The Key that Unlocks the Door to Long Living. The men of eighty-five and ninety years of age are not the rotund, well-fed, but thin, spare men, who live on a slender diet. Be as careful as he will, however, a man past middle age will occasionally eat too much or of some article of food not suited to his constitution, causing indigestion or constipation and will need a dose of Chamberlain's Tablets to move his bowels and invigorate his stomach. When this is done, there is no reason why the average man should not live to a ripe old age.—Adv. Sept.

Cash on hand at end of year, \$ 40681. A large number of our schools began last week, and nearly all of the remaining ones opened up Monday, Sept. 12th. Prospects are good for another successful school year.

The Willmar high school is again offering a splendid course of one year, normal training course. At the end of the year, with the completion of this course, a first grade certificate is granted, which makes the holder eligible to teach in any rural and semi-graded school. It would be well for all who intend to teach to take this course.

Our schools are showing marked advancement in efficiency. The past year, without any doubt, being the most successful year in the history of the county. New and practical things are introduced each year, which is necessary to keep abreast of the rapidly advancing times. The best of harmony prevailed among teachers, principals, county and city superintendents, all working together in a common cause, for the good of our schools.

The county superintendent made two hundred and fifty-five school visits in the county the past school year, besides a vast amount of work in the office which increases every year. According to the records of the office, this is the largest number of visits made by the county superintendent in any one year in the history of Kandiyohi County. Close supervision of the schools is necessary for the advancement of efficient work.

A Pronounced Success

The uniform success that has attended the use of Chamberlain's Colic and Diarrhoea Remedy in the relief and cure of bowel complaints, both for children and adults, has brought it into almost universal use, so that it is practically without a rival, and as everyone who has used it knows, it is without an equal.—Adv. Sept.

Mr. Farmer!

If you intend to erect a Silo during the next three years, get in touch with the Pan American Co. of Willmar and Minneapolis, Minn., at once and get one of the one hundred Playford Cement Stave Silos that will cost you absolutely nothing, but the freight and erection charges.

REMEMBER:—Only 100 Silos will be disposed of in this manner in each County. Therefore, if you want one of the One Hundred Silos, the sooner you get busy, the more likely you are to get one of them.

This proposition ought to receive your immediate attention if you have any intention of building a silo within the next three years. If you have no such intention the sooner you get it, the better for yourself and the community in which you live.
