KNIGHTS IN FORCE
Templars From All Parts of the
Country Pouring Into
Boston.
Railroads Taken Completely by
Surprise in the Matter of
Visitors.
It Will Be a Difficult Problem to
Get Them All in on
Time.

Boston, Aug. 27.—Knights Templar
and their ladies from every section of
the United States, and visitors from
every nook and corner of New England,
have been pouring into the city by the
thousands. One hundred commanderies
including over 3,500 air knights, arrived
at the different railroad stations before
noon, and before night 50 more delega-
tions will arrive.
The first commandery to put in its ap-
pearance was Holyrood of Pennsylvania.
There were 100 air knights and 80 ladies
in the party which was due to arrive at
3 a. m. The train was late but came in
soon after dawn.
Among the delegations which have
arrived were 15 commanderies from Illi-
nois, including Chicago commandery, the
grand commandery of Colorado; two
from South Dakota, two from Indian
Territory and Oklahoma commandery of
California.
Knights are Everywhere.
The city was astir early to greet the
host of strangers. Before the sun was
fairly up strains of music were heard
in the streets as resident commanderies
moved towards the depots to meet and
escort early arrivals. Before midday
so many bands were out the air was full
of music. One could not go more than
a block or two down town without meet-
ing at least one body of Knights.
A great feature of the gathering this
year is the great number of visitors who
are attracted simply as spectators. All
trains from New England points are
late from one to two hours, and a glance
at the hotel registers shows that there
is hardly a town, village or hamlet in
all the six New England states that is
not represented.
Surprised the Railroads.
The railroad men have been taken
completely by surprise, but they are
making hurried plans to meet the emer-
gency, and say they expect to bring in
over 250,000 people before the parade
starts, besides those from the suburban
towns that make up greater Boston.
The only meetings are those devoted
to committee work, relating to the hous-
ing of visiting commanderies. The ex-
cursion steamer Cignus, which has been
chartered for the entire week, made two
trips down the harbor, carrying 1,200
passengers each time.
LUXEMBURG LABOR LAW.
Commercial Agent Murphy Sends a Copy
to the State Department.
WASHINGTON, Aug. 27.—Vice-
Commercial Agent Murphy, located at Lux-
emburg, has sent to the state depart-
ment a translation of a labor law which
has recently gone into effect in the
Grand Duchy of Luxemburg. The law
requires the payment of wages in cur-
rent money. All other payments are
prohibited except that deductions are al-
lowed for rent of land, lodgings and
food and for tools at cost prices.
No deductions can be paid in
salaries, bonuses, stores or shops.
Wages are required to be paid at least
twice a month. Employers are for-
bidden to impose upon employees con-
ditions calculated to deprive them of the
right to dispose freely of their wages.
The law also limits the portion of wages
which can be deducted to others or seized.
It does not apply to farm laborers or to
servants remaining constantly in the
house of employers.

CAUGHT UP WITH THE THIEF.
Switch Engine Used to Overhaul a Pas-
senger Train.
BUTTE, Mon., Aug. 27.—A man who
gave the name of George Wilkins com-
mitted a bold robbery of the ticket office
of the Montana Central depot. An ex-
cursion train was pulling out for Ana-
conda when he ran up to the ticket
window and grabbed a sack containing
about \$50, and before anyone could catch
him he had boarded the train and was
gone. A switch engine with several po-
lice men was soon in pursuit, and after a
hot chase of ten miles the passenger
train was overtaken and the robber
arrested. The money, however, was not
recovered, as he had evidently passed it
to a confederate.

Fears a Water Famine.
CANTON, S. D., Aug. 27.—This city is
likely to suffer from lack of water if the
present dry, hot weather is not followed
by fall rains. The people are thankful
the drought did not come until the boun-
tiful harvest. The mayor has issued
orders restricting to one and one-half
hour per day the use of lawn hose.

Talk of a Starch Factory.
LITTLE FALLS, Minn., Aug. 27.—The
large crop of potatoes has called atten-
tion to starch factories, and there is
talk of building one here. The factories
in this part of the state are paying from
15 to 18 cents per bushel.

