FREE CHURCH BUYS WILLMAR SEMINARY

Trustees of Seminary At Meeting Here Friday Accept Free Church Offer

A meeting of the trustees of the Willmar Seminary Corporation was held at the Kandiyohi County Bank Friday afternoon. The trustees are Joseph Estrem of Minneapolis and Rev. Vaaler, P. B. Hong, A. Struness and M. O. Thorpe of Willmar. Representatives of the Lutheran Free Church were present and presented the offer of the church for the Willmar Seminary building, site, and equipment. A vote by the trustees of the Seminary Corporation was taken and it resulted unanimously in favor of accepting the offer. The consideration involved was \$9,500.

The Willmar Seminary was founded in the year 1883 and opened its doors for instruction on October 16, 1883. On the opening day there were five instructors and five students. From that time the institution grew until its yearly average enrollment was 226 students.

The Seminary property as first purchased cost the Seminary Corporation \$4,000. The site contained a residence and barn. The residence soon became too small quarters for the classes and the present structure was erected at the cost of \$6,000.

The movement in favor of the location of a Seminary here found its inspiration in the persons of H. S. Hillman and H. Howe. Success in securing the Seminary for Willmar was only gained thru tireless efforts and reverses. The late L. O. Thorpe had always been a mainstay of the institution. Thirty-two graduating classes went out from the Willmar Seminary before it was closed and its alumni are scattered far and wide throughout this country and Canada.

The sale of the Seminary property to the Free church means that it will continue to be used for school purposes. The intention is to locate the new Bible School here and the expectations are that this will develop into an important co-educational denominational school.

PRELIMINARY CONTRACTS LET

City Council Accepts Bids For Sewers, Water-mains and House Connections

The dirt will be flying at Willmar in a few days on the preliminary work to be done with water-mains, sewers and water connections within the paving district, and on water mains to extend to the fair grounds on Park avenue in First ward, on First Street in Fourth ward and in Sperry's addition in Third ward.

The city hall was crowded with bidding contractors last Monday night. Eighteen bids were received from firms in the Twin Cities, Pipestone, Forest Lake, Albert Lea, Thief River Falls, Mankato, Litchfield, Benson and Willmar.

The bids for the sewer work ranged from \$25,200 down to \$18,800 which low bid was made by William Danforth of St. Paul, to whom the contract was awarded.

On the water main extensions the bids ranged from \$14,650 down to \$10,466, the successful bidders being Rahrer & Kraft of Pipestone.

The contract for making house connections was also let to the latter firm at the following prices: 6-8 inch corporation cocks, \$4.00; 3-4 in., \$4.25; 1 inch, \$5.20; 5-8 in lead pipe, 75c per foot; 3-4 inch, and 1 inch, 90c; 5-8 inch curb cock, \$6.00; 3-4 in., \$8.00; 1 inch, \$9.00. 6-inch sewer connection \$2.00; 6-inch sewer pipe, \$1.00; 25c reduction per foot when same trench is used for both water and sewer. Every iron pipe connection with the mains within the paving district must be changed over to lead pipe from the main to the curb, also every vacant lot must be provided with a connection, either separate or sufficient capacity be provided on pipe on adjoining lot to take care of future needs. Property owners have the option to make these connections themselves within a reasonable time, or the city will proceed to make the connection on the above mentioned bid, and the cost will be assessed to the lot. The sewer committee was instructed to canvass the district and secure the information of how many desire to make their own connection at the earliest possible date.

Both contractors will use all local labor possible, furnishing only the skilled workmen and foremen. Neither will maintain a boarding camp. The work is to be completed this fall.

In addition to all the sanitary sewer extensions to be made, adequate storm sewers will be laid on Fifth Street and Fourth Street, which will do away with the flooding of basements and provide adequate outlets for all storm water on streets and roofs. Also a storm sewer will be laid to provide a sufficient outlet for the water shed, which converges at Litchfield Ave. and Sixth Street East. After the accepting of contracts, the city council agreed that the first estimate of \$60,000 could be safely cut to \$45,000, which will be the amount of the improvement certificates to be sold on the recent bid account from Gates, Whit & Co. A large portion of this sum will be assessable to the abutting property which will be benefitted by the improvements.

SPANISH WAR VETERANS

Alderman C. J. Freeberg came back from Winona last week after attending the State convention of Spanish War Veterans, full of enthusiasm over the wonderful scenery along the auto trail down the Mississippi and over the hospitality of the city of Winona. Lack of space prevents us from giving the many interesting facts he has told us. An attempt was made to pass a request for a federal bonus, but the convention turned it down, the prevailing sentiment being that they "would not ask the Government to fix a price on their patriotism in 1898." All pictures and material of historic value of the Spanish-American War and the Philippine and Boxer uprisings are requested to be sent to the Minnesota War Record Committee at St. Paul.

