

"The days of Spring slip by like golden sands."

It takes real sand (golden sand) to buy novel patterns and ultra styles from the highest priced manufacturers, but we've done it and we know the men in New Ulm have sand enough to buy the best; the best in suits—in top coats—in furnishings—in hats—and we buy back any and all articles failing to reach your standard.

Horses Hurt in Transit.

F. H. Retzlaff of this city, last week sold to R. J. Dickey & Co., horse dealers of Minneapolis, sixteen head of heavy work horses. The animals were shipped to Minneapolis last Tuesday night but enroute a hole was broken in the bottom of the car and six or seven of the horses badly hurt by stepping into it. None of them had their legs broken but two or three were so badly hurt that they will probably never recover fully. The owners will probably be able to recover damages from the railroad.

Writing Class Song.

The senior class at the high school, which elected Cleveland Friederich president last week, has chosen the remainder of its officers. Fred Hubbard is secretary and treasurer, Cleveland Friederich, prophet, and Miss Helga Holstad, historian. An innovation will be a class song, which is now being written and which will be rendered on the night of commencement. It will not be a piece of individual effort, but in producing it all of the members of the class will collaborate.

HE BLAZED AWAY AT RIVAL

Angry Youth Tries to Make Work For Coroner.

Fires Twice at Rival For a Girl's Affections.

His Haste and the Darkness Prevent a Tragedy.

One of the neighborhoods in the eastern part of the city was thrown into a state of considerably more than mild excitement Thursday evening by a meeting between two rivals for a girl's affections. One of them tried his utmost to make work for the coroner but his haste and the darkness of the night prevented a tragedy. He fired two shots from a big revolver but neither took effect and the only satisfaction he obtained was that of witnessing the other swain in ignominious flight.

The affair which culminated so sensationally is the old, familiar story of a brace of candidates for the hand of one fair maid. In this case the young lady is rather prepossessing and seems conscious of her charms. She has had a devoted admirer for some time but recently a second youth appeared to beg for favors and while he was not encouraged greatly, he was still allowed to bask in the occasional sunshine of her smiles.

Some accounts of his presumption having reached the ears of the favored one, the latter meditated upon a proper punishment and conceived a most melodramatic climax. He is said to have made the elegant remark that he would "fix the sucker for butting in" and then went about making hostile preparations, at the same time sending word that war had been declared.

Last Thursday evening the young man and the girl were at the home of a neighbor and as they stepped out upon the porch preparatory to leaving they came face to face with the second suitor. For an instant both men were disconcerted, then lover No. 1 executed a bit of gun play in the most approved frontier style. He whipped out a big revolver and fired two shots in quick succession, but his antagonist was quick to see that the Japanese had exploded a mine under his battle ship and he steamed to the rear at the rate of about forty knots.

By dodging around a corner of the building he eluded his pursuer for a

moment and when the latter did start after him he had no trouble in making his escape in the darkness. For obvious reasons the man who served as the target has decided not to prosecute and it is also said that he will have a new sweetheart before the ice cream season opens.

BOUGHT LIVERY STABLE.

C. A. Hitchcock of Crookston, Buys Schneider Property.

County Treasurer John Schneider on Monday closed a deal with Chas. A. Hitchcock of Crookston, whereby the latter becomes the owner of the big livery stable at the corner of Broadway and Center street. Negotiations between the parties have been carried on for some time and last week Mr. Schneider took a trip to Crookston. He returned Sunday with C. A. Hitchcock and Geo. Parvis of that place, and after examining the property the former decided to buy.

By the terms of the deal Mr. Hitchcock transfers 342 acres of land near Marshall to the former owner and the latter releases all his rights and interest in the barn and its contents, including the horses and rigs. Possession is to be given today and the new proprietor will take charge personally.

C. A. Hitchcock, the new owner, is a pleasant gentleman to meet and will undoubtedly prove an acquisition to New Ulm's business circles. He was formerly mayor of Crookston. Mr. Hitchcock is not without experience in the livery business and the Review bespeaks success for him.

Alleged Fire Bug Captured.

Hugh Carson, a young farmer living near Fairfax, was arrested in South Dakota last week and is being held as the person responsible for the burning of the Phoenix roller mills of that place last February. Carson was brought back to Fairfax Saturday morning and arraigned but the state was not in readiness to prosecute and his preliminary examination was fixed for Friday. It is said that the evidence against Carson is very strong and there is a rumor to the effect that the detectives who worked on the case have secured evidence which will throw light upon other crimes. About ten years ago Carson's father was found dead under strange circumstances and the young man's present difficulty has revived ugly stories.

Would Recover For Team.

Papers were served Monday in an action to recover damages for a team of horses and the case will come up at the May term of the district court. Martin Mickelson of Linden, is the plaintiff and he asks damages in the sum of \$300 from Herman and Siver Nundahl of Hanska. On the night of February 13th, last, Mickelson was returning home from Hanska in a blinding snow storm. His team wandered off the road and out upon the frozen surface of Linden Lake. During the day the Nundahls had been cutting ice near the road and the horses fell into the hole. Both were drowned and Mickelson narrowly escaped. He places his loss at \$300 and has retained Hoidal & Somsen as his attorneys.

