A HEALTHY OPPOSITION

Even the most rock-ribbed stand-patter is agreed that there must be opposition and contention in a political way in order that government may be kept responsive to the will of the people—only, they limit the number of parties to two and reserve the right to say which two may be considered as "respectable." Any group that offers real opposition to the vested special interests is denounced as dangerous and must run the gauntlet of sneers, ridicule and misrepresentation by the press that is subservient to the powers that now profit by the control of the government.

What vast benefits accrued to the people of the state by the real opposition given the old politicians by the Non-Partisan League, making it necessary for such politicians to make concessions, is apparent from the

work in the last legislature. The League has demonstrated that it can furnish the kind of opposition that will stand four-square with its promises, and we look to see more N. P. legislators in the next session.

Much Iron in Philippines.

The finest unworked iron fields in the world have been discovered in the Philippines, according to a report from government experts recently received by the United States bureau of foreign and domestic commerce, says the Washington Post. The quantities of ore adjacent to good harbors, they state, will be sufficient to assure the future iron and steel production in the United States for generations. Already land believed to contain more than 500,000,000 tons has been surveyed. Deposits on the island of Mindanao are believed to be without a rival. They contain 275,000,000 tons close to good harbors and 130,000,000 tons within easy transportation distance of Dajin bay, perhaps the best natural harbor on the islands. Only crude iron work in primitive smelters is being carried on at present.

The Defiling Hand of Man.

It is a humiliating reflection that man, when he comes in his numbers, defiles and defaces, and makes ugly more than the wild beast. One has but to find his trail on any green place. The orange peels, the dirty and torn newspapers, the old boots, the broken crockery and utensils, have power to destroy beauty and peace and banish the Spirit of Place. When he stretches out a hand over what once was countryside, how depressing are his little houses, his clinker paths, in fields where the mole delved industriously from dawn to dark, where the lark climbed a thousand winding stairs into Heaven.—Katherine Tynan in the King's Highway.

FIGURES IN POLISH HISTORY

Countess Potocka, of Obscure Birth, Became Wife of Great Nobleman of That Country.

The Countess Potocka lived obscurely in the days between the first and second partitions of Poland. She was born in 1768, and was the daughter of a Greek shoemaker at Constantinople. Her extraordinary beauty and her poverty brought her to misfortune. A French consul named Boscamp took her away from Constantinople to Poland. There she is said to have married a Russian general, and later to have divorced him.

Then she married Count Stanislaw Felix Potocka, one of the wealthiest noblemen of Europe, a Pole of great influence but slight ability, who is regarded as a traitor who did much to bring ruin to Poland. The countess lived for many years in Berlin, where her beauty created a furore in the ranks of society. She died there in 1822.

Count Potocka was the Rockefeller of Poland. He owned several castles and enormous estates, possessing in the Ukraine alone no less than 3,000,000 acres. When he became of age he married secretly a very attractive cousin. When the story of their elopement was divulged there were terrible scenes. Although he was old enough to be a husband Felix was flogged and his young wife, berated and shunned, finally threw herself into a pond to escape her persecutors.

Embarrassment.

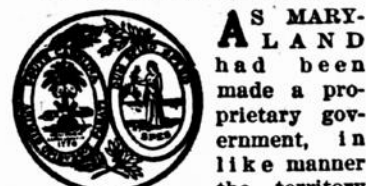

"Of course," remarked Senator Sorghum, "I was proud to have a vote so overwhelmingly in my favor. And yet it has its disadvantages."

"In what way?"

"I am compelled to feel a sense of obligation toward everybody who votes for me; and a landslide makes the number so great that I can scarcely keep up with the responsibilities."

The Story of Our States

By JONATHAN BRACE
VIII.
SOUTH CAROLINA

AS MARYLAND had been made a proprietary government, in like manner the territory extending from Virginia to Florida was granted by Charles II in 1683 to eight gentlemen as a reward for their efforts in his behalf. The name Carolina comes from the Latin, Carolus, meaning Charles. It was not really named after Charles II, but originally in honor of Charles IX, king of France, by Huguenots who built a fort near Beaufort in 1562.

The fact that the Carolinas became later two distinct colonies was due to chance. It happened that the earliest settlements located at points far removed from each other. The first permanent settlements in South Carolina were about Charleston, while those in North Carolina were around Albemarle sound. The life in the two sections also was quite different. South Carolina was largely devoted to the cultivation of rice and indigo and the planters soon grew very rich with their large estates on which the labor was performed by slaves. In fact, just before the Revolution the population showed twice as many blacks as whites.

