OFFICIAL PAPER OF KANDIYOHI COUNTY AND CITY OF WILLMAR

WILLMAR, MINNESOTA, WEDNESDAY, SEPTEMBER 29, 1915.

THE BIG SHOW AT ORTONVILLE

Information About the Third Annual Corn and Alfalfa Exposition.

The dates kept in mind by all the people of West Central Minnesota are October 13, 14, 15, 1915, the time set for the Third Annual Corn and Alfalfa Exposition at Ortonville. It is a time toward which all have been looking—a time to display the products with which the people have been so favored this year, a time when they can set aside the worries of every day life and put in three days of solid enjoyment. The people of West Central Minnesota believe in showing to the world the splendid spirit of co-operation and progress existing in their community and extend to all the heartiest invitation to visit their Exposition.

The Corn and Alfalfa Show of 1915 will be the object of either its predecessors. The object of the show is to show in number and quality of exhibits, in educational facilities and in variety of entertainment all exhibitions of the kind ever held. The management has spared neither time nor expense to make it a huge success in every sense of the word. The program this year will be exceptionally strong. Each forenoon will be devoted to departmental sessions and demonstrations along the lines of stock, grain, farm management, drainage and farmers' clubs. These meetings will be presided over by well known experts and will give the visitor a chance to hear the best on the subject which to him or her is the most interesting. In the afternoons and evenings there will be a short program with addresses by men of national prominence—such men as Governor Hannan of North Dakota, Prof. Moore of Madison, Wis., Governor Byrne of South Dakota, Pres. Persh of Brookings, South Dakota, Governor Ham-

mond of Minnesota, Prof. H. R. Smith of St. Paul, and a number of others equally well known. There will be entertainment all the time and of a variety to please everyone. A dozen bands will work to make the crowd happy, all contestants for the splendid list of prizes offered in this year's band contest. There will be community singing, any amount of it, singing of those songs so near to the people of West Central Minnesota and so intertwined with its development. There will be a number of vaudeville acts, a corn husking bee, excursions on the lake and a large number of other entertainment features. One hundred Sioux Indians in native costumes will bring back the life of West Central Minnesota of sixty years ago. There will not be a dull moment in the three big days. Plan now to attend. Remember "ORTONVILLE WANTS YOU." October 13, 14, 15, 1915.

BULGARIA'S ATTITUDE. The present party in power in Bulgaria, says Wirt Mills of New York, makes Russia responsible for the outcome of the second Balkan war that was so humiliating to the Bulgarians. Mr. Radoslawow and his colleagues maintain that the treaty of Bucharest was really dictated in St. Petersburg and that the Russian government was able to prevent the humiliating of Bulgaria by bringing pressure to bear upon the Serbian and Greek governments. The Bulgarians say that Russia preferred Serbia because she did not consider the Bulgarians as real Slavs and thus did not expect them to follow a strict Russian policy in the Balkans. In short, since 1913 Russia is considered by the Bulgarians as the enemy of Bulgaria. These are the reasons why Bulgaria, after a long period of watchful attitude, has taken definite steps to make good now what she lost two years ago.

Farm Clubs Congratulated. P. E. Miller, agronomist of the Morris State Agricultural School, in a letter to the Willmar Tribune, says, "I have judged a good many County Fairs in this section of Minnesota, but do not think that I have seen as fine an exhibit of farm products in the last four years, as I saw at Willmar, a success. The Farm clubs are to be especially congratulated upon their splendid showing, and the management of the Fair was excellent."

LEARN DRESSMAKING. Learn Dressmaking and Ladies Tailoring. I teach pattern making, cutting and fitting. Do your own sewing. Terms from six weeks to three months. Come early and engage your place or write Miss Mathilda Johnson, 198 E. Litchfield Ave., Willmar, Minn. Phone 584.

SAVE THE GAME.

An Appeal to Hunters to Be True Sportsmen and Spare Game Specimens of Game.

Frank D. Blair, Field Secretary of the Minnesota Game Protective Association of Minneapolis, makes the unique plea to hunters to be true sportsmen and spare game which even the game laws permit to be killed. Mr. Blair writes: "Much has been said and written about the fast vanishing wild life of the United States. Laws have been made in every state of the Union protecting the game birds and animals and more stringent laws enacted every year and what has been the result. Let it to any sportsman who knows conditions and he will say that the game is becoming more scarce each year, except some few species here and there that may show some little increase, but take the country as a whole and conditions are gradually becoming worse.

