This sale includes everything in our store, at drastic reductions. We urge you come and take advantage of this opportunity, and also by the way, bring your neighbor.

**Sale Continues Until Saturday, November 26, 1921**

**Weum-Elkjer Co.**  
MEN'S AND BOYS' OUTFITTERS

**LOCAL AND PERSONAL**

Big reduction in hats. Sale starts Nov. 22. Hats for sale at \$3. Mrs. Emma Berkness millinery store.

Mrs. I. Ruben left for the cities today to visit with friends for a few days.

Mrs. H. B. Carlston left Tuesday for Sioux City to visit her husband's parents, Mr. and Mrs. S. Carlston.

I. Ruben, manager of the Manufacturers Outlet store, celebrated his 36th birthday Tuesday.

A. M. Anderson of New London visited with friends in this city Tuesday.

Mrs. H. R. Peterson of Granite Falls arrived Tuesday to attend the wedding of Miss Ruth Norman and Paul Peterson.

Pat Downs and Ralph Hamilton of Atwater made a trip to this city Tuesday, the former coming here to consult a physician.

Moses Pelkey of DeGraff returned home Tuesday after a couple of weeks visit here with his sons, Joseph and Peter Pelkey.

Mr. and Mrs. Clifford Norman returned home Tuesday from Maynard where they had attended the funeral of the former's father.

Mr. and Mrs. Russel Soderling have returned to Wahpeton, N. D., after a few days visit with the former's mother, Mrs. Christine Soderling.

Over a quarter of a million well-known men and women from different parts of the country have written endorsements for Taniac-Carlson Bros. drug store.

John Thorstad and son Rueben of Genova, N. D., motored here Wednesday. The latter will be employed in the Peoples meat market of this city.

Raymond Anderson of Kenmare, N. D., arrived Tuesday to visit his uncle, Albert Anderson at Atwater for a day. He was enroute to other cities to attend school.

Robert Johnson and George Norquist of St. Paul arrived here for a few days hunting trip. While here they stayed with Wm. Johnson and George Gallford at their camp at Lake Elizabeth. They returned with a large number of ducks.

MARRIAGE LICENSE  
Nov. 14—Miss Mabel S. Thompson to Oliver Gjerd.

Nov. 15—Miss Anna R. Olson to John L. Teigland.

Nov. 16—Ruth Norman to Paul Peterson.

THE NEW IDEAL  
With dad and me it's half and half. The cow I own was once his calf. I'm going to stick right where I am. Because my father was once his lamb. I'll stay with dad—he gets my vote. Because his pig became my pork. No town for me—I'll stick right here. For he's made me tractor engineer. "It's even split" with dad and me in a profit-sharing company. We work together from day to day—Believe me, boys, it's the only way.

A TUBERCULAR COW AND HER VICTIMS  
While you are agitating the subject of milk for young and old, we should also remember the dangers of milk from tubercular cows and make sure that the cows are healthy. The Knox County, Illinois, Farm Bureau Bulletin shows a forlorn picture of a tubercular cow and her victims of five children in one family affected with tuberculosis. This bulletin says in explanation:

"The owner of this cow claimed she did not have tuberculosis, because she was in good flesh and appeared to be healthy, even though she was tuberculin tested, tagged as a reactor and placed in quarantine. The cow was given to a farm hand in lieu of some money. The only two children in the family of seven who did not contract the disease were the eldest, who never drinks milk, and the six months old baby who has never been given any cow's milk. A pig and cat which had been fed on milk from this cow also showed lesions of the disease. The cow was killed and proved to have generalized tuberculosis. A warrant was issued for the arrest of the owner and a heavy fine levied as a penalty for the offense.

"Under the care of the County Anti-Tuberculosis Society all the children are improving, altho one girl is seriously affected with curvature of the spine and one boy has open sores on the top of his head and on his body."

—Wallace's Farmer.

WHEN CAN CORN BE USED PROFITABLY FOR FUEL?  
The advisability of burning corn for fuel depends upon so many things that no hard and fast rule can be laid down to meet conditions in all localities. In Iowa, where large quantities of coal are mined and can be delivered without long hauls, state college investigators say that nothing is to be gained by burning corn for fuel.

