Schell's Brewery stands in an unfinished state at present and will remain so until warmer weather will permit of further building. Already \$11,000 have been invested in the finely plastered and arched departments and it is estimated that six or seven thousand more will be expended before it is complete. A visit to the establishment, however, even in its unfinished state, is convincing of the fact that it will be among the finest institutions in its line in the state.  
Geo. Seibenbrunner has sent for two ferrets with which he will hunt rats, rabbits and other game. They are said to be splendid hunters, can be easily tamed and very docile but when on the hunting path they always bring in what they are sent for. They look something like a weasel and are of uniform size from head to tail, are almost boneless and always turn around in a hole and come out head first. A two inch hole was partway in a log a short time ago and a ferret was sent into it, although he could barely get in. In some way, or another the animal turned itself in the hole and came out head first.

Eckstein's orchestra is fast acquiring favor with the public and its efforts on Sunday evening at Turner Hall were a credit to the work of their leader, Chas. Toberer's flute solo in itself captivated many, and when blended with the perfect harmony of the other instruments was such as to equal many orchestras of wider repute.  
The fact that Southwestern Minnesota is rapidly developing was most plainly called to mind the other day by the statement of Congressman Lind that during the past two years twenty fourth-class postoffices in the second congressional district have become presidential offices by the increase of business transacted by them, being as many, he says, as the rest of the state combined.  
Over at Schneider & Schaeffer's livery stable the other day the boys were telling how they bagged twenty-two rabbits in one afternoon last week. They took a ferret with them and when they came to Mr. Rabbit's hole in the ground, they let the ferret in. Mr. Rabbit, in a great hurry, gets out of the hole but finds himself in a spyk which the hunters placed over the entrance. The ferret followed out in a second and the same operation is repeated at another burrow.  
Out at Schell's brewery they have a good way of storing ice. A storage building is erect on the edge of the cliff and leading from this to the ice nearly a hundred feet below is a frame trough. A pair of tongs is fastened at the end of a long rope and this is sent to the man below along a suspended wire. The ice is attached, and then a pulley and a team do the rest in quick order. Much time is thus saved, and it is only where you have a river handy that such schemes can be employed.

Lawyers will fight each other in court and laugh together afterwards at their unhappy clients. Doctors get off a little joke on one another and this one was told us during the week. A farmer came to town after a doctor and took him out home to attend his wife. On the way out the doctor asked "Why do you want me to go out to your house? You never hired me before to attend your family." "Well you see," said the farmer, "a neighbor of mine had a sick wife, they called you to attend her and she died; now my wife has the same sickness and I thought you would be the best doctor to hire." The doctor felt rather queer about the matter, but kept still. Later—the woman died.  
The theatre at Turner Hall on Sunday evening was funny at the same time that it was well rendered. Hugo Fischer personated the Frenchman with good effect and kept the audience in a constant siege of laughter. Miss Rehfeld was equally full of jokes and became a favorite from the start and continued so until the last, particularly so when she appeared in the garb of a boy Max Berg was in his usual good vein, Miss Ida Koch made a typical old maid, Gustav Fischer always excited life and good feeling and Miss Lulu Fischer, W. E. Koch and Dr. Bell played their respective roles with good effect. Minor parts were well taken by F. Sittel, Robert Brandt and W. Herian. Wieder ein Witz. Ha, ha, ha!