In 1729 the government of the Carolinas was turned back by the lord proprietors to the king and there was then formed the two separate provinces. South Carolina was the eighth state to adopt the Constitution, the vote of ratification being passed in May, 1788. The Palmetto state, as South Carolina is sometimes called, extends over 30,989 square miles, and it participates in the presidential election to the extent of nine electors.

ORIGINAL COMIC SWEDISH SCHOOL

Swedish Literary Society Will Present School Room Scene

The Swedish Literary Society at its regular monthly meeting will attempt something radically at odds with any kind of a program presented in the past. This program will be in the nature of a play to be written and constructed by the program committee. A classroom in a Swedish school is the subject of the play. August Forsberg, our Postmaster, is already at work writing the play which is expected to be one continuous stream of humor. Mr. Forsberg will reproduce a class of Swedish pupils during the last day of school with the one aim to give as much merriment as possible to the audience. Those who are to have roles in the play and act as pupils will be selected from the society membership roll. Elders of both sexes will take part. Mr. Forsberg will be the strict schoolmaster. Costumes and disguises will be used and the scene made as much like a schoolroom as can be accomplished.

This amusement feature is expected to be a tickler and it is felt that a small admission fee should be charged to meet small expenses incurred in preparation for the play.

—Miss Lydia Johnson has finished her term of school in Dist. 61 and will spend the summer months at her home here.

TRIBUNE PRINTING CO.

SUNBURG

April 25—There will be communion services at the West Norway Lake church Sunday, May 1st, at 2:30 in the afternoon. Those wishing to partake of the Holy Supper must be present at 2 o'clock sharp. Owing to the illness of Rev. M. Sotendahl, the service will be conducted by Rev. N. J. Njus.

Senator P. A. Gandrud and family came home Friday. We are glad to have Mr. Gandrud and his estimable wife in our midst again.

Henry Swenson was painting the Hande house last week.

Miss Mathilda Hagen has again taken her place behind the counters at the Moen and Gandrud store.

A number of young people were entertained by the Misses Christine and Emma Vold Sunday afternoon.

Tilmer Ellingson is reported to be on the sick list with the small pox.

Bennie Dunham is working for his uncle, Jacob Moe, this spring.

Nels Peterson took two carloads of live stock to south St. Paul last week. The returns were rather disappointing.

Joseph Gordhamer's roadster was seen on our roads Sunday.

Arthur Otterness and John Evenson were fishing in Green Lake a couple days last week.

CAN'T DO THE WORK

It's too much to try to work every day against a constant, dull backache, or sudden darting pain in the small of the back. Be rid of it. Try Doan's Kidney Pills. Your neighbors recommend them. Ask your neighbor.

Mrs. N. P. Nelson, 214 Litchfield Ave., Willmar, says: "Doan's Kidney Pills did me a world of good when I was suffering from kidney complaint. My back often felt as if it would break in two and it kept me from attending to my housework. I over-worked myself and I blame that for the trouble. I was as nervous as could be and my kidneys weren't acting right. I purchased a box of Doan's Kidney Pills at Mossberg's Drug Store and used them as directed. They cured me in fine shape and I have frequently recommended Doan's Kidney Pills to those I have heard complaining of their kidneys."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Nelson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv.

Silence is golden at the movies but a good clothier's values can not wear rubber heels.

There's a time and place for everything. Last Summer it took all a merchant's time and ingenuity to get goods to sell.

This season with the supply increased it's time to get out the bunting again and strike up the band.

Everybody wants the Maxime silencer taken off the values and in every line from groceries to go-carts the stores that are letting up on the prices and letting out on the values are getting the business.

That's the platform on which every article in this Summer stock is prepared for sale.

And that's why you can look in our doorway a dozen times a day and find us comfortably crowded.

Some FACTS About

Here are authentic figures from the Ford factory at Detroit. They show you just how many Ford cars and trucks have been built each month since January 1, 1921, and how many have been sold to retail customers, in the United States.

	Produced	Delivered to Retail Customers
JANUARY	29,883	57,208
FEBRUARY	35,305	63,603
MARCH	61,886	87,221

Total Production 127,074 Total Retail Sales 208,032

showing that actual sales for the first three months of 1921 exceeded production by 80,958 Ford cars and trucks!

April requisitions already specify 107,719 additional cars and trucks and the estimated April output of the factory and assembly plants combined calls for only 90,000!

These facts clearly show that the demand for Ford products is growing much faster than manufacturing facilities to produce and were it not for the dealers' limited stocks, which are now being rapidly depleted, many more customers would have been compelled to wait for their cars. It will be only a matter of weeks, therefore, until a big surplus of orders will prevent anything like prompt deliveries.

If you would be sure of having your Ford car or truck when you want it, you should place your order now. Don't delay. Phone us or drop us a card.