But Prof. E. A. Stewart, of the agricultural physics sections of the University of Minnesota, believes that with the price of corn at 25 cents and less a bushel, and when it requires from 70 to 80 pounds of corn on the cob to make a bushel, some farmers can better afford to burn their corn than to market it.

"When corn is used for burning," he says, "it gives between 5,600 and 6,000 British thermal units of heat a pound, while coal gives 10,000 to 13,000 B.T.U. for each pound. According to that it would require two tons of corn on the cob to give as much heat as one ton of coal. Coal prices now range from one half to one cent a pound. Corn at one fourth cent a pound might be profitably used for fuel.

Corn, however, Professor Stewart emphasizes, has some speculative value which may be higher than 20 cents a bushel, whereas coal has none. If corn must be sold because of lack of storage capacity or lack of funds, and coal must be bought, it is better to burn the corn, with its price at 25 cents a bushel or less, than coal at the prevailing prices of coal, he says. The cost of hauling the corn to town and taking the coal back must be considered, he explains, in deciding what to do.

"The man who has wood to cut should never burn corn," Professor Stewart says. "Labor on the farm is too cheap to make this profitable."

**DR. UHLER ONE OF LEADING EDUCATORS OF NORTHWEST**

Dr. J. P. Uhler is serving his fourth year as professor of physics and applied mathematics at Gustavus Adolphus College, St. Peter, Minn. He has had the unique experience of seeing his students graduate from college and go out to rule over him as

DR. J. P. UHLER

his pastor, state superintendent of instruction, district judge, governor, and president of the board that employs him. For many years he has been vice president of Gustavus Adolphus College, and spends his summers lecturing at the state university. He has had very flattering offers from the board of trustees of that university, but has preferred to remain as professor in a Lutheran church college. He is of sturdy Pennsylvania Dutch stock, a graduate of Lafayette college, Easton, Pa., and is an ordained minister in the Lutheran Church. For many years he has been one of the leading educators of the Northwest. It is largely his effort, coupled with that of a corps of teachers who have served nearly as many years, that has made Gustavus Adolphus College a great force in the history of the Northwest.

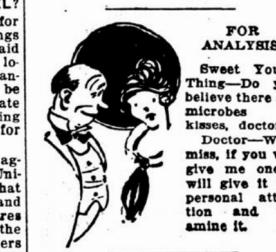

**Hon. Henry N. Benson is Head of Pension Fund Committee**

Sen. Henry N. Benson, St. Peter, Minn., one of the leading laymen of the Minnesota Conference and the Lutheran Augustana Synod of which

SENATOR HENRY N. BENSON

the conference is a part, is president of the laymen's pension fund committee which has recently raised a fund of \$500,000 in the Augustana Synod to increase the pension for retired pastors. Senator Benson is a graduate of Gustavus Adolphus College of the class of 1893, and since 1902 has been a member of the board of directors of that college, and for several years has been its president. He is serving his third term as state senator in Minnesota and recently has been mentioned as a candidate for Congress in the third district.

**FOR ANALYSIS.**

Sweet Young Thing—Do you believe there are microbes in kisses, doctor? Doctor—Well, miss, if you will give me one I will give it my personal attention and examine it.

**LUCKY.**

"It has been my experience that at every public dinner there's always one speaker who bores everybody."  
"My! How lucky you've been."

**FROM THE DOPE**

Superintendent: That new letter carrier should make a good baseball pitcher.  
Assistant: Why?  
Superintendent: He's here with the delivery, all right.

**BABCOCK STARTS WINTER PROGRAM**

Minnesota's Own Movement For "More Work—Better Roads" Is Successful.

**MAY TAKE \$4,500,000**

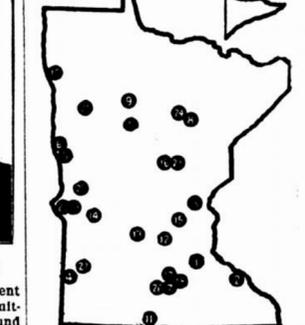

Call Made for Bids on First List of 27 Projects in Plans to Cut Idleness and Hasten Needed Road Building.

St. Paul—Minnesota's winter program of highway work to relieve unemployment and speed needed highway improvements was started in earnest this week by Charles M. Babcock, state highway commissioner, with a call for bids on a single paving project and 26 gravel-surfacing jobs, covering 300 miles on the trunk route system. Other lists will be advertised soon, the commissioner said, and will include much grading and bridge work. The tentative plan is to use about \$4,500,000 this winter for the dual purpose of reducing idleness and building up the trunk highway system.

