

N. B. C. GRAHAM CRACKERS

You don't have to coax the children to eat plenty of N. B. C. Graham Crackers. These are not only rich in the nourishment that builds bone and muscle, but their tempting taste makes the little appetites hungry for more.

N. B. C. Graham Crackers added an individuality and nut-like flavor that other Graham crackers lacked. This makes them an almost universally popular article of everyday diet.

COAST TO COAST RACE IN RECORD TIME

Race Over Yellowstone Trail Is Finished in Record Breaking Time.

The automobile transcontinental race against time on the Yellowstone Trail from Plymouth Rock to Puget Sound last week broke all records for time, the last relay car reaching the final destination just one hour and twelve minutes behind schedule time, and completing the trip across the continent in the shortest time ever made by the fastest train.

The tour was made under the auspices of the Yellowstone Trail Association and was for the purpose of advertising the trail and demonstrating the condition of the roads across the country.

From Glencoe the pennant and letter pouch was brought to Olivia by Ben Klaus and Henry Birkholtz. Along the route people gathered to watch the carrier pass along and deafening applause greeted the pair as they dashed into Olivia, where an immense crowd had gathered at the corner of the Olivia State Bank.

From Olivia the carrier was met by W. M. Shepard and Albert Jensen who were waiting with the former's Sudebaker and hardly had Birkholtz brought his car to a stop when Jensen snatched the pennant and letter pouch from his hand and leaping onto the running board of the Sudebaker, driven by Shepard, the two dashed off on their way to Montevideo, followed by a relief car in which were O. T. Sundt and James Voelka.

OLDER BUT STRONGER
To be healthy at seventy, prepare at forty, is sound advice, because in the strength of middle life too often forget that neglected colds, or careless treatment of slight aches and pains, simply undermine strength and bring chronic weakness for later years.
To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-nourishing properties of Scott's Emulsion which is a food, a tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sickness. No alcohol in Scott's.

A Grand Old Man. Rev. Johannes Telesen, D. D., spent two weeks at the editor's home, and with other friends at Willmar, leaving Tuesday morning for Grove City, Dr. Telesen is one of the pioneer workers of the Augustine Synod. He organized the first congregations at Willmar, Salt Lake and San Francisco. He built Grace church at Seven Corners, Minneapolis. He helped organize the mission in Porto Rico, after the war with Spain. Now for many years he has travelled for the foreign mission cause, at present for the work among the Kurds. After fifty years of strenuous work for his Master, with three decades of war, he is still a banker and professor, and a daughter, a minister's wife, Dr. Telesen seems to retire to a life of ease. At seventy he does work that would tax many a younger man, speaking at all positions on the coast, and doing an extraordinary work at odd times. The memory of his visit lingers like a benediction.

Sole Practice at Osakis. It will be of interest to the friends of Dr. and Mrs. W. H. Hengstler, in this city, to learn that the former has sold his medical practice at Osakis. He will take a course in post graduate work in Minneapolis this fall, and expects to spend the winter in New York studying. The family will remove to Portland, Oregon early next spring.

Newly-Weds Surprise Uncle. Dr. Henry A. Holmberg and Miss Ida Anderson were married last Saturday evening at St. Paul. They left late the same evening for Willmar, arriving on the early Sunday morning train. They most agreeably surprised Dr. Holmberg's uncle, F. A. Holmberg, the tailor, at whose home they remained until Tuesday afternoon. Dr. Holmberg is a practicing dentist at St. Paul.

Frank H. Stull of this city, who was only recently promoted to the position of Chief Diskeeper at Grand Forks, N. D., has received another promotion. He will be Trainmaster at Sioux City. Frank has a great many friends here who congratulate him upon the advancement. He passed through here Sunday morning on his way to take up the new duties.—Breckenridge Telegram.

George A. Johnson, son of Knute Johnson of this city, who has been in the Minnesota troops at Grand Grande, Texas, on the Mexican border arrived in Minneapolis last Wednesday. He remained there until Saturday, when he came home to spend Sunday in this city. He returned to Minneapolis on Monday and will enroll in his second year in the dental department this week.

If a banker should today offer you a position as bookkeeper or cashier, would you accept it? No. You are not prepared, but why don't you prepare? Why don't you attend Mankato Commercial College? Send for their catalog to find out more about it.—Adv.

Clifford Hanson, who was formerly employed in a bank at Lamberton, Minn., resigned his position there and spent some time last week visiting with relatives here. He left on Tuesday morning for Minneapolis and from there goes to Montana, where he has accepted a place in a bank.

CHALMERS MOTOR CO.
Quality First
\$200 or \$300 MORE, AND WHAT A DIFFERENCE!
I once bought a 98-cent razor. For two weeks I shaved with it. Then I bought another one. I paid \$3.50 and I still have it. Nobody can persuade me to part with it. And I challenge anybody to convince me that a 98-cent razor is cheaper than a \$3.50 one. No, gentlemen, the \$3.50 razor is cheaper by far. It costs more, keeps a keen edge, gives me a good shave every day and lasts a lifetime. So with the Chalmers car. It costs a little more—perhaps \$200 or \$300 more than some other cars. And what a difference that \$300 makes! The Chalmers keeps going day in, day out; year after year. It always looks the part. About all you need do is look after the gas, oil, water and grease cups. And Chalmers gives five-year life. The average Chalmers owner keeps his car at least five years before he sells it second-hand or trades it in. Quite a difference between the 3400 r. p. m. Chalmers and many other cars in that one respect. Aside from all this—the performance of the 1917 Chalmers will make you catch your breath.
