Elks Going to Duluth.
 Duluth, Minn., May 1—A total of \$300 in gold will be awarded in prizes during the twelfth annual convention of the Minnesota State Elks' Association to be held here June 14 and 15, according to announcement made today by the committee in charge of arrangements.

To the best uniformed delegation at the convention Duluth Lodge will give \$50 and the second best \$25. The largest band at the gathering will receive \$100 and the next largest \$50, while prizes of \$15 and \$10 will be given to the decorated autos in the parade. The school children making the best showing in the Flag Day parade on the evening of the 14th will be awarded a prize of \$50.

Duluth is making every effort to bring 5,000 Elks and members of their families to the convention this year and indications are that this number will be reached. Edmund Pennington, president of the Soo road, will head the Minneapolis delegation, while Louis W. Hill, president of the Great Northern, will lead the St. Paul Elks to the meeting.

Talking About Weather.
 Andrew Norgren and Postmaster Forsberg swapped stories about the weather yesterday at our office. They agreed that about 1892-93 we had a cycle of wet years with late springs. In 1892 there was a severe blizzard on May 22, in which the Norgrens lost three steer calves that died from the cold. Mr. Forsberg taught school in those days, and said on that particular day no children could come to school. Still there was a fair crop harvested.

Wheat Acreage Decreased.
 "The acreage of wheat is going to be less than half of the usual," said J. E. Johnson, of Lake Lillian today. The wet season and the difficulty in seeding wheat is the cause. Oats and barley will be sown instead. Whether corn acreage will be up to the normal will depend upon the weather during the next few weeks. Mr. Johnson was able to get to town with his Reo.

SUNBURG.
 Mr. N. T. Gunnufson returned last week from Jordan, Minn., at which mud bath sanatorium he enjoyed the beneficial effects of a month's treatment on account of rheumatism. He reports that some of the baths were pretty hot affairs but thinks that the experiment brought favorable results.

Mr. Herbert Leaf, of the town of Kerkhoven, and Miss Anna Gundersen of the town of Norway Lake, were united in marriage at Benson, April 11. The newly married couple have many friends with whom the Enterprise join in extending congratulations and hearty best wishes for a happy and prosperous matrimonial life.

Mr. Helmer Jorgenson of Rutland, N. D., and Miss Mary Rime, daughter of Mr. and Mrs. O. E. Rime, of this place, were united in the holy bonds of wedlock at Forman, N. D., on Mar. 30. The newly married couple visited briefly at the Rime home the early part of this month before returning to their home town, near which Mr. Jorgenson owns a handsome farm.—Sunburg Enterprise.

Fined \$10.56.
 Sam Aely, a Sicilian, was arrested and tried this morning for peddling without a license. He was fined \$5.00 and costs or seven days in jail by Judge Muller. He first chose the jail sentence, but later, after much parley, got his partner to pay his fine and both continued on their way to parts unknown.

Rev. Gade Visiting Here.
 Rev. L. W. Gade of Virginia, formerly pastor of the First Presbyterian church of this city, is visiting with friends here a few days this week, and will speak at the evening services next Sunday evening at 7:45.

In Municipal Court.
 Mons Olson of Lake Andrew was brought before the Municipal Court today charged with refusing to send his boy to school as required by law. The case was dismissed on motion of county attorney on promise that the children should go to school.

Gov. Burnquist Files.
 Gov. Burnquist filed for the Republican nomination for governor Monday, and in regard to his campaign committee filed the following statement:

"The law requires that a candidate shall file with the filing officers the names and addresses of his personal campaign committee. In this connection I wish to say at this time of my filing for the office of Governor that on the tenth day of last month I received a letter from several personal friends, who volunteered their services in forming a voluntary campaign committee to advance my proposed candidacy, with headquarters at the Merchants Hotel, St. Paul.

"Since the receipt of this letter I have believed it would be inadvisable for me to appoint a personal committee or manager, and therefore at that time decided to leave the management of the campaign to this voluntary committee, who have so kindly offered their assistance in such a way as to relieve me of any embarrassment if nominated and elected."

County Primary is Near.
 The Supreme Court has decided that the law is unconstitutional which was to enable the Clerk of Court in certain counties including Kandiyohi to hold over until the 1918 election. This decision will compel Clerk of Court Ramslett to stand for re-election in order to continue to hold the office. The other county offices to be filled are judge of probate and county commissioners in the First, Third and Fifth Districts. The last day for filing is May 29, twenty days before the primary election which occurs June 19. The filings for state officials must be made by May 10. The four year term law for the balance of the county officials is also to be tested in the Supreme court, but is not likely to be found invalid.

—Charles E. Adams, formerly of the Tire Repair Station, has accepted a position with the Osmundson garage, and will have charge of the tire repair department.

Lawn Mowers

The blades in our mowers are made of oil-hardened, water-tempered crucible tool steel. They hold their edge and they are so adjusted that they sharpen themselves as they wear. Strap-iron blades, nicely painted, may look pretty well, but it makes a lawn mower a source of annoyance and money waste to the owner. We can save you money in the long run. Drop in and see our line of mowers. Different sizes at various prices from

\$4.00 and up

We also have a big line of Kant Kink Garden Hose.

SCREEN IN THAT PORCH

Pearl Wire Cloth out-wears and out-satisfies all imitations.

It is as near rust-proof as metal can be made, and once up it is there to give permanent protection.

I will be glad to receive your order for screenwork.

ANDREW BJORSELL

Willmar Minnesota

He's Just As Dangerous As He Looks

and to properly protect your family, especially the children, against him you need fly-tight screens on every outside door and window in your home.

And they should be put on early too, so the flies can't get inside to breed.

Don't let the cool weather keep you from ordering your screens at once. You can get any ordinary size now, out of my stock, but you will probably need some sizes that will have to be made up and that will take a little time.

Give me your order now.
