

Vigorous Old Age

Paine's Celery Compound makes the old feel young, and cures their ills. It has added years of health and enjoyment to many a life. Use this great medicine regularly, and its invigorating powers will fill your declining years with health, strength, and happiness. Read what George F. Morse, 67 years old, writes:—

WELLS & RICHARDSON CO.,
Gentlemen:—Just a word in favor of Paine's Celery Compound, hoping it may catch the eye of some afflicted person, and they may receive the same satisfactory benefit. Some 15 years ago I had a combination of malaria, chills and fever, and grip, which continued for a year or more; meantime I lost in weight about 60 pounds, trying different medicines and doctors with unsatisfactory results. Paine's Celery Compound was recommended, and, after using a little I began to improve, gaining about a pound a week. In a year I had regained 50 pounds of the lost weight and good health, and have been a well man ever since. Yours truly, GEORGE F. MORSE.
