CONCENTRATING AT MALABON

Insurgents Evidently Intend to Make a Final Stand at That Point.

If Defeated They Will Then Disperse to Swamps and Mountains.

New York, March 27.-The World prints the following Manila cable:

"A sweeping victory over Aguinaldo's forces has just been won by the United States troops.

"The total American loss is estimated at about 100, including both the killed and wounded.

"The Filipino loss is between 300 and 400."

WASHINGTON, March 27.-At 2:15. o'clock the war department was without information from Manila, General Corbin stating that no advices had been received of the fighting.

Manila, March 27.—Noon—The enemy are extremely active in the vicinity of Malabon, in preparing defenses, evidently anticipating an attack. They keep well under cover. A small body of rebels, however, emerged from the Legal advise given, and suits tried in all jungle on the extreme left and fired upon the Kansas troops in the trenches, fatally wounding Private Cohen of Company B, and Private Muir of Company E.

here from Dagupan, the railroad termitime and the increasing cold weather will nus, on board the steamer Saturnus. They report that the natives are generally friendly, and the officers invariably courteous. Mr. Higgins, manager of the railroad, and about a dozen unmarried men in charge of various business interests, decline to take advantage of the opportunity to leave.

Nothing has been beard of the two American planters at Calumpit since hostilities began.

According to Filipino accounts, thousand Americans have been killed, the fatalities being especially heavy at Caloocan, where the United States troops "rushed like madmen against a storm of bullets."

WILL MAKE A STAND THERE | Welcomed to the State Capital by Gov-Aguinaldo Concentrating His Forces at Malabon.

Manila, March 27 .- 6:25 p. m .- Two Spanish prisoners who have escaped from Polo to the lines of the Kansas regiment, report that the Filipinos have concentrated their forces at Malabon and Polo. They add that only Aguinaldo's bodyguard is at Malolos, and that the rebel leaders apparently intend to stake their fortunes on a fight at Malabon, where it was expected an engagement would take place Thursday. If defeated, it is further asserted, the rebels intend to disperse to the swamps and mountains. The rebels were put-ting their bolos in front, believing that the bolomen's charms will avert the bullets. The bolos of the Filipinos greatly outnumber the rifles in their hands. The rebels are further said to have admitted that they cannot with-stand the American shells and bayonet

The escaped Spaniards corroborated the stories told of food shortage among the rebels and they added that their hospitals are short of suplies.

Little Complaint About Fe

WASHINGTON, March 27 .- Mail ports have been received from Manila by the subsistence bureau of the war department saying that the supplies sent from the United States, including all kinds of vegetables, arrived in good condition. There is little or no complaint among the troops, says the re-port, the men having something else to think about.

Hospital Ship Relief at Perim. PERIM, Island of Perim, March 27 .-The United States supply ship Relief, which left New York on March 4 on her way to Manila, has arrived here. The Relief carries a hospital corps of 150 men and several women, doctors and medical supplies for 25,000 men for a

matured his plans of campaign the within a week or 10 days he will be able to begin a movement which is expected to mark the destruction of Aguinaldo's army. Although stragglers and fugitives may infest the island of Lubon for some time, it is believed that after Otis has delivered his next blow, the insurgent army, as an organization, will have ceased to exist. The new move have ceased to exist. The new movement will be, it is understood, by a combined land and water attack, though it is not expected that the navy's part in the programme will be particularly prominent. Otis has procured 18 of the gunboats formerly owned by the Spanish government, and these are to play an important part in the development of the campaign. Many of the troops who have been engaged on the outer lines up to the date of General Lawton's arrival at Manila, have been withdrawn to the water front and a complete reto the water front and a complete re organization of the army is now in progress. The artillery is to be used to aintain the lines established by Wheaton's flying brigade.

The next movement expected here is to be by water. It is believed that Otis will place a complete brigade on board vessels, steam rapidly northward and land them beyond the insurgent head-quarters at Malolos. If this movement acceeds, as it should if made with rapidity, the insurgent army will find itself ipletely penned in, with no opportunity for retreat.

EARNEST APPEAL FOR ASSISTANCE

in Residents of Che Foo Describ the Terrible Conditions and Ask Aid for Natives.

