The test given the new city well put down by Jos. Gulden was made Tuesday, and proved entirely satisfactory. Ten hours pumping at the rate of 60 gallons per minute did not lower the water at all. Another pipe is being put down four feet from the first one, and this will insure an ample supply of water for all purposes for village use, such as watering the streets, for fire protection, etc.

**SUMMER IS OVER**

but we feel its after-effect. The continuous heat parched our bodies. The pores of our skin, consequent upon the accelerated circulation and the increased pressure of our blood, were so overworked that the perspiration literally ran from us in streams. This overtax so weakened the pores that finally they were unable to retain water contained in the blood. This made the blood thicker, and since the maltreated pores were incapable of properly performing their functions, it became impossible for them to eliminate the poisonous matters the blood had accumulated. The body, therefore, has become surcharged with contaminations which only the celebrated "St. Bernard Vegetable Pills" can remove. When you will be most emphatically reminded of the fact that the excessive heat of the past summer has charged your system with blood poison.

One bottle cured me. A friend who had suffered similarly I put on the use of Kodol Dyspepsia Cure. He is gaining fast and will soon be able to work. **AFTER MORE EVIDENCE.**

Sheriff McMillan and detective Coleman were in the city on Saturday on their way out to the Wellner farm in search of more evidence relating to the Tanke case. The detective claims that he has proof positive that Wellner was killed before Tanke left the farm on that fateful night, and that instead of walking to the city as he claims he did, the detective can prove that he used other and faster means. If all these allegations can be proven and the parties now in jail be convicted of the crime it will furnish a criminal record of most revolting horror, but if a mistake has been made and the parties are innocent it is a terrible mistake that no amount of explaining can set right. Character once smirched bears always the yellow stain and no amount of washing will totally obliterate it. The fact that someone should suffer for this terrible crime is not sufficient to warrant an arrest on suspicion, of which the sheriff of Nicollet county is undoubtedly cognizant, but if the right parties are under arrest they should not be shown mercy because the lapse of a few years has tempered the horror of the crime.

**THE TANKE IN JAIL.**

The following is taken from the St. Peter Herald of Friday:

A Herald reporter sought to interview the accused at the county jail. Tanke seemed to be cool and collected. He was smoking a cob pipe and between the puffs of smoke said he declined to talk for publication or discuss the affair. He said he was born in Germany, came to New Ulm 19 years ago and was 25 years of age. He said he had worked for John Wellner about four weeks and for some time prior had been employed about the town of Lafayette.

Mrs. Tanke was reclining on a couch along the upper tier of cells. She seemed somewhat careworn and more nervous than her husband. She also refused to talk. Mr. Tanke is rather good looking and does not have the appearance of having her hands stained with the blood of her husband. Tanke and his wife have retained J. A. Eckstein of New Ulm as their attorney.

Several of the daily papers enhanced the interest of their accounts with the suggestion of a confession. As near as we can learn neither Tanke or the woman have made a confession. They deny the crime, and the evidence upon which they will be convicted, if at all, will be not upon their confession but on other testimony. The murder was one of the most foul ever committed in the county, and it is hoped that if the accused are guilty, the proof will not be found waiting.

**HAIR IN THE COMB.**

A bad sign. You are growing bald. Stop it now. Use Dr. White's Electric Comb and you will find no more combings. Your hair will stay where it belongs. Send 50c for one. D. N. Rose, Gen. Mgr., Decatur, Ill.

**GAME WAS FAIR.**

The game of foot ball at New Ulm on Saturday between the high school teams was another one of those disgraceful sporting events that ought not to have occurred. The bias of the referee, a New Ulm man, lost a touch-down for Sleepy Eye and the score stood 0 to 0.—Dispatch.

What delight the Dispatch can find in so palpably misrepresenting things is hard to see. There was absolute fairness in the game of foot ball, and it was the general expression that all who witnessed the game would like to see the same teams play again. The faculty of making a mountain out of a mole hill predominates with some people and makes trouble wherever it exists.

**Quick Wit.**

"It was simply an exhibition of nerve and quick wit," said the old banker who was dining at his club with a number of friends. "No one but the paying teller knew what was happening at the time, and what might have been a tragedy was turned into a comedy by his quick wit."

"During the noon hour one day an old man approached the paying teller and presented a check for \$1,000,000. With it was a badly written letter to the effect that if the immediate payment of the check was not forthcoming the teller would have his head blown off. He was nothing but a crank, but he had come armed for business, and if the wit of the paying teller had failed him for an instant there might have been a tragedy. But the paying teller coolly took up the check, glanced at it and then handed it back with the remark that the crank had neglected to put a stamp upon it. In an instant the crank was full of apologies at his oversight and departed to get a stamp. It took but a moment to notify the police, and the crank was put where there is no danger of his demanding the payment of any more \$1,000,000 checks at the point of a gun."—Detroit Free Press.

**Where English Yachts Winter.**

At the mouth of the Thames and around the Essex coast to Burnham, Brightlingsea and other places pleasure yachts lie literally in hundreds during the winter in the numerous creeks and bays which abound in the neighborhood. The skipper, who usually lives in the nearest village to where the yacht is lying, is retained, generally at half pay, to see that nothing happens to the vessel during the winter and to visit her periodically. Therefore, before the crew separates, she is stripped to her bare masts and stays of all gear, which is carefully stowed in the hold and safely padlocked and secured.—London Mail.

**IN CASE OF ACCIDENT.**

Accidents will happen. Mother strains her back lifting a sofa. Father is hurt in the shop. Children are forever falling and bruising themselves. There is no preventing these things, but their worst consequences are averted with Perry Davis' Painkiller. No other remedy approaches it for the relief of sore strained muscles. There is but one Painkiller, Perry Davis.