OLYMPIA STARTS OUT.
SAN FRANCISCO, Aug. 27.—The cruiser
Olympia steamed away for China via
Honolulu, early. Captain Reade denied
that he intended to break the world's
record between this port and Honolulu.

Receiver For the F. M. B. A.
SHELBYVILLE, Ills., Aug. 27.—At a
meeting of the stockholders of the Farm-
ers' Mutual Benefit association, many of
whom are the richest farmers in Shelby
county, it was resolved to put the prop-
erty in the hands of a receiver to wind
up its affairs.

Senator Res Dead.
GRUNDY CENTRE, Ia., Aug. 27.—Hon.
J. M. Rea, state senator, died at his
home at 8 p. m.

SHUT OUT JAPS NEXT.
LOS ANGELES, Cal., Aug. 27.—In an
interview United States Senator White
said that Labor Commissioner Fitzger-
ald of San Francisco, has asked him to
introduce in congress a bill similar to
the Chinese exclusion act, which shall
exclude Japanese. Senator White has
promised to do so if Fitzgerald will fur-
nish the data to prove that Japanese are
seriously injuring American labor.

Compete With Pacific Mail.
SAN FRANCISCO, Aug. 27.—The Chroni-
cle says that important negotiations are
on for the formation of a new steamer
line to touch at Central American ports
and connect with the Panama railroad.
It is the evident intention to enter into
direct competition with the Pacific Mail
company.

SAVE THE PASSENGERS.
Great Northern Engineer Heroically
Stands by His Engine.
SEATTLE, Wash., Aug. 27.—The
Great Northern overland passenger
train which left this city at 7:10 p. m.,
ran into a land slide 15 miles from Rich-
mond Beach. The engine and tender
were ditched and the fore trucks of the
baggage car left the track. Engineer
Neal McKinley was killed. The train
had many passengers and McKinley, in
face of the danger, stood at his post and
succeeded in saving the lives of those on
board only to be horribly mangled him-
self.

NEW KIND OF WEATHER.
Sensible Temperature to Be Given Out
by the Signal Service.
WASHINGTON, Aug. 27.—Readings of
sensible temperature, or that actually
felt, will hereafter form a feature of the
weather bureau charts. It is officially
stated that this is an entirely new de-
parture in weather service matters.
Chief Moore of the weather bureau says
he is confident that the new plan will
meet with public approval and result in
great benefit to the work of the office.

Peek Admits It.
CHICAGO, Aug. 27.—George R. Peek
admits the correctness of the report that
he has resigned as general solicitor of
the Santa Fe, and will soon assume the
position of general counsel of the Mil-
waukee.

BULL FIGHTING IN AMERICA.
Six Thousand People Witness the Mexi-
can Sport in Colorado.
CRIPPLE CREEK, Colo., Aug. 27.—
Another bull was killed in the arena at
Gillett Sunday in the presence of 6,000
people and the work was done in the
style of Spain and Mexico. The first
bull turned into the arena was an ex-
ceedingly tame animal even after the
darts were in him. He refused to fight
and the multitude cried for a new animal.
Arizona Charley appeared to be
equally disgusted and he upbraided the
band of cowboys that drove the bull into
the arena. The next animal made a
fight for his life, but his fight was quick-
ly over. Chibeta, the king of the arena
in not only Mexico, but in Spain, made
two stabs at the animal and then left
him practically dead, but the Mexicans
with the red cloaks released the creature
and made him dart at them. One came
within an ace of losing his life and
there was great excitement in conse-
quence, especially among the little party
from the country to which the in-
dividual belonged. Not a few women
fainted.

An Exhibition of Cruelty.
At the ring not a single shout of ap-
proval was heard. Not an applaud-
ing hand was raised. For four minutes,
which to many seemed to stretch into
10, the bull fought with death and
men in the full sight of them all, blood
spurting from gaping sword wounds
just back of his right shoulder, welling
from his mouth and nostrils, flecking
his own sides and forming great pools
on the ground. For over two or three
minutes the bull stood motionless, al-
most, save for heaving sides as he gave
long gasps for breath, then fell. Only
a few seconds he lay quite still. Then
he slowly struggled to his feet and
leaned against the heavy barrier of
the bull ring as if for support, pitifully
weak from the crimson streams fast col-
oring the ground about him. Then he
gathered himself and started slowly
forward.