BAD HOLD-UP ON ORTONVILLE LINE

Head Baggage Passenger Ordered Off Moving Train Killed. Another May Die

A horrible crime was committed on a freight train at Correll near Appleton yesterday morning. The following is an account of the holdup as given in the Pioneer Press today:

Ortonville, Minn., Aug. 2.—A man thought to be Charles Oberg, 45 years old of Ortonville or Red Wing was killed and a companion, Russell Hanson, 19 years old of Montevideo, is in precarious condition in a hospital at Appleton with one leg off and suffering from bruises, after being forced with three companions to jump from a St. Paul road freight train by three men three miles east of Correll, in this county at 2 A. M. today.

Oberg, Hanson and three companions, boarded through coast freight train No. 263, at Montevideo this morning, and three other men got into the same box car at Appleton. Two of these men were armed with pistols. The three held the five up and then forced them to jump from the rapidly moving train. Oberg was killed by the fall and his body mutilated. Hanson fell under the wheels of the cars and his leg was severed, besides suffering numerous bruises. His recovery is doubtful tonight, according to hospital attendants. Their three companions were knocked unconscious and remained in that condition until 5 A. M. when they notified the St. Paul county authorities, who informed the Big Stone county officials. The names of the three with Oberg and Hanson are F. J. Brabec, 16, Montevideo; Bertal Henley, 16, Montevideo, and H. N. Richardson, 22, of Howard Lake. Mrs. August Olander

Last Thursday morning the friends and neighbors of Mrs. Mary Olander were shocked to hear of her sudden death which occurred on Wednesday night, July 27, 1921, from heart trouble. She had been in failing health for the past half year, much of the time confined to her bed, but her death was sudden. She was 62 years of age and was apparently getting stronger. On Wednesday afternoon she had gone to the home of her daughter, Mrs. Euseki Soderlund at 724 6th St. W. for a visit but her stay was not long. About ten o'clock there was a sudden change, and in ten minutes her spirit had fled.

Mary Fredericka Bergeson was born at New London, Minn., on June 24, 1871. In this community she was reared. She was baptized, confirmed and married in the folds of the Lebanon Lutheran church. She was a member and active worker for it until her strength failed her.

In the year 1892 she became the wife of August Olander who preceded her in death five years ago, at Willmar where they moved in 1915. Since that time she has been a resident of this city except for a short while when they lived at Spicer.

Mrs. Olander was loved by all who knew her and her sudden departure from the midst of her friends and especially the family circle is keenly felt.

The bereaved children are Adolph of Bemidji; Edith, Mrs. Soderlund; Agnes, Esther and Meroy at home. The departed is also mourned by four brothers: John, Peter and Alfred of Willmar and Frank of New London, and one sister, Mrs. S. M. Carlson of Sioux Falls, S. D. There are also two grand children, many other relatives and a large circle of friends who mourn her early demise.

The funeral was held Sunday afternoon at the home, 146 Becker Ave. E. Rev. Jesper Holmquist conducting a short service. Samuel Nelson and Mrs. Alma Knock sang each an appropriate song. About twenty cars made up the cortege that went to New London where the funeral services were held at the Lebanon church shortly after three o'clock. The church was filled to capacity with old time neighbors and friends. Rev. A. F. Palmer preached in Swedish from Revelations 1:21 and Rev. Holmquist used English, taking his text from Philippians 1:21. Eben Larson and Mrs. Knock sang a duet at the church. There were a great many flowers in pieces and sprays.

Interment was made in the family lot by the church.

The pall bearers were the four brothers of the deceased, and two brothers-in-law, Henning Olander and Edwin Bengtson.

It is believed that these were the same hold-up artists who held up four or five men in a box car last Sunday morning but failed to get any money.

FOOD PRODUCTION IN DANGER, IS WARNING

Inadequate Credit, Unfair Deflation, High Freight Declared Ruining Farmers

St. Paul, Aug. 1.—Congress must act immediately to give farmers relief from high freight rates, inadequate credit, foreign competition and inefficient marketing if it expects to restore nationwide prosperity. That is the warning sent to Washington today by the Minnesota Farm Bureau federation. It accompanied a detailed summary of the agricultural problems of the state, supported by evidence of specific injuries suffered by the producers as a result of present economic conditions.

Taxation—The farmers of Minnesota are virtually unanimous in opposition to the enactment of a general sales tax, a tax on land holding, and repeal of the excess profits tax.

"Commerce and industry are so dependent on the farmers normal purchasing power," the statement said, "that restoration of that purchasing power is absolutely essential to bring to the enactment of a general sales tax, a tax on land holding, and repeal of the excess profits tax."