Commissioner Babcock acted immediately after congress voted the necessary federal highway aid—a total of \$75,000,000 of which Minnesota will receive \$2,130,000. The plans are designed both to employ the largest possible number of men and teams and to effect wide distribution of the projects that many localities may share the benefits in proportion to their needs. A few proposals were abandoned as not adapted to winter operations. The first list of special work includes a number of jobs which would have been put on the regular 1921 schedules had the federal aid been voted earlier, according to highway officials. A movement is on foot now to secure a federal appropriation of \$100,000,000 annually during the next five years to avoid future delays and unnecessary suspension of highway operations.

John H. Mullen, assistant commissioner and chief highway engineer, after consultations with construction and division engineers on availability of materials, adaptability to winter operations and other phases of proposed work, gave out the first list.

Except the paving of the 25-mile section of Trunk Highway No. 1 between Northfield and Westcott, estimated at \$800,000, all are gravel-surfacing jobs. The map is an index showing locations of the various projects according to the bold-face numerals preceding the trunk highway numbers:

1. T. H. No. 1—Northfield and Westcott, 25 miles of paving estimated at \$800,000.
  2. T. H. No. 2—Lake City and Wahpeton, 8 miles of gravel-surfacing at \$30,000.
  3. T. H. No. 3—Cambridge and Brainerd, 12 miles at \$12,750.
  4. T. H. No. 4—Lake Benton and Ivanhoe, 15 miles at \$40,000.
  5. T. H. No. 5—Breckenridge and Brushvale, 6.5 miles at \$32,500.
  6. T. H. No. 6—Brushvale northward, 10 miles at \$20,250.
  7. T. H. No. 7—Mankato and Madison Lake, 8 miles at \$55,000.
  8. T. H. No. 8—Swan River and Blackberry, 11.8 miles at \$60,750.
  9. T. H. No. 9—Bentley east and west, 13.5 miles at \$40,000.
  10. T. H. No. 10—East Grand Forks and Fisher, 15 miles at \$60,000.
  11. T. H. No. 11—Fairmont and Gucken, 10.3 miles at \$41,750.
  12. T. H. No. 12—Hutchinson and Atwater, 12 miles at \$27,250.
  13. T. H. No. 13—Hancock and Clonark, 9 miles at \$30,000.
  14. T. H. No. 14—Elk River and Zimmerman, 9.3 miles at \$23,500.
  15. T. H. No. 15—Haines and Nichols, 4 miles at \$12,000.
  16. T. H. No. 16—LeSueur Center and Cleveland, 11 miles at \$17,500.
  17. T. H. No. 17—Cleveland and St. Henry, 5 miles at \$14,500.
  18. T. H. No. 18—Through Johnson, 4 miles at \$15,000.
  19. T. H. No. 19—Ely and Waubun, 18 miles at \$75,000.
  20. T. H. No. 20—Park Rapids through Akeley, 22 miles at \$54,000.
  21. T. H. No. 21—Mills Lake and Bennettsville, 8 miles at \$24,000.
  22. T. H. No. 22—Grand Rapids and Pokegama Lake, 7 1/2 miles at \$22,500.
  23. T. H. No. 23—Elbow Lake and Herman, 12 miles at \$18,000.
  24. T. H. No. 24—Mankato and Madison Lake, 4 miles at \$17,500.
  25. T. H. No. 25—Marshall and Taunton, 17 miles at \$53,000.
- The mileage totals 299 miles and the cost estimated \$1,687,000. The bids are to be opened Nov. 29 and 30 in the old state capitol building in St. Paul.

**Creditor Kills Minnesota Farmer.**

Glencoe, Minn.—Constance Brader, a farmer, was shot and killed by Gabriel Ferster, a farm laborer, at the Cayott farm. Ferster, who voluntarily gave himself up to the authorities, claimed that Brader owed him \$1,600, which he refused to pay. Ferster, it is said, met Brader at the Cayott place and asked for the money, which Ferster says was due him for labor and money loaned. Brader gave an adverse answer, and Ferster shot him three times.