"There was a time when the game found refuge away back in the wilds, then came the railroads which made it possible for the hunter to go further back and cover districts that could hardly be reached before. The game was pushed further into the woods but still had places where it could go and be undisturbed, but then came the automobile and now every remote district in the country may be reached and the automobile hunting is beginning to make inroads on the game supply. The game birds and animals are safe nowhere any more except upon established game preserves, where hunting is prohibited. The game preserve is really the only solution for the present if we are to give the wild life a chance. These breeding centers soon show their worth if properly cared for. There is no use establishing the so-called game refuge unless they are to be well taken care of by experienced men, men who not only will enforce the game laws, but men who understand the trapping and killing of vermin or predatory animals and birds and the propagation or breeding of game.

"The scarcity of game cannot be attributed to the hunter any more than it can to any other individual. The balance of nature has been upset and it is the duty of every right thinking, conscientious man and woman to help in every possible way to restore that balance, for the laws of nature cannot be broken with impunity. The lumbermen, the mining companies, manufacturing companies, railroad men, etc., have all done their share in unbalancing nature. When nature was undisturbed, one species of predatory animals preyed upon the other, which kept every species on its proper level. We found the larger animals first, they were more easy to kill than the smaller animals and in fact many of them dangerous to settlers, consequently the majority of the larger predatory animals have been killed off which has allowed the smaller species to increase and prey upon the useful creatures in the wilds. The weasel, the mink and the house cat may hunt in and out of season and they do more damage to the small game and birds in one day than the hunters do in a week. The weasel will kill as many as twenty-five birds in a night, they can locate their quarry and go into places where the hunter may never find, and so it is just as necessary to kill off these small predatory animals as it is to have game laws if we are even to hope to perpetuate our present valuable species of wild life.

"The English and Germans recognized more than a century ago the necessity of keeping nature balanced by encouraging bird life and holding insect life in check. They have successfully practiced methods of bird life protection and propagation ever since to the pleasure of thousands of sportsmen and to the incalculable advantage of the nation which depends upon the farmers' crops for the necessities of life.

"Conservation and propagation go hand in hand and the forces of destruction, disease and shooting, must be limited and regulated until a balance is reached that will show an annual, healthful increase. "The prairie chicken and the ruffed grouse can be semi-domesticated and raised in captivity, the farmers and those in positions to do so should get into the game raising business, the sooner the better for unless something is done our quarry will escape by the way of the great auk, the Labrador duck and the passenger pigeon; the grey squirrel in the East, the native grouse and the antelope of the West and the wild turkey in the South are going.

"It is up to the sportsmen, it is they who must show their wisdom and come to the rescue. To start with the sportsmen of the great Northwest should show their brothers of the balance of the United States a higher plain of sportsmanship than has yet been reached—and that is to pass the prairie chicken by and not kill one, although the law says you may, go the law one better and show the sportsmen of the United States that the sportsmen of the Northwest are of the true blood variety and on the highest plain and let every man do his part in helping to kill off the vermin.

"We owe it to future generations—to perpetuate the wild life of today so that those who will take our places after we are gone, that they too may be able to enjoy the invigorating outdoors, nature in all its splendor, with plenty of birds and game. "Brother sportsmen, can we make the sacrifice? Think what it will mean to the future, that you in the days to come will still have prairie chickens and that the boys of the future may also have them. Will you do it? Then pass the prairie chicken by and you will be repaid ten-fold in the future. We cannot ask too much at one time, but as sportsmen, while we are at it, can we not refrain from the killing of does and baby deer during the coming season? The laws allow you to do so, but can we not also take this step, especially in regard to the baby deer?"

CHANCES BRIGHTEN FOR CORN NEXT YEAR

Seed Corn Picking is in Order if Corn Has Reached the Dent Stage.

The corn situation, which ten days or two weeks looked desperate, now seems much more promising. It looks as if Minnesota-grown seed corn for next spring's planting would not be wholly wanting. In fact, the dangers that have threatened next year's crop have diminished. The absence of frost in most parts of the state have allowed much corn to reach the dent stage, at which it may be picked for seed, though it is better to let it ripen as fully as possible if frosts do not impend.

Pick from the standing stalks in the best areas in your fields. Pick, if the corn has reached the dent stage and there are signs of frost. If there are no signs of frost, let the corn go ripe. If you have not corn far enough along, buy the right to pick in some neighbor's field. That will be cheaper than buying at advanced prices next spring or in taking corn from more distant sources. Immediately on getting your supply of seed corn, store it on hangers or open shelves in such a way that every ear may get air and be free from danger of mold.

