## THRIFT and HAPPINESS

If you are a thrifty person you are happy. When you are earning more than you spend, when you produce more than you consume, your life is a success, and you are filled with courage, animation, ambition and goodwill. The habit of thrift proves your power to rule yourself.

Loving labor and thrift go hand in hand, and if you have no surplus saved up, you are a plighting of chance, a leaf in a storm. The surplus gives you the power to dictate terms.

Cultivate the habit of thrift, and the earlier you begin the better. And no matter how old you are, or how long you have lived, begin this day to save something by starting a savings account, at this Bank, no matter how little. We pay 5 per cent on savings accounts.

### THE KANDIYOHI COUNTY POULTRY ASSOCIATION

D. T. Carlson is New Secretary. Next Show at County Fair in September.

Mr. Stanfield of the State Agricultural Extension department was in the City last Saturday in conference with the County Agent and officers of the County Poultry Association. Mr. D. T. Carlson of the Central Minnesota Produce Co., was prevailed upon to take the secretaryship, and it is likely that the next show will be given at the County Fair. There are some disadvantages to the fancy breeder in holding the show at that time, but the general benefits will more than outweigh them. A good showing of poultry at the county fair will attract a far more general notice from the farmers and breeders of the county than a winter show held during the winter months. Improvement in the kinds of poultry kept, and better care and attention given them, means so much to the prosperity of the community, that the efforts to put the County Poultry Association on its feet should receive the cordial support of everyone. Mr. Carlson's consent to give some of his valuable time to further this cause should meet with reciprocation from all who believe in better poultry in the county. Give him all the help and encouragement you can.

Country Life in Sweden.

Human nature is much the same in its frailties the world over. No nation is exempt of perfection. But nevertheless, universal education and Christian home training will tell and the homely virtues of honesty and regard for the laws of God and government, are brought to this country by the people of Scandinavia is one of the greatest assets of the nation.

The film drama, "The Girl From The Marsh Croft," dramatized from Selma Lagerlof's book that many give an insight into Swedish country life that will be appreciated by American people generally, but especially by those Americans whose ancestry may be traced back to the Land of the Midnight Sun. If more such wholesome pictures were shown, there would be less criticism of the "movies" and more people who differentiate between the good and bad would have the opportunity to understand the value of this great photographic invention. We commend this picture to the public as a worthy one, and we are sure that the story will grip their hearts from start to finish.

In one of the accompanying scenic films, the life among the Laps is depicted. The Laps are a distinct race which inhabit northern Sweden, much as the Indians do the wilds of our continent. The life among the Laps, proves that the efforts to Christianize the Laps has not been in vain.

Majestic.

The newest in Madge Kennedy's series of Goldwyn successes is "A Perfect Lady," from Rex Stans, a popular stage play by Channing Pollock and Renold Wolf. It will be shown Thursday.

Dorothy Dalton, one of the best known of dramatic screen stars, appears in a decidedly new character in "Hard Boiled," the new Thomas H. Ince Paramount photoplay that comes next Saturday. The story, written by John Lynch, she has a part that mingles comedy and pathos.

The latest special aircraft production of Cecil B. DeMille entitled, "For Better, For Worse" is the big feature on Monday and Tuesday. This is an extremely timely picture, dealing with vital modern problems, in a highly dramatic manner, and produced with all the artistry which characterizes the DeMille pictures.

Mabel Normand, who is well known wherever this is ever was, is funnier than in her latest Goldwyn picture, "A Perfect 36" by Tex Charvate which will be shown Wednesday.

WHAT TO DO WHEN YOU ARE STUCK IN MUD HOLE

A New Use For Old Newspapers, and Other Suggestions.

A resourceful motorist whose car has been stuck in the mud does not always have to fall back on a pair of mules to get free. For such an emergency the United States Tire Company offers some suggestions that have proved valuable.

The first calls for having stored away somewhere in the car a stack of old newspapers. When the car gets stuck and the wheels refuse to take hold, feed in some of the old papers between the tires and the mud. Usually only a few will have to be worked in before the car starts forward. This method of handling a difficult situation is so simple and so uniform successful, that every motorist should know of it and carry a pile of old newspapers, unless he is equipped with some other apparatus for such a contingency.

Here is the other method suggested by the United States Tire Company: Put the car in low, and if you cannot feed the gas with your foot evenly, so that the wheels will revolve slowly, try your emergency brake on. Do not put it on so that the wheels will not revolve at all, but tightly enough to keep them from revolving rapidly. With the wheels turning slowly, the maximum pull is delivered to them
