THE CLEVELAND ROADSTER

"Altho the new Cleveland Six Roadster is pre-eminently the young people's car, it is fast building up a large following among salesmen and managers of public service corporations," say Jolly-Baker Motor Car Co., local distributors for the Light Six. "The duties of these men are such that it is necessary for them to travel long distances by motor car often carrying cumbersome baggage, consequently the unusually large storage capacity of this model appeals to them."

"To appreciate the space that is available in the storage compartment of the Cleveland Roadster we will mention local leather goods salesman who was able to conceal in the storage section of this Roadster, all the different samples of luggage in sight. Unlike other cars in its class, the Cleveland Six Roadster's luggage compartment is accessible not only from the rear door, but also thru an opening guarded by a lock, directly back of the driver's seat."