PICK SEED CORN. REAL ESTATE TRANSFERS. Town of Lake Lillian. Sept. 25—W. H. Waples and wife to E. J. Strom, 1 a. in NE cor. of NE1-4 of NE1-4, sec. 20, \$1,000. Town of Fahlun. Sept. 16—T. P. SHANTY TOWN. Shanty Town, Sept. 27—Misses Agnes Pederson and Clara Martinson were Saturday afternoon callers at Backlund's. Wedding bells will soon be ringing in this vicinity. Mr. Carrol Backlund was a Sunday caller at Olson's. Miss Hilda Gynild spent Sunday at her parental home. Mr. Elmer Gynild was a Sunday caller at J. Pederson's. A bunch of boys enjoyed a swim in Eagle Lake Sunday. Walter Bakken and Einar Gynild visited school friends at Ortonville. Mr. and Mrs. William Erickson left for the cities last week. Prayer meeting was held at Julius Pederson's Sunday afternoon. Mr. Albert J. Johnson has hired out to Andrew Stene for a month. Oliver Stene and Joe Netland were seen in Shanty Town last week. Mr. Marcus Peterson is busy doing carpenter work at the State Farm. Miss Clara and Agnes Peterson visited in Willmar Monday with Mrs. I. Olson. Mr. Elmer Gynild and Mr. Arnold Peterson were Sunday evening callers at Backlund's. Mr. and Mrs. Chas. Daniels from Grantsburg, Wis., who have been visiting with Ed. Pederson's left Tuesday. Mr. and Mrs. Ed. Pederson and family.

TAKE MUSIC AT SEMINARY. Register for Piano or Voice or both with the Seminary at the Willmar Seminary as soon as possible on or after October 4th. Miss Bertram has taught at Stanley Hall, Minneapolis. She has studied extensively at the Northwestern Conservatory of Minneapolis and the American Conservatory at Chicago. Both beginners and advanced students should lose no time in registering. Card of Thanks. We hereby wish to thank all those who so kindly assisted us during the illness, and after the death of our beloved daughter and sister. Also wish to thank each and every one of those who brought floral offerings. Mr. and Mrs. Ed. Peterson and family.

BACK GIVES OUT Plenty of Willmar Readers Have This Experience. You tax the kidneys—overwork them— They can't keep up the continual strain. The back may give out—it may ache and pain; Urinary troubles may set in. Don't wait longer—take Doan's Kidney Pills. Willmar people tell you how they act. Mrs. H. Thostenson, 1213 Campbell Ave., Willmar, says: "One of our family had backaches and other trouble with the kidneys for some time. Doan's Kidney Pills helped right away. They did just the good work that we have great faith in them." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Thostenson recommends. Foster-Milburn Co., Props., Buffalo, N. Y. (Paid advertisement.) Card of Thanks. We wish to express our heartfelt thanks for the sympathy shown us in our bereavement, after the death and burial of our beloved father, Per Peterson. We are grateful to all friends for their kind words and deeds. John Bodin and Family, Nels Peterson, Elov Peterson, Mrs. Ole Olson, Mrs. J. N. Nelson, Mrs. Peter Boesen, Mrs. John Carlson, and respective families.

WM. WIRT MILLS' NEW YORK LETTER

New York, Sept. 25, 1915. It seems to be pretty well settled that America is to finance the war to the extent of giving an enormous credit to England and France. Now if it is a Christian act to go to the assistance of a person who is in distress, does not the same quality of adherence to the lending of the helping hand and hundreds of millions to nations that are at war? Nay, more! Is it not an act of self-abnegation? For is it not certain that this huge credit will enable Great Britain to husband its gold and to hold on to its American securities, so as to have these resources available, upon the ending of the war, to finance the fiercest industrial competition against the United States that is sure to follow the return of the soldiers from war to the pursuits of peace? It is certainly not to be certain that this huge credit will enable Great Britain to husband its gold and to hold on to its American securities, so as to have these resources available, upon the ending of the war, to finance the fiercest industrial competition against the United States that is sure to follow the return of the soldiers from war to the pursuits of peace? It is certainly not to be certain that this huge credit will enable Great Britain to husband its gold and to hold on to its American securities, so as to have these resources available, upon the ending of the war, to finance the fiercest industrial competition against the United States that is sure to follow the return of the soldiers from war to the pursuits of peace? It is certainly not to be certain that this huge credit will enable Great Britain to husband its gold and to hold on to its American securities, so as to have these resources available, upon the ending of the war, to finance the fiercest industrial competition against the United States that is sure to follow the return of the soldiers from war to the pursuits of peace? It is certainly not to be certain that this huge credit will enable Great Britain to husband its gold and to hold on to its American securities, so as to have these resources available, upon the ending of the war, to finance the fiercest industrial competition against the United States that is sure to follow the return of the soldiers from war to the pursuits of peace? It is certainly not to be certain that this huge credit will enable Great Britain to husband its gold and to hold on to its American securities, so as to have these resources available, upon the ending of the war, to finance the fiercest industrial competition against the United States that is sure to follow the return of the soldiers from war to the pursuits of peace?
