He enlightened his part of the program by continually talking, giving numerous jokes, stories, and incidents from his experiences. The farmers and boys especially enjoyed this part of the program. BENSON CITY TEAM VS. WILLMAR SEMINARY

The Willmar Seminary Basketball team went to Benson last Wednesday to challenge the Benson City team with hopes of starting a clean score sheet that was their first game of the season. Likewise Benson also. Ellingson got the tip off from Engelson and the game started. It was a rough accurate game. Engelson had three Dudley up against the wall just to see how hard he could fall. Prof. Harstad seeing this, called a double foul. Govig shot his foul and as luck was good, he made it, making one point for Willmar. B. Peterson scored the first field basket for Benson while Govig having the honor for Seminary, Peterson followed his nice work with six more baskets, while Govig got three baskets. Holmberg slipped in a clean basket from some place in field, nobody seemed to know where because he was so small he couldn't be seen with those men. B. Peterson and Dudley were the scorers in the first half for Benson, with Govig and Holmberg for the Seminary. Bergeson's man must have pulled something over on him as when they fell (hard) Bergeson's man was trying to get away, but that was impossible as Bergeson surely made a nice basket. This was kept up until five baskets were made and then Engelson scored with a fine field basket. Dudley was a high man for making four successive baskets. Minikus scored one and then Holmberg having hard luck all thru the game appeared a pretty one. That made him feel as big as B. Peterson. B. Peterson scored five more fields and Ellingson came in on one more. Twelve tack fouls called on Benson and Govig having hard luck got five of them to our score. Only six fouls called on Seminary and Dudley failed for each one. C. Peterson followed with three fields making the total score 66 to 37. They were no match whatever. The return game will be called on the Seminary floor sometime in the future, and then will be the time Benson will get their rub. Everyone left the game as happy as when they came.

Pederson made 18 field baskets and no fouls. Govig made 3 field baskets and 5 fouls. Local H. S. Runs Up Big Score. Willmar showed their mettle last Saturday night at Murdock when they outclassed the Murdock team in team work and basket shooting. The cause of defeat of the Willmar team in the two previous games was removed when scholastically all were found eligible to play. With all these players back in the game, splendid results are expected Wednesday and Saturday nights when they play Litchfield and Grand Rapids respectively. Severlson, Erickson and Nelson made each 14 points for the local five. Odell at center made three baskets while McDonald and Holt also netted one each. The first half ended with a score of 32 to 8. In the second half Odell was placed back of the guard and McDonald took the pivot position. The locals then started shooting again with good results although many were missed. The game ended with a score of 55 to 6. Murdock succeeded in getting only one basket. There was no particular star for the Murdock quint, but Lundquist as forward was credited as the best player. Johnson was substituted for Odell and Holt for Nelson in the last five minutes.

Local Girls Win Over Murdock. The girls won their second game of the season through fast and snappy play. The game was played in the H. S. gym. The first half was harder fought than the last. Mamie was hurt during the first half and time was called.

In the second half the Willmar girls outclassed the Murdock girls. The feature of the last half was the shooting by Ruby Otterness who played forward for the first time. The game ended with a score of 38 to 10.

Put On The Left Shoe First

They all said it—Doughboy, Fails, and Tommy—and clinging to that bit of trench superstition, they believed it brought good luck for the day—and longer life in the shell-racked stretch about them.

But in these fairer, happier days, when peace whirls the wheels of motordom again, we say,

"Put on the right shoe first."

And, of course, the right shoe, is the Goodrich Shoe, because it means good luck day and night, and longer life in your tires.

But there's no superstition about it; only the big, husky body, and the wide, thick BLACK SAFETY TREAD, Goodrich builds into tires that—