WASHINGTON, March 27.-Citizens of the United States residing in Che Foo, China, have made an earnest appeal, through Consul Fowler at Che Foo, to the charitable in America and elsewhere on behalf of the sufferers from the appalling Yellow river floods of this year. These floods have been described as "China's sorrow," and the petitioners so great and heartrending as now. The most conservative estimates place the Sixteen English refugees have arrived number of starving at 2,000,000, and

> Undoubtedly Augment the Distress. The petitioners say they are daily in receipt of reports from their countrymen in the interior depicting the famine of the refugees. Hundreds of villages are submerged; cities surrounded by water; homes, furniture, in fact everthing is under water or destroyed; the native themselves are living in straw huts, many have absolutely no shelter from the winter's cold and snow, subsisting on bark, willow twigs, roots, etc. The summer's crops have been a failure and there is nothing for these starving millions to hope for in the future

The party was driven first to the state capwhere a large crowd from the town and surrounding country had assem bled. After a brief rest; during which the ladies of the party were presented immense bouquets of beautiful violets the party was driven to the Leon hotel, where an informal public reception was held by the entire party and an elabo-rate lunch served to about 100 persons. Then followed drives to points of interest and a visit by the president to a large negro college having about 300 students. The party left here at 8:80 and arrived in Thomasville at 5:40.

CHICAGO, March 27.—If a plan that the officers of the Chicago, Milwauke and St. Paul road are now considering is adopted every employe of the company will become, in a small way, a physician and a nurse, and there will be fewer cases for the surgeon's knife. It is the intention of the managers of this road to start a systematic course of instruction in the first principles of surgery and nursing among the men engaged in the train service, a course that, when thoroughly mastered, will aid an employe to render valuable first aid to the injured. A slight knowledge of the principles of first aid, it is figured, would often mean the saving of a life.

A Monument to Walsh.

AUGUSTA, Ga., March 27.—Augusta will erect a monument to Hon. Patrick Walsh. The idea is to put up a bronze statue of heroic size in one of the public squares. The entire South will be invited to assist in commemorating the name of the man, who, with Henry W. Grady, was foremost in the fight for the recognition of the South's possibilities and for the furtherance of Southern development.

German Vessels Gathering at Tangler to Enforce Claims for Indemnity.

KINGSTON, Jamaica, March 27 .- After two days of anarchy, during which business has suffered, the people being engaged in attending indignation meetings, it is said that the government has ealized that its choice lay between the exercise of force and a compromise Therefore negotiations have been begun looking to a modification of the obnoxious tariff bill taxing industrial implements and literature, which the government is credited with intending to pass through the council with the help of four new official members who are said to have been appointed in order to out-vote the representatives. It is said that the negotiations have been unsuccessful up to the present beyond securing an adjournment of the matter until April 4.

TANGIER, March 27 .- The German cruiser Bussard has arrived here to support the German school ships Charlotte and Stoich in enforcing the demands made by the German government for the payment of an indemnity to the German victims of the Morroccan outrages, the sultan still delaying to act up to the agreements arrived at in the mat-ter. If the claims are not speedily set-tled complications are threatened.

TALK OF DIVIDING SAMOA. Blaine's Plan of Settling the Question Again Brought Forward.

WASHINGTON, March 27.-There is some suggestion that Mr. Blaine's plan for a partition of Samoa may again be brought forward, although it has not sumed official form thus far. It is based on the idea that as the Sa group consists of three large islands, each of the three interested nations would take one of the islands. The Germans insist that they have predominating influence in the large island of Upolu, where the capital, Apia, is situated, and that in any partition Upoluwould fall to Germany. On this basis the eastern island of Tululia, with its harbor of Pago Pago, would fall to the United States, and the large Western island of Savaii to Great Britain. At present the United States is preparing to take possession of its naval harbor at at Norfolk with supplies for that point. president and party arrived here just But while it is one of the best naval before noon and were received by Govharbers on the Pacific, there is much doubt whether this government would e contented with a naval harbor alone while Germany absorbed the rich comnercial parts of the island group. Nor is it believed Great Britain would accept a partition which assigned to her the Western island, which is arren and mountainous, While, therefore, the partition of Samoa is being put forward in a tentative way, t appears to involve too many animos ities to prove a practical solution,
