STREET LIGHTING TO BE DISCUSSED

Public Meeting Thursday (Tomorrow) Evening at the Masonic Building

A public meeting has been called by the Willmar Commercial Club at their club rooms in the Masonic Building to open at eight o'clock Thursday evening for the purpose of discussing the merits of different kinds of ornamental light fixtures and arrangement of lighting posts. This will enable all interested to get a fair idea of all sides of this question which has more phases to it than one who is not posted has any idea of. To get the best for our money at the least cost of maintenance is the great desideratum. The cost of maintenance is the great item on street lighting, and the discussion tomorrow night will be by men who are well posted on the subject.

New Press Operates Like A Human Being

Have you ever watched a printer at a job press? If so, you have seen him patiently insert thousands of sheets, one at a time, into the press, and take them out when printed, one at a time. You pitied him perhaps. He deserved your sympathy.

Some inventor also had a soft spot in his heart and as a result put a press on the market which is an automatic feeder and a Chandler & Price press. The feeder is manufactured by the Miller Saw-Trimmer Company of Pittsburgh, Pa. Their representative, P. E. Keenan, an expert, erected the press and it is now running perfectly.

This automatic press has parts which act like human hands. They do better than human hands. They cannot make a mistake as machinery well regulated cannot be surpassed by the human hand.

MAIL DOOR SLOTS NOW REQUIRED

Mail Delivery Will Be Discontinued Unless Slot or Box Is Provided

Postmaster Forsberg has received notice from the First Assistant Postmaster General that mail door slots or mail boxes must be provided where delivery of mail is made. The notice says in part:

"On account of the delays caused to carriers at dwelling houses where no door-slot or mail receptacle is provided, and the fact that a large majority of dwellings are thus equipped already, it seems timely within a reasonable period, to require all who are to receive mail by street carriers at their dwellings to provide such accommodations; the expense of the same being small. Postmasters are therefore thus instructed. The length of notice should not exceed four months, although there may be exceptional cases where postmasters should use reasonable discretion or ask for instructions."

"It is not the department's desire, of course, that any shall be deprived of delivery by this requirement, but rather it is earnestly hoped that all will see the reasonableness of it and its advantage to themselves as well as to the carriers. But if it finally becomes necessary mail delivery will be discontinued where no door-slots (preferably) or mail receptacles are provided."

Willmar is well equipped, however, about 96 per cent of the patrons having installed either a door slot or receptacle for the mail man at their homes. It is for the remaining two per cent to fall in line within the time limit or have to go to the postoffice for their mail.

The bullet hit Wallace in the mouth, passed under his tongue and lodged in the back of his neck. STRIKERS AIDED BY BASEBALL GAME RECEIPTS

\$112.60 Added to Strike Fund From Proceeds of Sunday's Baseball Game

Altho a strenuous ticket selling campaign was carried on during last week 862 of the 2000 printed tickets were sold in the city for the baseball game played last Sunday between the Willmar baseball team and a team made up of members of the St. Paul striking shopmen. The strikers had expected to sell every ticket and indications on the first day were bright that the entire lot would be disposed of. The total proceeds from the tickets were \$431.00.

From Rasmuson & Thunstedt, on sale of pop and cushions the strikers received half of the profits, amounting to \$22.20. This made a total of \$453.20 as the receipts.

The Willmar baseball team management cut down their charge as liberally as possible, the statement of expenses amounting to \$148. The expenses of the St. Paul team were \$80. The net balance left was \$225.00. This sum was equally divided between the Willmar and the St. Paul striking shopmen. Each received \$112.60.

The strikers are indebted to the public for their support thus given. There was some disappointment as to the sale of tickets as it was expected that at least over a half of the tickets would be sold.
