THRIFT STAMPS ON SPECIAL ORDER NEXT

Mar. 10-17 Will Mark Special Effort by All War Stamp Boosters.

Next week—March 10 to 17—will be "War Club Week."

On its success depends, in a large measure, not only the success of the Thrift Stamp campaign in Minnesota but the Third Liberty Loan as well.

Governor Burnquist has officially proclaimed War Club Week but just so that everyone gets it clearly in mind just what it all means and what the duty of the individual patriot is, here is the outline of the general scheme of things.

As most people know, there has been going on in Minnesota, and in fact all over the nation, a nice, gentle, but none the less persistent, campaign for the sale of thrift stamps and war savings stamps. This campaign has been meeting with very gratifying results but the very nature of the thrift stamp scheme is such that it cannot be carried to a conclusion in a one day, one week, one month intensive campaign.

For the thrift stamp is designed, aimed and planned to catch the loose change which the average person tosses away—hubby's excess cigars, baby's candy money, mother's spare—but then mother admits she never has any spare change—though she is a splendid thrift stamp buyer.

Of course the nation is not after the loose change of last week or this week but the very nature of the thrift stamp is such that it cannot be carried to a conclusion in a one day, one week, one month intensive campaign.

Hence, as a touch is of vital importance, it is certainly not advisable to permit one to step on the other's toes—for either to get in the way of the other.

So here's the idea: Next week patriots are expected to form permanent habits for saving of their small, spare, loose change. Once saved, of course, this change is expected to find its way into thrift stamps which grow into war savings certificates so fast you can't realize it. With everyone safely in the permanent habit of saving this spare, small, loose change, the Thrift Stamp campaign would run on "her own steam" from then on, leaving the stage free for the Third Liberty Loan, the campaign for which starts April 6.

That's the idea, but it involves teaching two million persons—same being approximate population of Minnesota, the habit of small savings in a week. Can it be done?

A. R. Rogers, director of both liberty loan and thrift stamp activities in this state, says he thinks it can. In fact, says Mr. Rogers, it must be done and that must be done has got to be done.

The War Savings society is the suggested method.

Every church in Minnesota is called on to organize a War Savings society. So is every school, every college, every Y. M. C. A., every Y. W. C. A. So is every lodge, benevolent or fraternal, every labor union, every bankers club, every commercial club, every improvement league.

So is every fire department, every police department, every city or village council, every factory, mill, farmers' club, sewing circle.

That's the idea: "Get the Small Change Savings Habit next week and keep it." After which prepare to meet Miss Third Liberty Loan.

FUEL SITUATION WILL BE CRITICAL

Wood Should Be Cut Wherever Possible For Next Winter's Use.

Cut wood right now for next season's fuel supply.

Gov. A. E. Rice, a member of the County Fuel Committee has received a strong letter from Federal Fuel Administrator J. F. McGee on the fuel situation. He says that there will next year be need for 50,000,000 tons of coal more than possibly can be mined, not to say anything about the transportation, and that the shortage next year will be much more acute than last year. He urges co-operative bodies be organized in each locality to handle the fuel situation where there is wood available, and that everybody who can cut wood for next season right now, it is expected that coal will be denied districts next year where wood is available. Stringent rules for the distribution of coal for next season have been adopted.

RED CROSS WORKERS KNIT TRENCH SOX

Special Request Made to Concentrate Knitting On Socks For Soldiers.

The local Red Cross Chapter has received the heavy Amoskeag yarn, from which it is desired to have socks knitted suitable for the soldiers in the trenches. The demand for socks is very great and everyone is urged to knit socks at this time rather than sweaters and other articles. The coarse yarn makes a most acceptable sock better for the soldiers than the lighter yarn, and takes less yarn than for two pairs which the boys must wear at a time if they are made of light yarn. There has been some difficulty in getting our women to knit the heavy yarn, and some think they cannot learn to knit socks as readily as other articles, but there will be no question but that when the matter is thoroughly understood our women will do their bit to fill the great sock demand. Mrs. Freeman, Secretary of the County Chapter, appeals to all individuals as well as societies and lodges to turn all their work thru the Red Cross, rather than undertake to distribute the articles themselves. Letters have been received from Mr. Caler Campbell, from the Bureau of Military Relief, that it is essential for an equitable distribution of the articles that they all go thru the Red Cross. In this way only can it be prevented that some men get three or more sweaters and sell their surplus. For this reason also it is strictly against the rules for local chapters to hand articles direct to departing recruits. Every boy will be taken care of and given what he needs when he arrives at the camp. The certificates for membership for the Christmas Red Cross drive are now made out, but in order to save postage have been left at Chase's store where anyone wishing their certificate may call for it.
