* A bold claim, but stands ready to be backed up by the manufacturers, that my special piano will keep in tune much longer than any other; heat, cold or dampness will not effect the standing of tune and will increase the durability of the instrument, wherein all others fail. Has a rich volume of tone, pure and of long sustaining singing quality. I sell direct from the factory at moderate prices, and at all prices, also organs and sewing machines. A dealer since 1871, I repair and tune free.
