FORCE PASSAGE OF OURQ RIVER

Pressure on Retreating Germans Is Kept Up by Franco-American Troops.

OCCUPY SUPPLY BASE

Enemy, Heavily Reinforced, is Holding Tenaciously to His Ground on Extreme Wings of the Gradually Decreasing Pocket.

London, July 29.—Continuing their pressure on the Germans in retreat from the Marne, the Franco-American troops have reached and crossed the Ourcq river and penetrated the town of Forez-Rheims, one of the great German supply bases for the enemy troops inside the Soissons-Rheims salient.

Meantime, on the center of the Allied right wing southwest of Rheims, violent attacks by the French have forced the enemy to give more ground and enabled the French to capture several towns of strategic value and draw their front appreciably nearer the high road which runs northeastward from Dormans to Rheims.

Germans Fight Desperately. On the extreme wings of the gradually decreasing pocket—near Soissons and Rheims—the enemy, heavily reinforced, is holding tenaciously to his ground, realizing that successes there would result in a general crumbling of his plans of defence against the locking up of his entire armies inside the big bag.

In addition to the large number of troops for reinforcement that have been thrown in these two sectors, the German long range guns from the region north of Soissons and north and northeast of Rheims are keeping both wings of the salient under a heavy enfilading fire.

Under the battering tactics of the Americans and Frenchmen, the German line on the south has now been driven back more than 12 miles from the point south of Chateau Thierry where the Allied troops locked the door to Paris against the enemy July 18, and themselves became the aggressors in what has turned out to be one of the greatest battles of the war.

Use Cavalry, Tanks and Airplanes. The crossing of the Ourcq, even if only by advanced elements of the Allied forces, presages a general crossing later on. The French official communications thus far during the battle have been remarkably conservative in their estimates of the gains that daily have been made, and it is indicated in unofficial dispatches that Allied troops are considerably in advance of the line as announced officially.

Where the Germans are in retreat from the south the cavalry has been brought into the fighting and numerous tanks and machine guns in profusion are everywhere harrying the enemy, whose losses are heavy.

Meantime airplanes are flying over the retreating hordes dropping bombs, while the big Allied guns from the sides of the salient are keeping up their intensive firing from all angles into the densely congested area.

ESCAPE GERMAN CRUELTY

Survivors Tell of Submarine Diving and Leaving Them to Perish. London, July 29.—The survivors of a sailing trawler, one British and one Belgian, just brought into a British port, tell a terrible tale of German cruelty.

The British trawler was sunk before dawn Friday by a bomb and the crew was taken aboard the submarine. Hours later the Belgian trawler was sighted and sunk and the crew, consisting of a father and son, also taken aboard.

All were kept on the submarine's deck near the conning tower and when patrol boat appeared the submarine emerged without warning, leaving fishermen to drown. The Belgian father and his son and three Englishmen perished and only two of the British crew were saved.

Russian Soldiers Leave Only Small Quantity for Peasants. Washington, July 29.—The food situation between Germany and Russia is reaching an acute stage, according to reports received at the State department. There is not enough food in both countries and the question as to who will get what provisions are being reached critical stage.

Two-handed methods have been adopted by the Germans, it was said, oldiers with threshing machines are sent into the grain countries and the grain requisitioned. The Russian peasants are allowed only such quantities as the soldiers decide they need.

GERMAN ARMY RETIRES

Crown Prince's Forces Falling Back on New Line. Washington Military Officials Believe Unrest in Teuton Empires Will Compel Battle.

Washington, July 29.—The German army in the Soissons-Rheims salient, harassed on the flanks by Allied infantry and with advanced positions directly north of the Marne swept by Allied artillery, has retreated to a new line of resistance, where another attempt will be made to meet the attack of the American, French, British and Italian troops.

Thus was the German withdrawal, reported in advices from Paris, viewed by military officials here. The retirement of the enemy did not alter the widespread belief in official circles that the enemy still contemplates fighting it out in the region north of the Marne. Officials were not from the south the cavalry has been brought into the fighting and numerous tanks and machine guns in profusion are everywhere harrying the enemy, whose losses are heavy.

Meantime airplanes are flying over the retreating hordes dropping bombs, while the big Allied guns from the sides of the salient are keeping up their intensive firing from all angles into the densely congested area.

HURLEY SETTLES MARINE TROUBLE

Chairman of Shipping Board Presents Strike of Seamen on the Great Lakes.

MEN REMAIN AT WORK

Independent Companies and the Lake Carriers' Association Are Willing to Arbitrate the Question of Wages to Be Paid.

Washington, July 29.—Following a conference with Chairman Hurley of the shipping board, orders calling off the threatened strike of seamen and firemen on the Great Lakes were issued by Victor A. Olander, secretary of the Sailors' union of the Great Lakes, and other union leaders.

In meeting all grievances given by the men for a strike, Chairman Hurley ordered the Lake Carriers' association and all its members to sign the nation's appeal for men for merchant ships "as originally drafted and without any changes." He also ordered the association not to require seamen to register in its shipping offices or to occupy rooms, pending further negotiation.

Conference Set for Wednesday. Independent ship owners on the Great Lakes and the unions were called upon by Mr. Hurley to send representatives to Washington next Wednesday for a conference on the pending wage demands of seamen, firemen and stewards. Both union leaders and officials of the shipping board said that they would not provoke a strike, as employers and men are said to be willing to arbitrate.

The decision to call off the strike followed a two-hour conference between the union leaders and officers of the shipping board. It was pointed out again to the men that a tie-up of lake shipping would interrupt food shipments to the soldiers overseas in addition to hampering operations.

Ordered to Sign Up. Insistence by union leaders that ship owners and their association sign the appeal was met by Mr. Hurley's sending to William Livingstone, president of the association, this telegram: "United States Shipping Board, hereby directs the members of the Lake Carriers' association and the Lake Carriers' association as an association to sign the nation's appeal for men to man its merchant ships as originally drafted and without any changes."

The other complaint of the men that the registration of seamen at the association's shipping offices and as a condition of employment would be discriminating against the men and compel them to join the men's welfare plan, was met by Mr. Hurley's asking that the practice be suspended pending further negotiation.