Staggering and Waving
from side to side. For 20 feet the bull
advanced, weak, bloody, faltering, then
fell again, his fresh, warm blood welled
up a little over the clotted mass on the
animal's shoulder, at every step lessening
the pulsation of the heart. A Spaniard
in a gaudy costume stepped up to the
quivering beast and sent the sharp
point of a sword blade into the neck of
the animal, snapping the spinal chord.
The legs of the animal drew up convul-
sively and then life, clung to so desper-
ately and long, was gone.
It was simply an exhibition of cruelty
and was not enjoyed at all by the
crowd.

Over a hundred deputy sheriffs were
in attendance and the management was
again placed under arrest, but no at-
tempt was made to stop the proceed-
ings.

GOVERNOR WAS POWERLESS.
Says He Could Not Order Out the Militia
Except on Request.
DENVER, Aug. 27.—Governor McIn-
tyre's reason for not interfering with
the bull fights at Gillett is that he has no
right to order out the militia until the
sheriff exhausts his resources and calls
for assistance.
"If I had the power I would remove
Sheriff Powers," remarked the governor.
"I don't believe it would be hard to find
a man who would take his place and
stop the fight."
Sheriff Powers' non action is attributed
to politics. There is to be an election
this fall and he is a candidate for re-
election.

BACTERIA OF MILK.
Agricultural Department Issues a Bulle-
tin on the Subject.
WASHINGTON, Aug. 27.—A review of
the processes of changes in milk is made
in a bulletin of the agricultural depart-
ment. It points out that the amount of
bacteria in the milk supply of cities and
towns vary greatly. Tests so far made
show that city milk that contains not
more than 3,000,000 or 4,000,000 bacteria
per centum may be regarded as excep-
tionally good for European cities, and
the probability is that the milk supply
delivered in our largest cities is in gen-
eral superior to that of European cities.
The milk of large cities, it is stated, con-
tains more germs than that of small
communities, but it is probably no more
harmful.

Olsen, Druggist.

Eccentric Monkish Sculptors.
The work of the monkish sculptors,
both in wood and stone, shows a vast
amount of humor. Witness the gar-
goyles of our old churches and the
devils, half human, half animal, which
adorn the upper galleries and form the
cornels and brackets of many cathedrals.
These one can scarcely believe to have
been modeled seriously as conceptions
of the spirit of evil, for, if the doctrine
of the personality of the devil were held
faithfully, it is scarcely probable that
artists would have expended their satire
upon as terrible and vindictive a person
as the arch fiend, nor would the monks
have allowed their miseries and stalls to
be decorated with burlesques of his
satanic majesty.—Good Words.

The Bicycle and the Corset.
The Paris correspondent of the Lon-
don Truth says that the long vexed ques-
tion of the corset is in a way to be set-
tled once and for all. Neither doctors
nor rational dress reformers will earn
the credit of the change, thanks being
due to the cycle only. Cycle tailors and
trainers in Paris are dead set against the
corset.
"There's no answering for your safety,
madame," says the trainer, "if you
must go on keeping your conventional
figure. You need every muscle in your
body and every muscle free. A corset
just deep enough to sustain the waist-
band of your knicks (knickerbockers,
pronounced "knecks") is all I can al-
low you. Indeed the knicks should be
so light as hardly to weigh on the hips.
The cycling dress should be so light and
elastic that in wearing it one should
scarcely feel dressed were it not for the
warmth."
We look in Paris on a gown wearing
woman on a cycle as a sprawling cari-
catural creature, with no sense of fitness.

Wrinkles.
If our forehead is rigid with wrinkles
before 40, what will it be at 70? There
is one consoling thought about these
marks of time and trouble—the death
angel almost always erases them. Even
the extremely aged in death often wear
a smooth and peaceful brow, thus leav-
ing our last memory of them calm and
tranquil. But our business is with life.
Scowling is a silent kind of scolding.
It shows that our souls need sweeten-
ing. For pity's sake let us take a sad
iron, or a glad iron, or a smoothing tool
of some sort and straighten the creases
out of our faces before they become in-
delibly engraved upon our faces.—Ex-
change.
