\$37,000 IS AMOUNT NEEDED TO COMPLETE BUILDINGS

Annual School Meeting, July 19, Will Be Asked to Vote Additional Bonds.

At the school meeting to be held on Saturday evening, July 19, the Board of Education will ask for another bond issue of \$37,000, with which to complete the school building now under way and to properly equip the same. The bonds are to run to the State of Minnesota and draw four per cent interest, plus a bonus of one quarter of one per cent added by the State Investment Board. This arrangement will give the people of the district a chance to defer the payment of this money at a low rate of interest. If, however, the bonds should fail to carry, the Board of Education will be compelled to raise this money by direct taxation. This money will not be required until next year, but the waiting list for state money is so large now that even when voted now, the money will not be available before July 1, of next year. Of the above amount, about \$22,000 are needed to let contracts for certain necessary parts of the new building which were held in abeyance at the letting of the general contract for lack of funds. About \$15,000 of the amount will be needed for equipment.

TRAGEDY OCCURS NEAR COAL CHUTE

Carl Anderson Found Dead With Throat Cut. Held To Be a Case of Suicide.

The body of Carl Anderson, tender at the Great Northern coal chute was found Monday morning lying cold in death of the public road by the corner of the high fence near the coal chute. The gruesome find was made by Ed. Patchell when on his way to his work at the Great Northern round house shortly before seven o'clock. Patchell at once notified the foreman at the round house of the discovery, and after a hurried survey was made of the place where the dead man lay, the coroner was notified, and Dr. J. C. Jacobs with Chief of Police Bergeson, went out and made an investigation.

The body was found lying on its back in the grass near the trees. There were two big cuts in the man's throat, both on the left side, and there were pools of blood on the ground. A broken razor lay on the ground some feet away, the handle in one place and the blade in another. The pockets were empty except for some small change in the trouser pocket, and a few advertising cards for a St. Paul livery stable, in the inside pocket of his coat. The two outside cards of the pack bore blurred finger prints in blood.

Anderson worked day time at the coal chute except on Sunday. He was a single man and roomed above the second hand store on Pacific Avenue. He had been seen about his usual haunts on Sunday and had spoken to several people during the course of the evening. At ten o'clock he had taken lunch at the Delmonico Cafe with F. M. Rief, the tailor. Anderson had seemed the same as usual, it is said, and no one saw anything unusual about his actions. At about 11:45 p. m. he had walked in company with Alton Sperry as far as Litchfield Avenue and Third street where they parted, Anderson going on up Litchfield Avenue in the direction of the scene of the tragedy.

On examination of his room the next morning, it was found that his bed had not been slept in during the night. There are several elements of mystery about the case and much speculation is rife as to how the man met his death, by his own hand or by that of assassins. The general belief was inclined toward the latter, but the officers who have worked on the case and who have the best opportunity to know the facts as they present themselves, are quite satisfied that it is a case of suicide. The coroner has deemed no inquest necessary.

There is one thing that has not yet been found out—what became of \$52.00 Anderson received for a check he cashed at Maloney's place Saturday evening. The finder marks on the cards in his inside coat pocket, also is a thing that lends itself to much speculation.

The full name of the deceased was Carl Eldor Anderson. He was born in Dalsland, Sweden, on the 9th day of January, 1882. His father died when Carl was a little child. His mother, who is now Mrs. O. N. Reeder, and the coroner in the Stockholm, S. D. A. sister, Mrs. Carl Baklund, lives at Watertown S. D., and another sister, Mrs. Olga Sopher, resides at Twin Brook, S. D. His brother, August Anderson, is sheriff at Bend, Oregon.

Anderson came to Willmar three or four years ago, and has worked at various jobs in and about Willmar. He was of a quiet and good natured disposition. Among his possessions at his room, was found a life insurance policy for \$1000 in favor of his sister, Olga Anderson, now Mrs. Sopher.

Nonpartisan League Picnics Held This Week. Ernest Meitzen will address Nonpartisan League meetings at Raymond tomorrow, July 10, and at Spicer, Friday, July 11. The picnic at the latter place held by special invitation from the people of Spicer, which was made and accepted at the recent meeting at New London. A year ago an employee of the League was driven out of Spicer as an undesirable citizen. The change in attitude is indicative of a general recovery from the frenzy caused by the false accusations made against the organized farmers by the press and politicians of the faction in power in the State. All reports indicate that the membership of the League in this county for this biennial period will be much stronger than it was last year.

Prof. and Mrs. Wallace H. Martin and three children are expected this week for a visit with Mr. Martin's father, J. H. Martin. They come from Rockwell, Iowa, where they visited Mrs. Martin's mother. Prof. Martin is completing the past year at the State College at State College, Pa.

HEY, FOR BIG AUTO RACES AT WILLMAR

Professional Speed Champions Will Compete At Willmar Fairgrounds, July 18.

RUTH LAW WILL DO STUNTS IN AIR

An Exciting Auto Polo Contest Will Be One Feature—Six Big Races Will Be Staged. One of Biggest Motor Track Events Ever Put On In the Northwest.

Mr. R. A. Hankinson of Kansas City, Mo., a professional promoter of racing events, closed a contract with the Willmar Commercial Club to stage a big competitive auto racing meet at the Kandiyohi County Fair grounds, on the afternoon of Friday, July 18. Mr. Hankinson wired last night to drivers in all parts of the country. He has been assured of assigning George Clark, the Detroit dirt track demon, who has two of the highest powered racing cars in America, the Blentzen and the Sun Ray Remer.

The Blentzen holds the world's straight away record on the Sheep Head's Bay track. The car was driven by the late Bob Burnham.

Other well-known drivers and cars who have been invited to participate on the Willmar track on the above date, are the following:

Car Driver: Brainerd, Jumbo Benz—Sun Ray Murrae, Peugeot Stone, Harrington, Rittenburt, Renault Jobe, Stutz, Fujikawa, Hudson Leocq, Nippon Chai, Baby U.

At most of these drivers will be heading for the circuit of Big Western Fairs at this time, the prospect of securing them at the Willmar meet is very bright indeed.

One feature of the big afternoon's program will be an exhibition game of auto polo by the British and American Auto Polo Teams. The game is known as a real thriller, and is also known as "Motor Insanity." This game will be played on the race track right below the natural amphitheatre at the park.

Mr. Hankinson also has a contract with Ruth Law, the great aviator, to come to Willmar on that day and she will do her clever stunts in the air as a part of the afternoon's performance.

Six racing events are provided for. Handsome purses are hung up for these, and twelve to fifteen entries are expected. This will make this Willmar Auto Racing event one of the largest events ever staged in the Northwest.

Mr. Hankinson visited Willmar on his way to the North Dakota State Fair and was so favorably impressed with our city that he looked up the fair grounds. After inspecting the track he got in touch with the Commercial Club officials and other citizens with the result that a race meet was scheduled for this city. No expense will be spared to have the track placed in shape for these races. The two end turns of the track will be thrown up so that fast racing will be possible.

If the weather man favors the day, Willmar will see an immense crowd. These racing events with polo game and daring aviation stunts will be far more rare than a big circus, and will draw the people from far and near.
