HILL'S RESOLUTION

The New York Senator Has Something to Say Regarding the Income Tax Matter.

He Wants the Finance Committee to Amend the Wilson Bill So as to Make it Unnecessary.

House Adopts a Resolution to Investigate Judge Jenkins' Northern Pacific Strike Order.

WASHINGTON, March 7.—There was evidence during the progress of routine business in the senate of a purpose on the Republican side of the chamber to displace the tariff question with the silver discussion over the Bland's seigniorage bill. There were few members in the chamber when the vice president's gavel fell. Mr. Hill awakened interest by offering the following resolutions and asking its reference to the committee on finance:

Whereas, The secretary of the treasury has announced a deficit of \$78,000,000 for the current fiscal year.

Whereas, House bill No. 4684, known as the Wilson bill, proposes to discard \$76,000,000 revenue from present tariff taxation and to meet the new deficiency by further internal and direct taxation, therefore

Resolved, That the senate finance committee frame amendments to the said bill, omitting the said internal and direct taxes newly proposed, and instead thereof make provision for sufficient revenue by tariffing other foreign imports and otherwise revising the tariff without creating deficiency.

The Silver Storm Cloud which had been lowering all the morning, broke over the senate when Mr. Harris of Tennessee moved the second reading of the Bland seigniorage bill. In doing so, he stated to the senate, and especially to the senator from Nevada, (Mr. Stewart) that the latter was not a more earnest advocate of silver coinage than he. But he (Harris) believed that there was one question which should take precedence over this, and without any breach of confidence, he could state that the finance committee was on the verge of reporting the tariff bill to the senate. He therefore objected to further proceedings on the seigniorage bill, and under that objection it would have to go to the calendar.

NEWSPAPER TALK. So Payne Calls the Northern Pacific Reorganization Scheme.

MILWAUKEE, March 7.—Receiver Payne of the Northern Pacific company says there is no scheme on foot to reorganize the company. He says the report is the result of newspaper talk and its foundation is the fact that a number of stockholders have been asked to deposit their holdings with the Mercantile Trust company of New York. Mr. Payne did not state the reason for the request, however.

One Redeeming Feature. SEATTLE, March 7.—Governor Penney of Oregon addressed about 1,500 people at the armory, the occasion being a rally of the People's party on the eve of the city election. The distance from here is 120 miles.

The Market Record estimates the stock in country elevators of Minnesota and the two Dakotas at 5,453,000 bushels. The Northwestern stock is thus reduced 498,496 bushels for the week, it now aggregating 29,505,062 bushels.

THE THIRD JURY.

Almost an Unprecedented Condition of Things in the Trial of the Roster Case.

The Second Jury Has Been Dismissed on Account of a Bet Made by One of the Twelve.

Twenty Million Dollars Involved in the Seattle Harbor Case Decided by the Supreme Court.

MADISON, Wis., March 6.—After a second jury in the roster case was secured, it was learned that one of the jurymen had made a bet as to the outcome of the trial. This will necessitate a third jury.

The second jury was secured at noon with the last man on the special venire of 80. The plaintiffs later accused William Fanning, one of the jurors, with having made a wager on the result of the case, producing a friend of Fanning, who swore he had bet the cigars with Fanning some weeks ago. Fanning disputed it, and the plaintiffs dismissed the jury. The plaintiffs also asked for an investigation of intimations against other men in the box, but the court disallowed it.

TWENTY MILLION DOLLARS.

That Amount Involved in the Tacoma Harbor Decision, Just Rendered.

TACOMA, Wash., March 7.—Twenty million dollars is the estimate of the value placed by the harbor line commission of this state on the property affected by the decision of the United States supreme court in the case of Prosser against the Northern Pacific railroad, which has just been handed down. The railroad company laid claim to a strip 200 feet wide on each side of the roadbed. The Northern Pacific wharves, bunkers and elevators coming within these lines, the state, through the harbor line commission, looks forward to heavy rentals. In addition to the bunkers and elevators a quarter of a million has been spent by the Northern Pacific for filling in wharves.

Justice Gray, who delivered the opinion, held the question to be whether the charter giving land grants to the railroad authorized it to monopolize the harbor. The court held that every state has the right to define its harbor lines, and regulate building upon them, since a general system is necessary, and private parties could not be permitted to control portions of the lines. The injunction against the harbor commissioners asked for was denied as against public policy. The lower court was therefore sustained and the suit dismissed.

NUTMEG LOBBYISTS.

Connecticut People Pay Roundly For What Legislation They Want.

NEW HAVEN, Conn., March 7.—The last general assembly of Connecticut was famous for its schemes to secure good paying political positions. Details of the Hartford bridge scheme which resulted in the payment of something over \$95,000 for lobby purposes, have already been published. Another lobby scheme is now exposed. About eight years ago a law was passed, providing for the abolition of railroad grade crossings in various towns in the state. The law provided that the towns should bear a portion of this expense and the railroad the remainder. Early last session a bill was introduced providing for the payment from the state treasury to the towns which had paid for the abolition of grade crossings the total sum they had expended. This bill was carefully manipulated and finally lobbied through. The towns of Wranford, Guilford, Madison and East Haven received about \$30,000. Of this amount the towns paid to the lobbyists 2 per cent of the amount received and a considerable additional sum, the amount of which is not known.

ST. PAUL, March 7.—The celebrated suit of the State of Minnesota against the lumber firm of C. A. The firm of C. A. Smith & Co. paid over to Attorney General Childs a check in favor of the state called for \$10,302.48, the amount adjudged by the court of Itasca county to be still due upon the timber purchase in question.

POSTAL APPROPRIATIONS.

The Bill as Reported From the Committee Carries \$87,470,599.

WASHINGTON, March 7.—The postal service appropriation bill, compiled by Representative Henderson of North Carolina, chairman of the committee on postoffices, has been completed. The estimates of the department upon which the bill is based amount to \$90,399,455, exclusive of special facilities on trunk lines, an item amounting to \$196,614. The bill recommends an appropriation of \$87,470,599, which is in round numbers, \$3,000,000 less than the estimates, and about the same sum in advance of the appropriations for the current year. The estimated postal revenue for the fiscal year, 1893, is \$84,427,748, so that the postal service is nearly self-sustaining. Instead of depending upon the future action of congress to make good deficiencies, the bill provides that a sum equal to whatever deficiencies may arise, shall be appropriated.

The free delivery experiments in 46 small towns, ranging from 400 to 4,000 in population, is said not to have shown the expected increase in business, and no further appropriation for extending the service experimentally is recommended, particularly as the free delivery branch has a deficiency of \$68,010, the first time in its history, and to make a fair trial of rural free delivery would involve great expense, at least \$200,000,000.