Building Plans Accepted.

A meeting of the committee having charge of the new Catholic parochial school building was held Monday morning to pass upon the plans for the structure. These were presented in person by Architect A. J. Van Deusen of Winona, and proved so satisfactory that they were adopted by the committee. The specifications are to arrive within a few days and as soon as they put in an appearance bids will be advertised for. From this time onward the committee will transact its business as expediently as possible, as it is desired to have the school house ready for use in the fall.

Low Rate Granted.

Andrew J. Eckstein, chief ranger of St. John Court, C. O. F., received word yesterday that the Chicago & Great Western railway had granted special rates for New Ulm men who wish to attend the Forester celebration at Oelwein, Ia., next Sunday. The fare from Mankato to Oelwein will be \$3.50 for the round trip and it will be possible for the party to get a rate of a fare and a third from this place to Mankato. All those desiring to accompany the excursionists are requested to leave their names with Secretary Thos. J. Kretsch.

* Save ice and keep your eatables fresh in an Alaska Refrigerator. They have no superiors. John H. Forster.

Are You Using Allen's Foot-Ease?

Shake into your shoes Allen's Foot-Ease powder. It cures Corns, Bunions, Painful, Smarting, Hot, Swollen feet. At all Druggists and Shoe Stores. 25c.

EAGLE MILL TO EXHIBIT

Local Company Secures Floor Space at St. Louis.

Will be Used to Advertise Their Brands of Flour.

Products Are to Be Shown in Agricultural Building.

Gold Coin flour and the various other brands manufactured by the Eagle Roller Mill company will be exhibited this summer at the Louisiana Purchase Exposition, at St. Louis, which opens on the 30th of this month and closes December 1st. All arrangements have been completed with the Minnesota Board of Managers for the World's Fair and a very desirable bit of floor space has been secured in the agricultural building.

That the Eagle mill's exhibit will be meritorious goes without saying. The management has a reputation for never doing a thing by halves and in this instance no expense will be spared to make the display attractive. Glass cases will be used in which to show the flour in bulk and they will also support silk sacks filled with the product.

The display will not only be a big advertisement for the company but also for New Ulm, and it is but natural that all our citizens should take pride in it. New Ulm flour enjoys a splendid reputation in this country and abroad for its purity and excellence, and the money spent in making the exhibit will without doubt prove a good investment.

At the Columbian Exposition at Chicago in 1893 the peerless Gold Coin carried off one of the highest awards and it will not be surprising if it is again successful at St. Louis.

COLLEGE TEAM WINS

Won First Baseball Game of Season Saturday.

In the first baseball game of the season, played at the fair grounds Saturday afternoon, the Dr. Martin Luther college team won from the New Ulm high school by a score of 11 to 7. The clubs were very evenly matched and the contest was by no means one-sided, giving a good exhibition to the large crowd of spectators. A series of three games will be played by the two schools for the championship of the city, which is now held by the college.

Pitcher Ehlen, of the college, was in good form Saturday. Early in the game he was batted rather freely but in the fourth inning he steadied down and after that the high school boys could not negotiate with his curves. Otto Burmeister pitched for the high school and did very well until the latter part of the contest, when his opponents batted out enough runs to win.

The score by innings was as follows:
College 2 1 2 0 0 1 2 3 0—11
High School 2 1 3 0 0 0 0 1—7

Paid Loss on Building.

In settling the fire loss upon Representative S. D. Peterson's residence, a representative of the Springfield Fire & Marine Insurance company accorded the owner of the building very liberal treatment. The face of the policy carried by Mr. Peterson was \$3,000 and was obtained through the local agent, N. Henningsen. On Thursday Robert Rose of Minneapolis, state agent for the company, came to New Ulm and after viewing the ruins he settled upon a satisfactory basis, allowing Mr. Peterson the sum of \$2,900. Mr. Peterson has not fully decided, but will probably rebuild.

Labor Convention Called.

Disputes from Duluth say that Secretary-Treasurer Wm. E. McEwen on Monday issued a call for the twenty-second annual convention of the Minnesota Federation of Labor, to be held in this city June 13th to 15th. The telegram goes on to say that it is expected that at least 350 delegates, representing the various branches of organized labor throughout the state, will be attendance, and that this gathering will be the most successful in the history of the federation.

Editor Higgins to Leave.

Chas. W. Higgins, for the past nine months editor of the Brown County Journal, has resigned his position and will leave in about two weeks to do newspaper work in Minneapolis. Mr. Higgins is a versatile writer and the work he has done in New Ulm has been uniformly good. During his residence here he has made many friends and these will sincerely regret his departure.

OTTOMEYER'S

Special Sale,

Next Monday, April 25th, 1904
