EXPENSE BUDGET EASILY RAISED

(Continued from First Page.)

Christ, to save men from hell. The money that was raised for the benefit of the man who has got to go there. If you have a relative in hell tonight, you can't get out of there. You cannot appreciate what God has done for you, until you realize what God's love saved you from.

One of the most impressive services of the campaign was held on the evening of "Good Friday," when the subject was "The Resurrection." For the preaching of the cross is to them that perish with blood. "But Ourselves have done for you, until you realize what God's love saved you from."

After singing several songs, the pastor presented had no doubts about the truth of their opening chorus. "We're full of pep, Chuck full of pep; Chuck full of pep, Chuck full of pep; You must hurry if you match our step."

After singing several songs, and repeating a number of Bible verses, they gave the largest audience a reminder by repeating in chorus:

"If this campaign should tumble down, You cannot lay the blame on us, Because we sure are working."

A very pleasing and impressive object lesson followed, when as the audience sang the hymn "Let the Cross be Burning" upon coming to the second stanza every light was suddenly extinguished. When three or four lights began to shine from the Booster choir, as they sang the chorus:

"The father and brother state that the young man committed the rash deed. When he left home about three weeks ago he had with him a fifty dollar bond, a sum of money and a good suit and coat over coat. When found he was dressed in overalls and a mackinaw jacket.

The father and brother state that the young man committed the rash deed. When he left home about three weeks ago he had with him a fifty dollar bond, a sum of money and a good suit and coat over coat. When found he was dressed in overalls and a mackinaw jacket.

The father returned home with the remains Friday afternoon while the brother made a trip up to Spicer to see if he could gain any more particulars about his brother's movements prior to taking his own life. We are told he found no clue of any kind.

"My baking powder," says the smooth solicitor, "costs less than Royal."

But he omits to say that it often leaves a bitter taste, that food made with it is likely to stale in a day and that it contains alum, which is condemned by many medical authorities for use in food.

England and France prohibit the sale of alum baking powders.

SATISFACTION IS GUARANTEED WHEN YOU BUILD A BROOK'S CONCRETE STAVE SILO.

Attention Mr. Farmer

There has been no time before when the profit in feeding, raising and milking of stock has been so great.

No time before when the necessity of saving feed has been so evident.

Professor J. M. Evvard, of the Indiana Experimental Station, Cattle Section, in a recent experiment proved, that on a silage ration to produce one hundred pounds of beef it required the produce of ONE SEVENTH of an acre of silage in comparison to ONE FOURTH of an acre with the Alfalfa Ration, which is considered the next best roughage.

IN BUILDING A SILO THE BEST IS NONE TOO GOOD.

War Times and Corsets

THE Corset is more essential, now when women are called to fill so many spheres of labor that a few years ago would have been thought impossible.

To succeed in this work, which demands more physical endurance, requires correct corseting and that the corset be properly worn.

Woman's attention must be upon the work at hand—not hindered by bodily discomfort.

A Roberta Laced-in-Front gives support to the figure, allows unrestricted breathing and perfect freedom of movement.

You can have corset comfort if you will give a little time and care in choosing a Roberta. Think what this means to the worker employed six or eight hours in lines of work to which she is unaccustomed.

The Clasps with flexible tops and the rubber inserts make Robertas most desirable.

It is more important than ever, to know that you are wearing the corset adapted to your figure. Our corsetiers will advise with you, suggesting what is suitable.
