GENERAL E. BURD GRUBB, United States Minister to Spain, is expected in New Jersey the latter part of this month, and will settle down for the summer at his country seat at Edgewater-on-the-Delaware.

MARK TWAIN is in Rome, and the catacombs' dread echoes will ring with his iron shod heels in his search for those merry old jokes wherewith he has regaled his readers in these latter days.

THE French Chamber of Deputies has adopted a proposal giving to women the right to vote in elections for members of the Conseils des prud'hommes. A motion making women eligible members of the conseils was rejected.

THE British Museum originated with a grant of parliament in 1753 of \$20,000 to the daughter of Sir Hans Sloane, in payment for his fine library and vast collection of the productions of nature and art. To this collection was added Cottonian, Harleyan and other collections.

M. DIEBLER, the executioner, of France, has expressed the official opinion that the murderers whom he executes now-a-days are a much more elevated class intellectually than those on whom he practiced at the beginning of his career.

THE senate of Massachusetts having killed a resolution in favor of closing the world's fair on Sunday, the truly good people of the Bay State will endeavor to have the action reconsidered, regardless of the fact that Illinois is a good way West for the Massachusetts legislature to run things.

THE intercontinental railroad, from Hudson's bay to the straits of Magellan, is now pronounced by the engineers entirely feasible, with difficulties less numerous than imagined. As yet, however, there are no eager inquiries from investors desirous of owning its securities.

THE sporting season has opened with a rush that promises exceedingly well. It is to be hoped that it will not be marked by the bitter hostilities and open ruptures that disgraced it last year. Amateur or professional athletics must decline when it comes to be believed that underhand work is a necessary accompaniment.

COUNT LOGHETTI, the gentleman who was rejected by Miss Fleischmann, the Cincinnati heiress, because he would not become an American citizen, is going to start an insect powder factory. The next time the count goes a-courting there will be no flies on him.

THE prospect that the Chinese government may exclude Americans from the Flowery Kingdom is making a good many merchants uneasy. But the adulterated tea we have of late years obtained from China is almost as bad as the coolies and might be parted with without serious detriment.

A CURIOUS question of law has arisen in Philadelphia where a lady left \$1,000 in her will for the care and maintenance of her pet cat during its life. Soon after her own death the feline brought into this world of bot-jacks, stovewood and sorrow five young kittens and then died, leaving them motherless. Other heirs proposed to drown the kittens, but a few benevolent old ladies interfered, and now the question whether kittens can inherit is in the courts.

DR. SABLE, the Parisian surgeon who became famous sixteen years ago by extracting a fork from a man's stomach, is a jolly, florid-faced old gentleman, who ranks among the first of his profession in France. It is a fact of interest that the "Man of the Forks," as he became known to celebrity in ballads and comic songs, is still living at Dijon, where he is a contractor for house-painting and an individual of fine stalwart physique.

A DEPUTATION of unemployed workmen waited upon the Minister of Public Works at Adelaide, South Australia, and secured from him a promise that the government would expedite the construction of public works, so as to afford labor for those who are out of work. In Melbourne the Government Labor Bureau has found work for fifteen hundred men who were out of employment, but there are still eighteen hundred men who have no work to do.

AROUND THE GLOBE.

The More Important Foreign and Domestic Events Arranged for Rapid Reading.

WASHINGTON.

A WITNESS makes an important admission in the Raum investigation.

The senate without an investigation, removes a clerk, a Pennsylvania newspaper man because he was suspected of revealing executive session secrets.
An amendment to the consular diplomatic appropriation bill was reported from the senate foreign relations committee providing for a minister to Denmark at a salary of \$7,500. The basis for this amendment is a cablegram from the consul general at Copenhagen to the secretary of state saying that the abandonment of the Danish mission may imperil Denmark's attitude towards the World's Fair.

PERSONAL MENTION.

CHARLES ROSS, the long missing is reported found in Missouri.
DR. FROUDE succeeds the late Dr. Freeman as professor of history at Oxford University.
One of the most successful artists in Paris today is Douglas Tilden, California's debut sculptor.
HON. JOHN K. PORTER, senior counsel for the people in the trial of Garfield's assassin, Guiteau, and for the defense in the Becher trial, died at Waterford, N. Y.
THOMAS J. HERENDOX, sixty-one years old, a veteran actor, is insane in New York. He has been an actor nearly forty years, and in the country was considered almost a rival of Joseph Jefferson as Rip Van Winkle.
CYRUS W. FRIED JR., of New York, is to be given a place in the foreign service. He may be sent abroad to fill one of the several vacancies existing in the consular service, and it is not improbable that a secretaryship of legation may be tendered to him.

