

# For The Whole Family

All of the family like Holiday Nutmargarine. It is certainly proving the popular spread for bread and a favorite with thrifty cooks in tens of thousands of the best homes.

It is a product of absolute purity—nutritious, healthful and delicious. Contains just four ingredients—the oil pressed from the white tender meat of coconuts, peanut oil, sweet milk and salt—churned together like ordinary butter.

## HOLIDAY NUTMARGARINE

In combination with its genuine goodness there is a marked advantage in price equaling fully a third less than the best creamery butter.

The word oleomargarine must appear on the carton because there exists as yet no law that distinguishes between oleomargarine made of animal fats and nutmargarine made of vegetable oils.

There is a government tax of 10 cents a pound if we color it, so it comes to you a creamy white with a capsule of vegetable coloring, the same as used by all butter manufacturers.

### LOWER RIO GRANDE VALLEY OF TEXAS

Much has been said with reference to the resources, opportunities and possibilities of the Lower Rio Grande Valley of Texas.

Fourteen years ago, this Valley was a vast cattle ranch, without a railroad. Since the advent of the St. Louis, Brownsville & Mexico Railway, these lands have been placed on the market and made available for the farmer, people from all over the world have been attracted to this wonderfully rich country, by reason of its climatic conditions and general healthfulness, together with the excellent opportunities offered for the growing of corn, cotton, hay, sugar cane, trucks, fruits, as well as for dairying, hog and stock raising and diversified farming. Twenty towns and villages have been established in this great Valley since the railroad came in; and the shipments for 1917 totaled 2,219 carloads of food stuffs harvested before June 1st.

This Valley is from three to fourteen miles in width and fifty miles long; and all the lands within the riparian rights are available for water from the Rio Grande River, through one of the finest irrigation systems in the United States; and this water carries with it, a silt which acts as a fertilizer for the soil, which produces three abundant crops a year. In 1917, 60,000 acres of the Valley cultivated under irrigation, produced and sold over \$6,000,000 worth of produce, during the driest season in the history of Texas.
