Same Old Story But a Good One

Mrs. Mahala Burns, Savannah, Mo., relates an experience, the like of which has happened in almost every neighborhood in this country, and has been told and related by thousands of others, as follows: "I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux (dysentery). I had another attack of the same complaint three or four years ago and a few doses of this remedy cured me. I have recommended it to dozens of people since I first used it and shall continue to do so for I know it is a quick and positive cure for bowel troubles."

THE LONG WAY ROUND

One of the strangest ailments was used some years ago by a firm of umbrella makers and repairers. It ran:

"Has any unspounded calamity tended to debilitate its nerves or paralyze its muscularia? Is it afflicted with a damaged orerated attachment or a ruptured convergentum?"

"Has any visitation of paralysis arrested or destroyed the facile action of the motive power? Is the 'tippeous' extension of the epidormis unimpaired in its attachment?"

"Is the pedaneous extremity intact, or has prolonged attrition against ter-rificous substances reduced it to a state of stumpeous deformity? Is the digital apparatus without a flaw or fracture?"

"Is the occlude and expansion action uninterrupted? Is the octahengenous ossioulity isometrically augmented? Is its centrifugal rotundity undetermined by depression, semi-collapse or protrusion? Is its polyhedral conformation correct, and its circumambient proportions adequate for personal conservation? Are its mineralogical, vegetable and animal elements still in combination?"

The whole, of course, boiled down, brings us to the simple question: "Does your umbrella require repairing?"—Answers.

—Mrs. Henry Ellingson returned on Saturday from a two weeks visit at Raymond.