The Passaic Chemical works at Newark, N. J., was destroyed by fire to the extent of \$50,000. Owing to the heavy fumes of the chemical the firemen had difficulty in fighting the fire. About twenty firemen were overcome by the fumes.
SIXTY the recent big fire at New Orleans, when five cotton presses and five squares of the residence part of the city were burned, it was said that it was the work of incendiaries. An investigation instituted by the insurance companies has developed that the fire caught from the sparks from a passing switch engine. The loss is now placed at \$1,500,000 on the cotton, and that in the residence part of the city at \$75,000.
Two couples from the country came to Louisville, recently and were married. In the evening they went to the Louisville hotel and took adjoining rooms. Nothing was heard from them until the morning, when a bellboy smelled gas and breaking in the door found two gas jets in one room on full force and one in the other and all four unconscious. They were revived with difficulty, and one of them, a lady, is not yet out of danger.
The residence of James Hawley at Midway, W. Va., caught on fire and was burned. Mr. Hawley, his wife and sister-in-law, who were in the top story, escaped through a window. Joseph Linton, aged 10 years, an adopted son of Hawley, was sleeping in the attic and was fatally burned. Hawley, when he realized Linton was being burned, became suddenly insane, and attempted in several ways to kill himself, but was prevented. The fire was of incendiary origin.

FOR the first time in the history of New Britain, Conn., the Democrats have elected their complete city ticket.
EX-SENATOR WALLACE of Pennsylvania thinks that events are tending to the nomination of Gov. Patterson of that state as the Democrat candidate for president. He believes that neither Cleveland nor Hill would win.

LABOR CIRCLE.

IOWA quarrymen strike for higher wages. Notices were put up in the Phoenix Iron Company's works at Philadelphia that work will be suspended in all departments excepting shops Nos. 1 and 5 until Monday, April 13. This suspension affects one thousand men.

SPORTING TRIFLES.

This will be McPhee's eleventh season with the Cincinnati Reds.
The Philadelphia club has issued season tickets at \$35 each.
Larry Twitchell will captain the Milwaukee team this season.
There promises to be a large number of local amateur teams this year.
Jimmy Manning still jumps into the air about three feet when he gets a line ball.
Billy Bishop was released by the Western association. He had not been assigned to any club.
The Louisville papers are very severe on what they term "Toledo's \$12,000 job lot aggregation."
Harry Sage is to captain and manage the only double-headed club in the Two-Eyed league—Moline-Rock Island.

The California league is the only minor league of any consequence which has not adopted the double season schedule.
THE National league opens the base ball season.
Oxford wins the boat race with Cambridge, making the best ever made on the course.
AND now the ball cranks in Baltimore think Pickett is not fast enough that the manager should try and get Crooks or Stricker from St. Louis.

McManox has finally been assigned to Kansas City, instead of Dell Darling, and will start the season there. He is a rattling good catcher, one of the best in the league. But as yet he hasn't appeared on the scene.
THE senseless story circulated that a clique would run the National league the coming season had no foundation in fact. Byrne, Brush, Von der Ahe and Phelps were said to be the Big Four points of the diamond.

OTHERWISE.

MOORMON Elders try to perform miracles, but fail signally.
A LIZARD is removed from the stomach of a Pennsylvania man, having been there two years.

LIQUOR dealers in Boston say that the whiskey trust is still doing business in this state in spite of the recent indictments. The rebate checks are still being sent out, they say, and there seems to be no disposition to stop that part of the operations.

Two appeals have been filed in the United States court of appeals at San Francisco from the decision of Judge Ross in the Southern district court regarding the steamer Itata and her cargo of munitions of war, which played so prominent a part in the controversy between the United States and Chile.
A KINGFISHER, O. T. advice says: From east, west, north and south, white-topped wagons are creeping along the dusty roads, headed for the "promised land"—the country of the Cheyennes and Arapahoes. There is one almost unbroken encampment along all the borders of the new country, and every moment the ranks of the immigrants receive recruits.

