."

NERVOUS PEOPLE

are usually thin and easily worried, sleep does not refresh and the system gets weaker and weaker.

Scott's Emulsion corrects nervousness by force of nourishment—it feeds the nerve centers by distributing energy and power all over the body.

work. As it was before the assessor had a certain average to go by in making his assessment, both on real estate and on personal property.

In 1911 the average on horses was fixed at \$35.00 and the common horse was assessed at that.

But according to the new law the value must first be determined and then the assessed value computed according to the different percentages laid down in the rates.

Now that this was entirely new to most of the taxpayers, as very few had heard anything of the new assessment law, these things had to be explained to them.

The second reason why my bill was high last year was the raise in the wages of the assessor from two dollars which it has been before, to three dollars now, and the third reason is the mileage which has never been paid before last year.

It will probably be interesting to the taxpayers to know what the rate of each school district was last year. District 2 had a rate of 22.8 mills; district 4, 16.5 mills; district 6, 21.5 mills; district 19, 17.8 mills; district 24, 17.5 mills; district 52, 17.1 mills; district 66, 16.0 mills; district 92, 17.8 mills; district 97, 22.1 mills.

The total for tax levy was \$9,420.00. The taxes collected for moneys and credits is added, one-sixth to State Revenue fund, one-sixth to County Revenue fund, one-third to Town Revenue fund, and one-third to the special school fund.

EMPLOYEES CASE SOON TO BE COMPLETE

Second Week of Rebuttal Testimony Shows End in Sight.

Chicago, Mar. 18.—Testimony tending to impeach some of the vital evidence presented by the railway companies at the Western wage arbitration inquiry was offered by witnesses for the engineers' and firemen's brotherhoods during the current week.

It was the second week of the employees' rebuttal testimony and, according to officials of the brotherhoods, their case will be in complete form before the arbitration board some time within the next four or five days.

The railroad companies have notified the arbitrators that they will have some rebuttal testimony which probably will mean at least one more week for the taking of evidence.

Respecting one of the companies' exhibits indicating large earnings for engineers and firemen, President Carter on Friday examined Charles Hintz of Green Bay, Wis., an engineer on the North Western road.

Mr. Carter: Because of exhaustion, Mr. Bell: Yes.

Telling of the hardships a fireman undergoes in the winter months, Mr. Bell related a little story which might be entitled "My Experience With an Ash Pan."

In order to get that ash pan open I would get down in the snow on my knees," said Mr. Bell, "partly lie down, get a squirt hose started, thaw the back end of the pan and at the same time water would run out through the pipes down into the snow where my feet were, and I would get my feet and my body wet. Then, I would have to thaw the front part of the pan out, and after we would get that done we would proceed and clean the pan and shake the fire down, in order not to have to shake it on the pan more than we could avoid. We would clean our pan, and I worked all that work under those conditions, one day as high as sixteen hours."

Charles Dady, an engineer on the North Western road, running out of Escanaba, Mich., put a new flavor into his rebuttal story when he very strongly hinted that the so-called test trip in which he figured was not run under ordinary operating conditions.

Ordinarily on every train he operated, that is, a stop was made at various water tanks, but on the test run he "ran" these water tanks.

Mr. Carter: These cars
