THE PASSING OF THE GOOSEQUILL

It is said that the Aztecs of Mexico were accustomed to use a goosequill of gold dust as a form of money. While present-day currency is far more convenient, even this is little used because of the still greater superiority of bank checks. You have a Checking Account, haven't you? If not, there's a check-book waiting for you here at this bank. Come in and open your account today!
