The Pneumonia Month

March is a typical pneumonia month and usually gives a high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every cold, no matter how slight, is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ laden mucus and not only cures a cold but prevents its resulting in pneumonia. It is pleasant to take. Children take it willingly.—Adv. Mar.

STATE DIVIDES BIG HIGHWAY AID FUND

Kandiyohi County Allotted More Than It Paid In Taxes

Kandiyohi county receives \$22,000 from the new state road aid fund as apportioned by the board composed of Henry Rines, state treasurer, R. P. Chase, state auditor, and Charles M. Babcock, state highway commissioner, according to an announcement this week. It is one of 83 out of the 86 counties allotted more than it paid into the aid fund.

Auditor Chase pointed out that the minimum to a county is 32 per cent greater than last years apportionment with no increase in the tax rate, and as a result the counties will receive hundreds of thousands of dollars more than last year. "It is a striking illustration of the well known fact that the average county will receive more from the state than it pays in direct taxes," he added.

State road aid represents the proceeds of a general 1-mill tax levy under the Bob Dunn amendment to the constitution by which the counties of high assessed valuations contribute toward the improvement and upkeep of local roads in counties of smaller valuations. The fund just divided totals \$2,200,000, compared with \$1,657,000 a year ago after \$184,200 was deducted for administration. No such deduction was made this year.

Eighty-three counties are allotted \$22,000 or more each, against the minimum of \$16,578 last year. All of these gain by operation of the law. Hennepin, Ramsey, and St. Louis counties receive \$66,000 each. This is comparable to \$40,000 each last year and the first maximums voted under the law.

The money is for the improvement and upkeep of the most important roads in each county other than the so-called Babcock roads on which only truck highway funds can be used. It forms a part of the grand total of more than \$20,000,000 to be expended this year by counties and townships of the local roads in Minnesota.