FIGHT LATER ON.

Bloodshed Seems to Be in Sight on the Sisseton Reservation.

The New Town Named in Honor of a Plucky Young Woman.

BROWN'S VALLEY, Minn., Special, April 13.—Apparently everything is quiet on the Sisseton reservation to-night, but there is every evidence that serious trouble is brewing, though the crisis may not be reached for several days. To-night 150 men who had made filings at Watertown, passed through this village, entered the reservation, and went on the northwestern part of the reserve, where the good lands and the new townsite are located. I talked to several of them, and every one stated decidedly that he meant to have land. They were among the first of those to file, and say they all filed in less than two hours. This is remarkably short time, and many of the squatters were of course unable to reach claims twenty and twenty-five miles away in that time.
The authorities claim that the situation now looks very serious, but of course it is largely a matter of conjecture. These files say they are going to have some of that land. They cannot get it without a fight. For a novel reason the new town has had its name changed from Sisseton to Ellington. After consultation the Sisseton Land company and the people directly around the townsite unanimously decided to name the place after Miss Effie Stauffer, the school mistress who was

THE FIRST ONE TO REACH IT. She made the first journey alone from Brown's Valley to the north boundary, riding horseback forty-five miles on April 14 and sleeping that night in a tent. On the morning of April 15 she rode alone twenty-four miles, following the boundary until she met the crowd. She led all the men to the new town, and they complimented her in the manner described. The town is surrounded by some of the best land on the reservation, and settlers are coming to it from miles around. I rode over it for several miles, and was surprised to find so large a tract with so little land not in every way desirable. Already there have been started a general store, lumber yard, hardware store, blacksmith shop, grocery, millinery establishment and a hotel.
Things are quiet in Brown's Valley. Many more people returned here to-day footsore and weary without claims or anything else. Many others passed through on their way to Wilmot. They have located claims and got to the file. The boom is over and there is little more to tell unless fighting begins. Many good claims were secured to-day. There are still many vacant ones. Large prairie fires are raging to-night and a stiff east wind prevails.

REAL ENFORCEMENT.
Sioux City Enjoys a Taste of the Genuine Article.
SIoux CITY, Iowa, Special, April 13.—For the first time in the history of Sioux City business was suspended to-day. The Sunday Enforcement league closed places of business, forced most of the transit lines to suspend operations and even closed some of the restaurants. All stores, billiard rooms, etc., are closed, and it is almost impossible to buy a cigar. The Enforcement league is composed of saloon men and associated classes who have been driven out of business by the enforcement of the prohibitory law. They say they will enforce all laws of the state alike and give the people a taste of real enforcement. Iowa has some laws that have long been forgotten, but they are being resurrected. All labor on Sunday is a misdemeanor, the limit of punishment being \$5 fine and imprisonment until paid.
Informations for employes and officers of all street car lines were given to them this morning. The men were arrested and officers gave bonds and sent them back to work, when they would be rearrested. Some of the lines by this means were kept in operation most of the day. The Sioux City Street Railway company, with twenty-five miles of line and the most important system in town, has not turned a car since noon. The cable line men have been arrested several times, but the justices do not care to arrest any of the public sentiment. The suburban train on the Sioux City & Northern, running to Leeds, was stopped for a time, but the railroad had plenty of men at hand and the effort was discontinued. The streets were crowded to-day with people anxious to watch proceedings. President Pierce, of the cable company, was applauded or running a grip car when his last man was arrested. Officials of other lines heaped the men operate the cars. The league is said to have the sympathy and support of many leading people and announces that it will follow up the work vigorously and compel the closing of all business on Sunday and make it permanent. The league's trouble is feared before the end is reached.

CURIOUS DIVORCE CASE.
HUBON, S. D., Special, April 13.—A somewhat peculiar divorce case has been commenced in the circuit court here. In November last Mrs. Lillian McDonald obtained a decree of divorce, with \$200 alimony, from her husband, Peter McDonald, on the ground of drunkenness and cruelty. McDonald appeared at the trial held in open court by his attorney. The hearing was had in Eau Claire, Wis., the court giving the custody of an infant child—a girl—to Mrs. McDonald. Now the husband makes application for divorce in the courts here from his wife, charging her with deserting him. He asks that the custody of the child be transferred to him, and that property in this city which is in Mrs. McDonald's name be also transferred to him. Both parties lived here previous to and for a number of years following their marriage and the property in question is quite valuable. Mr. McDonald is now a resident of Watertown and Mrs. McDonald makes her home with relatives in Minneapolis.

