YOU thought to save money by buying your wall-paper without the advice of a trained decorator who understands all the intricacies which cause staining or fading, and who would be responsible for the workmanship. You may not have been as unfortunate as the gentleman above; but does not your paper look dowdy and ugly? Too bad indeed!  
You could have saved money by buying Orrell Wall-Papers  
In the first place, and having a master decorator hang them. You would not have to fear the secret snickers and ridicule of visitors.

## ALL THAT GLITTERS IS NOT SOLD!

new Spring suits arriving daily \$40 to \$60

We had a wonderful Easter business. Sold lots of suits and made lots of new friends, but don't let that keep you from expecting wonderful assortments to-day.

This is not a one-horse power concern and it takes more than one red-letter day to give our selections the blues.

We are as fresh this minute as when we entered the ring; new lots of Spring suits keep dropping in—stay only long enough to say "hello" and out they go, to be met at the door by NEW LOTS COMING IN.

No matter what you desire or what day you desire it—you'll find us with the good big, liberal, and bountiful assortments—and that goes for the furnishings and hats as well as the clothes.

## Granny's Talk to Young Mothers

"Granny" Chamberlain "Few young mothers realize the extent to which a cold lowers the system and makes it susceptible to contagious diseases. It has been proven that the majority of diseases arise from germs, but it is not widely known that a healthy system will repel their attacks.  
Mothers should never allow a cold to run for twenty-four hours without attention. If this is made a rule there will be less sickness for young mothers to worry over. A good reliable medicine for coughs, colds, croup and bronchitis should always be kept in the home where there are children. You may say that you have no confidence in cough medicines, but that is because you have never tried  
Chamberlain's Cough Remedy  
This medicine is thoroughly reliable and has stood the test of nearly half a century. No, it will not hurt the children—there is nothing in it that would even injure the baby."  
Yours for Health —Granny Chamberlain
