KINGSBURY Pianos

Are Uncommonly Good Pianos

They are true toned—and trustworthy. Their fine musical character—their durable construction—and “style” commands them to particular people.

A Significant Fact

For a long time one model, Style J, was made exclusively for an old New York and Boston House—a concern known the country over for its unusually high standards. This Kingsbury model proved to be so popular where competition was keenest that the factories decided to catalog it as one of their regular styles. We have secured direct a splendid assortment in mahogany, Burl walnut, dark oak and mission finishes. Here, then, is your opportunity to get a made-to-order model—but at a price you can comfortably afford.

Monthly terms arranged to suit you.

Out-of-town readers write for our

Maxwell 11

"The Wonder Car"

You will have only yourself to blame if you are "talked into" buying an "unsuitable" or a "theoretical" Car.

The two commonest mistakes made in buying an automobile are—*First*, Buying a car not suited to your needs.—*Second*, Buying a car that has not passed the theory stage.

The first mistake—buying an "unsuitable" car—is perhaps made even less often than the second. But for your own sake study your needs sensibly, just as you study your household needs, and buy a car you can afford to enjoy—a car you will have pride in, and yet one that will not be a "ghost of reproach" to your good sense.

The second mistake—buying a "theoretical" car—is perhaps the sadder mistake of the two—because when you have made this mistake, you have on your hands some engineer's or designer's untried theory, instead of a tried, known, successful car. And you have paid a price that, put in the right car, would never have been a reproach—but would have

bought an automobile of real pride and joy.

It is because we see these two mistakes being constantly made—because we see sensible people being constantly talked into these "automobile fiascos" that we boast so much about the record of the car we sell—The Maxwell.

38,000 happy satisfied Maxwell owners are driving 38,000 handsome streamline Maxwell Cars to-day—at an up-keep cost that any man of any standing can afford, and at an original cost that is simply a practical investment.

200 Maxwell Cars Every Day

Twelve hundred a week, five thousand a month. That is the actual output of "The Wonder Car" right now and constantly increasing.

Not bare promises that cannot be kept, but actual deliveries to Maxwell Dealers.

Stop! Think a moment. There must be something back of a production so great. There must be the hearty approval and confidence of the public in the car they buy and the car must merit it all.

26 Maxwell cars every hour of the business day. Yes, that is just what the public are buying, and when you order a Maxwell, you get one the day you want it.

Back of each Maxwell stands one of the greatest and most efficient organizations in the industry, and one strong enough financially to insure you against the purchase of an "orphan car" and to give you actual deliveries of a wonderful car on the day you want it.

The Maxwell Company's Guarantee of Service to Maxwell Owners

No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers—in every part of this country—are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices. This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.

Order a Maxwell from us now, and when you want it delivered, we will give you your car—not an excuse on delivery day