AN INSANE MOTHER'S AVIND DEED.
PORTLAND, Me., April 13.—This afternoon a shocking affair took place on Emerson street. Mrs. James Robertson cut the throat of her three-weeks-old baby and then tried to kill herself. The husband of the woman was in an upper room at the time. He heard the insane shrieks of the woman from his window, ran down stairs and found her brandishing a razor over her head. On her lap lay the dead babe, its throat cut from ear to ear. As soon as the woman saw her husband she tried to cut her own throat, but lacking at it several times. Mr. Robertson sprang to the side of his wife, caught her arm and shouted for help. Two policemen ran in and secured the maniac.

FATALITIES IN SEQUENCE.
MONTICELLO, Ill., April 13.—A north-bound Washab freight train crashed into an Illinois Central freight train at the crossing in this city last night. Taylor Conrad and James Marvin were standing at the crossing waiting for the train to pass. They were caught in the wreck, Conrad being instantly killed. Marvin's arm was torn out. While the wrecking crew were clearing away the debris a daylight train this morning a truck slipped from the derrick and fell on a gang of workmen. William Haines of Decatur was crushed to death, and William Marvin, a section hand, was probably fatally hurt.

A MICHIGAN MURDER.
THE Slayer Had Been Found Under a Young Lady's Bed.
MARINE CITY, Mich., April 13.—Word has reached here that a murder was committed at the farm of William Stephenson, four miles west of here Saturday evening. Mr. Stephenson employs several hands, among whom were Richard Cook and William Colby. Last evening after supper Colby was missing, and was subsequently found hiding beneath the bed of Stephenson's adopted daughter, about twenty years of age, with his shoes and stockings off. When discovered there Colby came from the room, but offered no explanation of his actions. Later Cook and Colby went to work in the barn. While there Cook asked Colby what he was doing under Miss Stephenson's bed, and accused him of hiding there for a felonious purpose. This led to a quarrel, which resulted in Cook's death. Colby declares that he killed Cook in self-defense, the latter having attacked him with a pitchfork. His story is not credited.
Good Work in Montreal.
MONTREAL, April 13.—Fathers Doyle, Smith, Otis and Hecklinger, of the Paulist fathers of New York, concluded the monster mission at St. Patrick's church to-night. The mission has been one of the most striking ever held in Montreal. During its progress over 50,000 people signed the total abstinence pledge and fifty-six converts were received into the church. The others strongly denounced the Montreal civic authorities for their apathy in enforcing liquor laws. The denunciation was made in the presence of Mayor McShane and a number of other prominent city officials, and produced a great sensation. The effect was so great that Mayor McShane and other officials were led to sign the pledge. A large sum of money was collected during the mission to assist in educating young Catholic missionaries at the Catholic university in Washington. Fathers Doyle and Smith leave at once for Connecticut to commence a mission there.

A Tammanyite's Exit.
NEW YORK, April 13.—The body of Fred Pickard, a New York hatter and prominent member of Tammany Hall, was found on the track of the railroad in Jersey City Saturday evening. Several trains had passed over the body and it was severely mangled. He attempted his life by slipping but failed in the attempt. He went to the tunnel, stood in front of a train and was killed. He left a note to his wife saying he was going to kill himself and added: "May God curse Newman and Brown." It was learned that Newman was a friend of the family and Brown was a policeman. Both these men were surprised when they heard of the note and said they were always on the best terms with the dead man.

Mrs. Harrison Dying.
WASHINGTON, April 13.—Mrs. Harrison, whose illness seemed to have taken a turn for the worse on Saturday, was generally improved to-day, and with care, the doctor says, will be able to leave her room in a few days. It is probable that as soon as the movement is deemed advisable Mrs. Harrison will go away to recuperate, as her illness has let her very weak. Mrs. McKee will accompany her.

MONTECELLO, Ill., April 13.—A north-bound Washab freight train crashed into an Illinois Central freight train at the crossing in this city last night. Taylor Conrad and James Marvin were standing at the crossing waiting for the train to pass. They were caught in the wreck, Conrad being instantly killed. Marvin's arm was torn out.
