Taking Desperate Chances  
It is true that many contract severe colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding attack and paves the way for the more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cures of bad colds may be had for a trifle?—Adv. Dec

Double Examination  
Double Protection

State Banks that are members of the Federal Reserve System are the only banks subject to both the Federal and State examinations. We believe this double examination is a feature of value to our depositors, and we willingly pay the extra cost for the sake of the additional protection it affords. We welcome large or small accounts, with the assurance of courteous treatment.

# We Are Satisfied

That the motorists of Willmar have found that our claims for our newest product, Solite Gasoline, are conservative.

## SOLITE

(REG. U.S. PAT. OFF.)

### A PERFECT

# GASOLINE

is a light gasoline made to exact specifications to meet the needs of those motorists who want instant response from their engine and who are willing to forego extreme economy to get it.

This confirms the claims that we have always made for gasoline manufactured by the Burton Process.

Solite, The Perfect Gasoline, is such a product.

Because every step in its manufacture is under positive control we can guarantee its absolute uniformity as to range of boiling point fractions, volatility, cleanliness and sweetness.

You who use Solite may be certain that every charge is delivering full power and that this power is so distributed as to drive the piston through the full stroke.

For a light gasoline it is economical, but in this particular it is not as efficient as its companion, our famous Red Crown Gasoline. This product is the last word in economical efficiency and our sale sheet shows that those who have been using Red Crown are continuing to use it.

Solite is clean and sweet. It will not corrode your needle valves. Solite burns evenly and clean, driving the piston the full stroke **under power**. Solite is made by the most modern methods approved by science, the famous Burton Process being employed in its manufacture.

It is acknowledged by a high authority in the automotive field that motor fuels obtained by the "cracking" process are distinctly superior to straight run gasolines for use in the modern automobile engine. One of the distinct advantages such a product as Solite enjoys is its freedom from a tendency to detonate, which results in the nerve-disturbing knock which is so annoying to the average motorist.

Solite, The Perfect Gasoline, is for those who want something lighter — and for them Solite is the best gas they can buy.
