**W. C. T. U. NOTES**  
Physicians recognize the tobacco habit as a disease.—No-Tobacco Journal.

Scientific research has proven that many diseases can be and often are caused by the use of tobacco.—No-Tobacco Journal.

The use of opium by an American is disgraceful. Narcotine, very similar to nicotine, is the active principle of opium.—No-Tobacco Journal.

Tobacco has not a single virtue to commend it, but is vicious in every way.—No-Tobacco Journal.

Cigaret smokers and tobacco users are in demand nowhere. Who ever read a want ad. that read, "a tobacco user preferred?"

Be a bit of sunshine.  
Work a little, sing a little,  
Whistle and be gay;  
Read a little, play a little,  
Busy every day.  
Talk a little, laugh a little,  
Don't forget to pray;  
Be a bit of merry sunshine  
All the blessed way.

**PRISONERS OF LOVE**  
Betty Compton's performance as "Rose" in George Loane Pucker's "The Miracle Man," fairly electrified the motion picture public of two continents. She was literally hurried into stardom through the insistent demand of thousands of fans and hundreds of exhibitors who clamored for a picture that would give her amazing beauty and remarkable talents full sway. Miss Compton, after considering the offers of several large producing units, decided that her interests would be best conserved if she organized her own company to the most intimate details of which she could give her personal attention. She engaged the entire staff that had served Mr. Pucker when he produced "The Miracle Man" and formed "Betty Compton Productions." The American public has awaited Betty Compton's appearance with an eagerness that has amount of impatience unsolicited publicity in the form of hundreds of reviews in the country's most influential newspapers and periodicals, is an indication of the tremendous reception that awaits her first starring vehicle, "Prisoners of Love," to be shown at Dreamland theater Friday and Saturday, Nov. 25 and 26.—Adv.

### PRISONERS OF LOVE

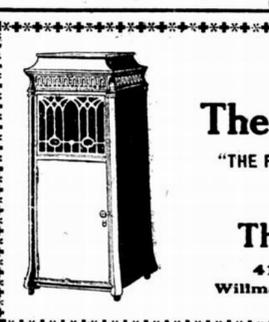

**A Timely Suggestion**  
This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is almost certain to be needed before the winter is over and results are much more prompt and satisfactory when it is kept at hand and given as soon as the first indication of a cold appears and before it has become settled in the system. There is no danger in giving it to children as it contains no opium or other harmful drug.—Adv.
